WordEngineering

Kehinde (Ken) Adewumi Adeniji

A thesis submitted for the degree of Doctor of Philosophy in the Faculty of Science.
[Translate English...](#) [Yoruba](#)

Abstract

Thesis Statement: This dissertation introduces [AlphabetSequence](#) (2 [Corinthians 10:9-18](#)). The [AlphabetSequenceIndex](#) is the result of a pure function to sum alphabet places [AlphabetSequence.ca](#). The [AlphabetSequenceIndexScriptureReference](#) are the offsets from the beginning and the ending of the [Scripture](#). The [AlphabetSequenceIndexScriptureReference](#) consists of four parts; there are two references each to particular chapters and verses. The first mention is the forward verse, which the author calculates by determining the [AlphabetSequenceIndex](#) verse in the Bible. The second mention is the forward chapter, and this the author calculates as before, but by substituting the verse with the chapter. Both the backward chapter and backward verse are the corresponding, anticlockwise places. The importance of this work?

- 2021-05-20T17:26:00 [Follow God as a character.](#)
- 2022-11-29T12:53:00 [To track dates and words? And find meaning correlation.](#)

Where does the Bible list? Creation days, genealogies, allies, plagues, tribes, journey, commandments, reigns, kingdoms, disciples, fruit of the Holy Spirit, churches.

Acknowledgments

Chuck Messler of [Koinonia House \(KHouse\)](#) is worthy of note, faith.
The author is indebted to [Joy Schlessky](#), his Master's degree supervisor, at the [University of Technology, Sydney \(UTS\)](#), 15 Broadway Ultimo (NSW), 2007, Australia. The author is grateful to Tom Osborne, his Artificial Intelligence instructor; and Brian Henderson-Sellers, his Object-Oriented Technology instructor; both also at UTS. The author makes mention of his colleagues at UTS: Decier Mendez, Cesar Orcando, Ricardo Lamas and Peter Milne. The author stretches his open hand to Robyn A. Lindley, his Doctorate degree supervisor at the [University of Wollongong \(UOW\)](#), NSW 2522, Australia.

Theory

2004-11-10 www.JesusInTheLamb.com		
Part	Example	Commentary
Sub-domain	www	A sub-domain defaults to www.
Domain	JesusInTheLamb	
Country code top-level domain (ccTLD)	.com	An abbreviation for commercial. A default domain extension.
Directory and filename		The default, for example, is index.html
Fragment		
It is not an e-mail address, since it does not include an at sign, @.		
It defaults to port 80.		
It defaults to the homepage.		

The issuing of this domain name may be related to commencing writing the book titled Ocean Senior on 2004-03-23. There has not been a follow-up on future artifacts. But when one reads the Bible, the book of Revelation, which starts with the letters to the 7 churches in Asia Minor, does not instigate future alteration.

2026-06-24T18:01:00 [What use is the word... according to you?](#)

1. [Synonymous \(Genesis 22:8, Genesis 22:13\)](#)
2. Domain name valid
3. Grammar correct

The Bible Database

The Scripture Table

The content of the Bible SQL Server database is principally the Scripture table. The Scripture table has a [composite primary key](#), which consists of three columns; the BookID, ChapterID, and VerseID columns. The SQL statement

```
ALTER TABLE Bible..Scripture ADD CONSTRAINT PK_Scripture PRIMARY KEY CLUSTERED
(
    BookID ASC,
    ChapterID ASC,
    VerseID ASC
)
```

is for setting the primary key.
There are varchar(MAX) columns which has the text for each Bible version.

The Scripture Table's BookID Column

Because there are sixty-six books in the Bible, the BookID ranges between 1 and 66; starting from Genesis and ending at Revelation. The SQL statement

```
ALTER TABLE Bible..Scripture ADD CONSTRAINT CK_Scripture_BookID_Range CHECK (BookID BETWEEN 1 AND 66)
```

will set the range restriction.

The Scripture Table's ChapterID Column

The ChapterID ranges between 1 and 150; the SQL statement

```
SELECT MAX(ChapterID) FROM Bible..Scripture
```

is for determining the upper limit. The SQL statement

```
ALTER TABLE Bible..Scripture WITH CHECK ADD CONSTRAINT CK_Scripture_ChapterID_Range CHECK (((ChapterID)>=1) AND [ChapterID]<=(150)))
```

will set the range restriction.
[There are individual chapters for each book.](#)

The Scripture Table's VerseID Column

The VerseID ranges between 1 and 176; the SQL statement

```
SELECT MAX(VerseID) FROM Bible..Scripture
```

is for determining the upper limit. The SQL statement

```
ALTER TABLE Bible..Scripture WITH CHECK ADD CONSTRAINT CK_Scripture_VerseID_Range CHECK (((VerseID)>=1) AND [VerseID]<=(176)))
```

will set the range restriction.

```
SELECT TOP (1) BookID, ChapterID, VerseID, AmericanStandardBible, BibleInBasicEnglish, DarbyEnglishBible, KingJamesVersion, WebsterBible, WorldEnglishBible, YoungLiteralTranslation, ChapterIDSequence, VerseIDSequence,
    AccordingManyHaveSpokenID, Testament, BookTitle, ScriptureReference, ChapterIDSequencePercent, VerseIDSequencePercent, BibleReference, BookGroup, BookAuthor
FROM Scripture_View
ORDER BY VerseID DESC
```

Will say the longest verse occurs in the 19th book of the Bible, Psalms, and its 119th chapter; 597th chapter of the Bible, 16075th verse of the Bible.

The Scripture Table's KingJamesVersion Column

The author would have considered placing an index on the KingJamesVersion column, but the author found out during his research that the verse texts in the KingJamesVersion are not unique nor distinct, and indexes are not applicable to where like query conditions with leading wildcards.

The Scripture View's Testament Column

The SQL statement

```
(case when BookID <=(39) then 'Old' else 'New' end)
```

will set this computed column. The Testament column serves as a filter, such as, in the [BibleWordHistograms](#).

The Scripture View's BookTitle Column

The SQL statement

```
dbo.udf_BookTitle(BookID)
```

It is for determining this computed column. As expected, there is a correlation between the BookID column, and its corresponding BookTitle column; it progresses from Genesis to Revelation. Because SQL does not support arrays, the author chose to write an [SQL CLR C#](#) function for determining the BookTitle when passed the BookID. Although C# supports [Design by contract](#) assertions, and particularly pre-conditions, the author only checks BookID range validity, and returns NULL, if the argument does not fall within this range. The author could throw exceptions, but the author does not know the side effects nor the full ramifications. Instead of writing and determining the book title using C#, an alternative is to use a database table. A table with two columns, BookID and BookTitle, will store and make extractable the sixty-six books. For example, the first book of the New Testament, the 40th book, spelling is Matthew or Mathew, double t versus (VS) single t. An improvement on the current implementation is to use soundex to 2026-01-22T10:12:00 index the book title and determine the corresponding BookID.

The Scripture View's ScriptureReference Column

The SQL statement

```
dbo.udf_ScriptureReference(BookID, ChapterID, VerseID)
```

Will calculate the conjecture of the BookTitle, ChapterID, and VerseID. Since this is a computed column, therefore, the author is not able to set its [Entity Integrity](#); if it were not the SQL statement

```
ALTER TABLE Bible..Scripture ADD CONSTRAINT uc_Scripture_ScriptureReference UNIQUE (ScriptureReference)
```

Will set its entity integrity. The distinction between raw data versus computed columns is performance and space.

The Scripture Table's ChapterIDSequence Column

When loading data, the author decides the ChapterIDSequence column, and increments it when the BookID and ChapterID, change during loading. The ChapterIDSequence ranges between 1 and 1189, starting in Genesis 1 and ending at Revelation 22. The SQL statement

- Title
- Abstract
- Acknowledgments
- Thesis
- Results and Discussion
- Terminology
- References
- Appendices
- Background
- Prophecy and Fulfillment
- Autobiography

SELECT BookID, ChapterID FROM Bible..Scripture GROUP BY BookID, ChapterID ORDER BY BookID, ChapterID
will decide the greatest value for ChapterIDSequence. An alternative SQL statement

```
select count(
distinct
  cast(BookID as varchar(6))
  + ' '
  + cast(ChapterID as varchar(6))
)
FROM   Bible..Scripture
Another SQL statement
```

```
; with cte
(
  BookID
, ChapterID
)
as
(
  select distinct BookID, ChapterID
  FROM   Bible..Scripture
)
select cnt = count(*)
from   cte
The SQL statement
```

ALTER TABLE Bible..Scripture ADD CONSTRAINT CK_Scripture_ChapterIDSequence_Range CHECK (ChapterIDSequence BETWEEN 1 AND 1189)
will check the range correctness. Although it is good to know the ChapterIDSequence, but it is primarily used to decide the boundaries for scripture reference queries.

The Scripture Table's VerseIDSequence Column

When loading data, the author calculates the VerseIDSequence column, and increments it, every time, the BookID, ChapterID, and VerseID changes during the data load. There are some Bible books that have only one chapter, such as, Obadiah, Philemon, 2 John, 3 John, Jude; therefore, the author is careful when the choice is made to increment and update the VerseIDSequence column. The SQL statement

SELECT BookTitle FROM Bible..Scripture GROUP BY BookID, BookTitle HAVING MAX(ChapterID) = 1 ORDER BY BookID
is for listing these one chapter, Bible books. The VerseIDSequence ranges between 1 and 31102; starting from [Genesis 1:1](#), and ending at [Revelation 22:21](#). The SQL statement

SELECT COUNT(*) FROM Bible..Scripture
will decide the greatest value for VerseIDSequence, the total number of rows, records, in the Bible..Scripture table. The SQL statement

ALTER TABLE Bible..Scripture ADD CONSTRAINT CK_Scripture_VerseIDSequence_Range CHECK (VerseIDSequence BETWEEN 1 AND 31182)
will do the data integrity. As said earlier, although it is good to know the VerseIDSequence, but it is primarily used to decide the boundaries for scripture reference queries. The identity functionality which auto-increments, before inserting each row is useful, for ensuring this candidate primary key, abides by the entity integrity constraint; however, The SQL statement

ALTER TABLE Bible..Scripture
ADD CONSTRAINT AK_Scripture_VerseIDSequence UNIQUE (VerseIDSequence)
is supplementary.

The Scripture_View BibleReference Column

The SQL statement

```
((right('00'+CONVERT([varchar](2),[BookID]),(0)),(2))+right('000'+CONVERT([varchar](3),[ChapterID]),(0)),(3))+right('000'+CONVERT([varchar](3),[VerseID]),(0)),(3)))
```

will combine the BookID, ChapterID, and VerseID. This is a convention for referring to Bible rows, by a unique identifier, which consists of the BookID, ChapterID, and VerseID. The leading zeros are placeholders for blocks of IDs, such as, BookID which will have two digits, ChapterID which will have three digits, and VerseID which will also have three digits. It is easier, faster, and more compact to restrict and order by numbers rather than text. Listed below, is the result set, for this SQL statement.

SELECT ScriptureReference, BibleReference
FROM Bible..Scripture_View
WHERE BookID = 43 AND ChapterID = 1 AND VerseID = 1

ScriptureReference	BibleReference
John 1:1	43001001

There is a conversion page [BibleReference.html](#). Please note, that the author has not developed this further, it is just an introduction and speculation, which others may wish to adopt.

      );
    }

    public const int BookIDMaximum = 66;
    public const int ChapterIDMaximum = 150;
    public const int VerseIDMaximum = 176;
  }
}
```

Most of the applications, extract information, and query the Scripture table. If the user chooses to, he may choose to load another Bible version, into the Scripture table and the application will still work as usual, and there will be no need to make changes to the application; thereby, achieving [Separation of concerns / SoC](#).

The Exact Table

The [Exact](#) table's, primary task, is to tell, on the words that are in the Bible. Its information set include each word's first and last scripture reference occurrence(s), and count of occurrence(s). If the word, occurs only once, then the last occurrence is set to null. The incentive for writing the exact module comes from [Dave Huxell](#), who will talk of each word's specifics, and [Chuck Hadzler](#), who noted that the first occurrence of the word, [law](#) is in ([Genesis 22:2](#)). The exact table, is a holding area, for staying information; it could be argued that there is no need, to have this table, because it sources its information from the Scripture table, and it is available using [Language Integrated Query](#). The reasoning of the author is that the Scripture table is static data, and it does not need processing, each time, there is a request. Speed and lower work load are the advantages of the approach of the author; its disadvantage is that the exact table needs re-population, when there is a shift to another Bible version, which the author does not project, at this time. If there is a need, to support another Bible version, then the Exact table loading procedure needs expansion to aid, this flexibility. [Word Occurrences](#) is dynamic, and it supports the other versions of the Bible.

The [Exact](#) result for the author's initials, KAA, is Karkaa, meaning floor ([Joshua 15:3](#)).
2026-03-20T11:30:00 I will assist if life doesn't share us apart... [spread us apart](#) ([Genesis 1:16](#))? [Heikal](#) or [Helek](#) translated part or portion ([Nehemiah 12:15](#), [Joshua 17:2](#)).

The Exact Table's ExactID Column

The ExactID is an [identity column](#), meaning the database, SQL Server, auto-increments its value, before insertion. There are 12891 unique words, in the Bible..Exact table. The SQL statement

SELECT MAX(ExactID) FROM Bible..Exact
is for determining the highest value. The SQL statement

SELECT COUNT(BibleWord) FROM Bible..Exact
is for determining the word count. The SQL statement

- Title
- Abstract
- Acknowledgments
- Theory
- Results and Discussion
- Terminology
- References
- Appendices
- Background
- Prophecy and Fulfillment
- Autobiography

```
ALTER TABLE Bible..Exact ADD CONSTRAINT CK_Exact_ExactID_Range CHECK (ExactID BETWEEN 1 AND 12891)
```

is for the range restriction. For storage reason, the author has chosen, not to have a unique index, on this candidate primary key; in spite, of it being a query item. Future implementation, may issue the SQL statement

```
CREATE UNIQUE INDEX AK_Exact_ExactID ON Bible..Exact(ExactID)
```

SELECT SUM(FrequencyOfOccurrence) FROM Bible..Exact
is 789631; this is the count of the words in the KJV Bible

The Exact Table's BibleWord Column

These are the words that occur in the Bible, in the order of their occurrences. The author sets the primary key, the constraint, by issuing the SQL statement:

```
ALTER TABLE dbo.Exact ADD CONSTRAINT PK_Exact PRIMARY KEY CLUSTERED (Bibleword ASC)
```

The Exact Table's FirstOccurrenceScriptureReference Column

This is the scripture reference where the word first occurs in the Bible. The author may set-up the relationship by issuing the SQL statement

```
ALTER TABLE dbo.Exact WITH CHECK ADD CONSTRAINT FK_Exact_Scripture
FOREIGN KEY(FirstOccurrenceScriptureReference)
REFERENCES dbo.Scripture (ScriptureReference)
```

Please note, that as discussed earlier, the author cannot have, a unique constraint, on the Bible..Scripture.ScriptureReference column, since this is a computed column; the author can not keep up the relationship, at this time.

The Exact Table's LastOccurrenceScriptureReference Column

This is the reference to the scripture where the word last occurs in the Bible; if there is only one occurrence, the value of this entry is null. As with the FirstOccurrence column, the referential integrity rule applies.

The Exact Table's Difference Column

This is to measure the word's longevity; the difference in VerseIDSequence between when it first and last appeared.

The Exact Table's Occurrence Column

This is the pervasiveness of the word, how often is the word used in the Bible?

The WordEngineering Database

The WordEngineering SQL Server database, mainly consists, of four tables - HisWord, Remember, APass, ActToGod

The HisWord Table

The HisWord table is what the author heard from the source. The entries in the HisWord table are exact and representable in alphanumeric format (Numbers 12:6-8). In following, the Bible's New Testament convention, where there are translations of Hebrew words to English which is being interpreted, (Matthew 1:23, Mark 5:41, Mark 15:22, Mark 15:34, John 1:38, John 1:41, Acts 4:36); so also, there are translations of Yoruba words to English.

There have been cases when the author cannot spell and fully comprehend what he heard. In such cases, and not dispose of the records, the author will partly enter what he heard. This impedance mismatch between what the speaker said and what the listener heard, rarely occurs with English words. But it is likely, in the author's native language, Yoruba, which exploits word combinations and phrases. The alphabets differ slightly between the English and Yoruba languages; Yoruba contains diacritic alphabets. The author requires a Yoruba dictionary and translator; a recent success is with the <http://translate.google.com> web page.

The HisWord table's most important column, as the name suggests, is the word column, which is either English or Yoruba; or a mixture of both languages. The author will yield to the Holy Spirit in translating Yoruba words to English. From previous experience, this translation is not always the most right or relevant, and different words may contain the diacritic alphabets; therefore, introduce various meanings (1 Corinthians 12:30, 1 Corinthians 14). To account for the discrepancy in translation, the author sought help from the LORD:

1. 2015-11-02T22:55:00 And the merge is the money convert.
2. 2015-11-03T02:17:00 The specifics, a language.

The word column is a potential natural primary key, since duplicates are rare. When redundancies do occur, we may append the sequence to the word, to generate a unique word. We do this manually, but an insert trigger, will offer automation, and will cut the risk of primary key violation, which leads to gaps in the identity column and loss of data.

The HisWord's table, commentary column, contains implicit information. This communication is most likely non-verbal, and it is information such as creatures standing or moving towards particular locations or engaging in other visible activities.

As such, from the creation account, on the first day, there is a commandment, and there may be an action/response. The commandment is in the word column God created light ([Genesis 1:3](#), [Genesis 1:5](#)). The action is in the commentary column; God separated the light from the darkness ([Genesis 1:1-2](#), [Genesis 1:4](#)).

Microsoft SQL Server generates sequential numbers for the HisWordID identity column. The goodness of this technique is that it is a candidate primary key, data loss is trackable, and it provides a sort key. The HisWordID column may serve as the primary and/or foreign key, the backbone of the Referential Integrity Constraint.

The Dated column is of the DateTime type. If an insert statement does not explicitly specify a value for the dated column, then it defaults to the current date and time of the [\(UTC-08:00\) Pacific Time \(US & Canada\) time zone](#). There is a preference for the [Coordinated Universal Time \(UTC\)](#) format.

A relational constraint limit to a single foreign key? The author will choose either the most vivid or rare:

HisWord view

The HiWord2Vec word-embeddings are computed from the deduplicated analyzing the Word. The two most significant comparisons are the `AlphabetSequenceIndex`, and the related `AlphabetSequenceIndexScriptureReference`, respectively. The author derives the `AlphabetSequenceIndex` from the word by adding the place of the alphabets in the alphabet set. In the ASCII table, the lower case alphabets are between 97 and 122, and the upper case alphabets are between 65 and 90. The lower and upper case alphabets have the same places. The `AlphabetSequenceIndexScriptureReference` is the books, chapters, verses separation in the Scripture. The author will consider the chapter and verse place, forward and backward. Use the `AlphabetSequenceIndex` to calculate the computed values identified above. The `AlphabetSequence` is like `Genatria`, `Masara`, `Hechtrach` method. `Titles of God`.

The Remember Table

The Remember table tries to correlate the period between a prophecy and its fulfillment. * The [terminus a quo](#) DatedFrom is when the prophecy begins, and it marks the the date of issue or establishing of the prophecy. The [terminus ad quem](#) DatedUntil is when a prophecy partially or entirely comes to pass. * (Koionia House). [DateDifference.aspx](#) is for calculating the difference between terminus a quo, versus terminus ad quem; the results are in days; biblical years, months, days; the Common Era. The inspiration for adding the Common Era comes from [wikimedia.org](#) by Jimmy Wales;

To determine the HisWord and Remember entries? The author chooses to separate the particular and prompted inputs (Luke 4:19)

APass

First, inside and last dates

ActToGod

This is subjective work; the author applies intelligence to find patterns and resemblances in the Bible.

Scales & Measurements		
Type of Scale	Commentary	Example of Scale
Nominal Scales	The numbers may serve as tags or labels which are quantitative with no values.	- Introduced on July 1, 1963, the ZIP Code system (an acronym for Zone Improvement Plan) traditionally contained five digits. In 1983, an extended code was introduced named ZIP+4, these postfix a hyphen and four additional digits for more specific addressing. The author does not validate the Zip Code, since it is not a world standard. 2025-06-07T07:08:00 Our view of the world attains 94. - Telephone number
Categorical Scales		Dewey Decimal Classification used in libraries
Absolute Scales	An absolute scale is a count of individual, distinct items in the set.	- This may be the physical count of word occurrences in the Bible. - The count of books that are in the Bible groups. For example, there are 5 books by Moses, and 4 Gospel books. - The SQL COUNT() function returns the number of rows that matches a specified criterion. - The Microsoft SQL Server variable @@ROWCOUNT returns the affected rows from any statement, even if it's not DML or a SELECT query.
Ordinal Scales	An ordinal scale puts the attribute in a linear order. There are no operations or computations done with it.	- In an ordered list HTML element, 2025-06-08T09:22:00 the list items are sequentially arranged. - An identity column is a numeric column in a table that is automatically populated with an integer value each time a row is inserted. - The SQL ROW_NUMBER() function is a temporary value calculated when the query is run. To persist numbers in a table, see IDENTITY Property and SEQUENCE. - The @counter-style CSS at-rule lets you extend predefined list styles and define your own counter styles that are not part of the predefined set of styles. The @counter-style rule contains descriptors defining how the counter value is converted into a string representation.
Rank Scales	They have a linear ordering, and an origin. Having an origin prevent some of the transitivity problems.	- Military ranks - Mohs scale for hardness (geology) of minerals - Scifield scale for the strength of peppers - Completely Automated Public Turing test to let Computers and Humans Apart (CAPTCHA) is a type of challenge-response testing used in computing to determine whether the user is human in order to deter bot attacks and spam. The Contact table contains a title column. SQL offers a group by, and having clause. Strength of password? Soundex?

Type of Scale	Commentary	Example of Scale
Interval Scales	An interval scale is based on a standardized unit or interval. Another property of these scales is that they have no natural origin.	Date difference, UNIX epoch?
Ratio Scales	These scales have a base unit, natural origin and meaningful operations. We also allow the creation of compound units with ratio and interval scales. They are called ratio scales because the units of measure are expressed as multiples or fractions of some base unit.	• HTML input range • CSS percentage

(Joe Celko, 2025-03-07).

Relational Database Hierarchy

- Catalog: Is a collection of databases, for example, Bible, WordEngineering, URI.
- Schema: Is a collection of objects, which may include tables, views, indexes, stored procedures, triggers.
- Table: Is 2-dimensional with horizontal rows and vertical columns.
- Column: It is a physical actualized attribute.

Functional Dependencies		
Determinant	Functionally Dependent	Implementation
Bible.Scripture.BookID	Bible.Scripture_View.BookTitle	Bible.udf_BibleBookIDTitle()
Bible.Scripture.BookID, Bible.Scripture.ChapterID, Bible.Scripture.VerseID	Bible.Scripture_View.ScriptureReference	Bible.udf_ScriptureReference()
Bible.Scripture.BookID, Bible.Scripture.ChapterID, Bible.Scripture.VerseID	Bible.Scripture_View.BibleReference	((right('00'+CONVERT([varchar](2),[BookID],(0)),2))+right('000'+CONVERT([varchar](3),[ChapterID],(0)),3))+right('000'+CONVERT([varchar](3),[VerseID],(0)),3))
Determination is achieved through computed columns.		

(Allen G. Taylor, 2024).

Index Query Type

Query Type	Commentary	Example	Structured Query Language (SQL)
Point query	It will return only 1 record, and it is restricted by an equality condition on the primary key or unique index.	Useful for searching for a particular verse.	SELECT * FROM Bible..Scripture_View WHERE VerseIDSequence = 1
Multipoint query	It may return more than 1 record, as there may be multiple records. It is restricted by an equality condition on part of a potential composite key.	Useful for searching for a particular chapter or book.	SELECT * FROM Bible..Scripture_View WHERE ChapterIDSequence = 1
Range query	It returns a set of records whose values are within an interval or half interval. If it is restricted by both lower and upper bounds, then there is an interval. It is a half interval, if it specifies only one bound.	Useful for searching for consecutive verses, chapters or books.	SELECT * FROM Bible..Scripture_View WHERE VerseIDSequence BETWEEN 1 AND 10) SELECT * FROM Bible..Scripture_View WHERE VerseIDSequence <= 5
Prefix match query	The set is the match of an attribute.	The author is unfamiliar with any use-case where only the first part of the wildcard is searched. The first part of the scripture reference is similar. For the BibleWord searches, the author uses like for match queries.	SELECT * FROM Bible..Scripture_View WHERE KingJamesVersion LIKE (SELECT TOP 1 KingJamesVersion FROM Bible..Scripture_View GROUP BY KingJamesVersion ORDER BY COUNT(KingJamesVersion) DESC)
Extremal query	It returns either the minimum or maximum extreme.	Statistics	SELECT * FROM Bible..Scripture_View WHERE VerseIDSequence = (SELECT MAX(VerseIDSequence) FROM Bible..Scripture_View)
Ordering query	The records returned are sorted.	The results of the author are normally in ascending order.	SELECT TOP 10 * FROM Bible..Scripture_View ORDER BY VerseIDSequence DESC
Grouping query	The records returned are grouped.	Rarely does the author group rows by issuing the group by clause.	SELECT BookGroup, COUNT(BookGroup) BookGroupVersesCount FROM Bible..Scripture_View GROUP BY BookGroup ORDER BY BookGroup
Equi-join query	The records are retrieved from multiple sources.	The author uses views for table joins.	

(Allen G. Taylor, 2024).

Designing Software Architectures: A Practical Approach Making Design Decisions

- Principle 1: Use Facts
- Principle 2: Check Assumptions
- o This whole thing started with keeping a work reference.
 - o Even though Yoruba is the native language of the author, he still and invariably relies on translate.google.com.
 - o The author depends on a typing assistant.
- Principle 3: Explore Contexts
- Information re-use was the driving force of this software engineering. The author sought to learn programming and retain knowledge.
- Principle 4: Anticipate Risks
- The undesirable outcome and their probability of re-occurrence will include:
- o Data loss or corruption because of issuing the database modification command and lack of timely archiving
 - o Hardware, software, or network failure
 - o Vendor withdrawal of support
- Microsoft:
- Introduced .NET core and Model-view-controller (MVC).
 - Inability to restore deprecated Microsoft SQL Server backup versions.
 - Command-line reverse-engineering of database script does not conform with the newly released data types.
- Principle 5: Assign Priorities
- The author prefers to first build and implement his strengths and specialties in the back-end (database and process logic), prior to designing the creative user interface.
- Principle 6: Define Time Horizon
- What period has God used?
- o In the year 1988 — military census age: I Am taking you on a journey. I was 20 years old, and this was 12 years, before the year 2000, the millennium (Numbers 1:3, Luke 2:42).
 - o On 1997-12-31 — priesthood age: I have brought something against you, but I Am with you. My 30th year, and this was 2 years, before the year 2000, the millennium (Numbers 4:30, Matthew 7:16).
 - o In the year 2007 — generation time span: this masturbation will bring water. My 40th year (Numbers 14:33-34, Numbers 32:13).
- Principle 7: Generate Multiple Solution Options
- How versatile am I... at amending others? I have to relay my negregation to technology providers.
- Principle 8: Design Around Constraints
- Relational databases offer the ability to set constraints.
- o Data type
 - o Nullable
 - o Primary key and unique index
 - o Foreign key
- Principle 9: Weigh the Pros and Cons
- o Data import...data input: Initially, the author created an XML file and imported it into database tables via a C# program application. When this process malfunctioned, the author suspended his work. The author resumed work by doing data input via Microsoft SQL Server Management Studio grids. This diversion did not require database changes, achieving separation of concerns.
 - o The use of non-supported beautifying css is responsive web design.

(Humberto Cervantes, Rick Kazman June 2, 2024).

Hitachi Modern Data Infrastructure Dynamics Drowning in Data: A Guide to Surviving the Data-Driven Decade Ahead

- Microsoft SQL Server offers the capability to cut off the size of the result set. The GetAPage.html gets minute data from the various database tables and views. The user may be given the opportunity to customize which results to retrieve, for example, AlphabetSequence, BibleWord, HisWord, or Dictionary. A literate person may not need as much data. Setting this restriction will be concise queries.
- An approach is to offload computing to the local host.

(Hitachi 2023).

Database Performance

- Query optimization: Server-side database processing offers the best performance scenario. The use of stored procedures and functions is recommended. The hold backs are their deployments and SQL variances. Prepared statements are fast, resource lenient, cached, and they prevent SQL injection attacks. The author falls back on dynamic SQL for complex queries.
- Indexing: The author is well aware of the pros of indexing, but its cons include additional space and effort. The less performant productive database objects are keys and constraints.
- Data Modeling: Normalization
 1. First Normal Form (1NF): A relation meets this rule when each attribute has only one value. Another condition is that all the attribute values are atomic and non-composite. In the HisWord table there may be multiple contacts, but only the most

- [Title](#)
- [Abstract](#)

- [Theory](#)
- [Results and Discussion](#)
- [Terminology](#)
- [References](#)
- [Appendices](#)
- [Background](#)
- [Prophecy and Fulfillment](#)
- [Autobiography](#)

2. Second Normal Form (2NF): The ActToGod table does not comply with this rule, since its Minor column is functionally dependent on its Major column. Computed columns minimize the potential for this.

(Craig Mullins, 2023-12-18)

Database Management System (DBMS)

There are 2 types of DBMS. These are:

- Shared file-based: For example, Microsoft Access
- Client/Server: For example, Oracle, SQL Server, MySQL

SQL Usage

Database Information

Statement	Commentary
sp_databases	The sole work of the author, the WordEngineering database size, is currently 33390528 bytes
sp_server_info	The database version is Microsoft SQL Server 2025 - 17.0.1115.1
sp_spaceused	The WordEngineering database currently uses 32607.94 MB.
sp_statistics HisWord	The cardinality of the HisWord table is 122966.
xp_fixeddrives	Returns a list of physical hard drives and the amount of free space on each one.
xp_msver	Returns version information about SQL Server.

SQL Statement

Statement	Commentary
Select	The select statement for data retrieval is the most popular statement: <u>Most select applies</u> to <u>Bible..Scripture_View</u> . Using the select statement is safe, but it may impact performance. An alternate replication target repository may serve queries.
Insert, Update, Delete	The insert, update and delete statements are for data maintenance.

Where Clause Operators

Operator	Commentary
<code>==</code> , <code><</code> , <code>></code> , <code>!=</code> , <code><=</code> , <code>>=</code> , <code>!<</code> , <code>></code> , <code>>=</code>	The operators listed will check for a single value. The operators that consist of <code>!</code> , will check for non-matches. <u>In most cases, rarely is this in use, <code>!<</code> or <code>!></code>. This is the first time...he is becoming aware...of these expressions. This is the first time...he is becoming aware...of these operators. Quoting for a date or number will search for particular types.</u>
BETWEEN	This is a range check that accepts a beginning and ending value. It is not highly used.
NULL	No value
IN	A comma-delimited list of valid options within parenthesis.
LIKE	Wildcard filtering

(Ben Forta, 2017)

Database Scaling

- The transition to computed columns results in smaller storage requirements.
- Microsoft SQL Server supports multiple databases; therefore, reducing archive needs.
- Normalization, object-to-relational mapping, is light load.

Database Exclusivity

Row Limit

Title	Commentary
TOP	Set a limit of the number of rows returned or a percentage of the rows from the source.
SET ROWCOUNT	The database will retrieve all the rows, but if there are excessive rows it will later limit to required rows .

Where Clause

Title	Commentary
Like wildcard	Preceding or following restriction '%'
Check for NULL	IS NULL versus (VS) IS NOT NULL
Between range check	Lower and upper limits
Logical comparison	<, >, >=, <=, >=, <=
Table join supersedes the previous column key equal to	FROM table join primary and foreign key

Select Clause

The select clause may explicitly include a column list. Pre-compiled statements that implicitly cater for all the source columns, may not be up-to-date on the column-list.

Group By Clause

The group by statement is not for detail listing, except when it is used to regress to the distinct clause. Group by supports statistics, such as, count, sum, min, max, avg

Having By Clause

The *having* clause augments the group by clause. It places restriction on the group(s) returned.

Insert Statement

Inserts give room to omit the default columns. The Identity Insert statement also grants explicit entry of its identity column.

Nullable Column

Information unknown is useful for forwarding processing, until and if the information is added. Outer Join stands for this purpose

View

Enhances tables by compacting and/or extending the information set

Constraint

Primary and foreign keys, unique indexes and check constraints.

Data Cleansing

- Is the source of bad data input internal, on-line users, or error in programming? He doesn't envision error in reference data.
- Does the vendor have data definition language (DDL) to pre-empt data corruption?
 - Data type and size: String, number, date, logic boolean?
 - Not nullable? Can not be empty?
 - Range check: Expense must be greater than zero - Dates of activities must be after the establishment creation date.
 - Check constraints, for schedule, dated from must precede dated until.
 - Non surrogate primary and foreign keys with unique index help to ascertain data.
 - Default columns are probability system generated that the users may leave unfield that are available from sequence, identity, system clock.
- Is the data incomplete, such as abbreviation, for example CA or California, telephone numbers without country or area code?
- Is the data mass duplicated, or arranged in a way that allows for data modification? Transaction commit or rollback? Cascade?
- Duplicate entries are isolatable by using the group by clause.

The author prescribes the steps below to begin database set-up and usage

1. Acquire a database management system (DBMS). Various varieties of DBMS are available. The user may download a DBMS, get a compact disc, or select from the cloud.
2. Install a DBMS.
3. Create a user interface for managing the database. For Microsoft SQL Server, the choices include the SQLCmd console utility or the SQL Server Management Studio or Azure Data Studio.
4. Create database. Microsoft SQL Server supports multiple instances and databases.
5. The data definition language (DDL) includes the commands to create, alter, or delete tables, views, primary and foreign keys, indexes, constraints and defaults.
6. The data manipulation language (DML) are commands to insert, update, and delete the database rows and columns, with the option to use the where clause.
7. The SQL Server maintenance plan is for database housekeeping, for example, backup, restore, and re-arrangement.
8. Stored-procedures, triggers, and functions are programmable logic.

Indexing

The author manually indexes according to the following progression:

- The URI database is separable into the following tables:
 - URIChrist
 - URIEntertainment
 - URIGoogleNews
 - URIWordEngineering
- The SacredText table is for scripture reference.
- The Exact table is an index of the words in the King James Version (KJV) of the Bible.
- The source of information is in the bibliography section.

(Search engine indexing)

Structured Query Language (SQL)

Set theory

The set we will mostly deal with is the HisWord table. Is in order of occurrence.

Predicate logic

The choice of SQL Server impose 2 datatype limits.

(Itzik Ben-Gan, 2023-07-03).

GitHub

The Author Uses the Git Code Repository		
Key	Value	Commentary
Universal Resource Identifier (URI)	github.com/KenAdenij	This is the home page for storing the repositories.
Date Created	2013-04-27	This is the date of creating the github.com account.
Version	git version 2.29.2.windows.3	The git --version command offers the release detail. The author is not sufficiently knowledgeable on tracking the version update.
Configuration Profile	git config --list	The commands below will set the profile: git config --global user.name "your-name" git config --global user.email "your-email"
GitHub.com WordEngineering repository clone	1. git clone https://github.com/KenAdenij/WordEngineering 2. git remote -v 3. git remote set-url origin git@github.com:KenAdenij/WordEngineering.git 4. git remote -v	
Change Tracking	git status	This will decide the differences between your local copy and the version control code repository.
Add Updates	git add	The git add . command will add all the updates, or the user may add particular directories and files.

Accessibility

- Image elements have alt attributes; so that the reader may perceive what it shows
- The software offers the option to generate an image in the .png format
- The author does not duplicate hyperlinks
- The user may solely use the keyboard navigation to tab between the various controls, this substitutes for the taborder attribute. The autofocus attribute is for setting the cursor on the first input control.

JavaScript Optimizing native JavaScript

1. Excessive number of objects: Each web page mainly contains 2025-11-29T08:56:00 the minimalistic page_load() and query_submit() methods. Some web pages which use web services to retrieve information from the database also include <http://github.com/KenAdenij/WordEngineering/blob/main/ITS/WordEngineering/WordUnion/2432.js> which contains 1 object for data render methods, and two dimension arrays for select options. 2025-11-29T10:11:00 A JSON is the result set... returned from the database.
2. 2025-12-01T20:01:00 Unnecessary date manipulation: [http://github.com/KenAdenij/WordEngineering/WordUnion/2432.js](http://github.com/KenAdenij/WordEngineering/blob/main/ITS/WordEngineering/WordUnion/2432.js) does 2 types of date calculations. These are the:
 - Call the explicit nowTimezoneOffset(), daysAdd(), daysDifference() variations
 - 2025-12-01T20:16:00 Implicitly insert the date difference into an HTML table, DateUntil - DateFrom. 2023-02-17 BiblicalCalendar added to table, as a computation of FromUntil. [http://github.com/KenAdenij/WordEngineering/WordUnion/2432.js](http://github.com/KenAdenij/WordEngineering/blob/main/ITS/WordEngineering/WordUnion/2432.js)
3. 2025-12-01T21:17:00 Excessive error checking: The author does not do error checking, preferring to catch exceptions, for example in AJAX requests. [http://github.com/KenAdenij/WordEngineering/WordUnion/2432.js](http://github.com/KenAdenij/WordEngineering/blob/main/ITS/WordEngineering/WordUnion/2432.js)

```
fetcher: async function
(
    fetchUrl,
    fetchRequest,
    callback,
    uidisplay,
    rowColumn
)
{
    const postData = {
        method: "POST",
        headers: {
            "Accept": "application/json",
            "Content-Type": "application/json; charset=utf-8"
        },
        dataType: "json",
        credentials: "include"
    }
    postData.body = JSON.stringify(fetchRequest);
    try {
        const response = await fetch
        (
            fetchUrl,
            postData
        )
        .then(response => {
            return response.json();
        })
        .then(responseJSON => {
            var dataSet = JSON.parse(responseJSON.d);
            callback(dataSet, uidisplay, rowColumn);
        })
    }
    catch (e) {
        uidisplay.innerHTML = e;
    }
};
```

(Robert C. Etheredge, 2017)

Programming

The Author Programs in the Following Tiers and Languages		
Tier	Language	Commentary
Front-End Browser	HyperText Markup Language (HTML), Javascript, Cascading Style Sheet (CSS)	The front-end code may run on a desktop, laptop, or mobile telephone that offers a user interface (UI). The task is to accept the user query and to display the result. Initially, as a novice programmer, the author wrote specific code for each user request; later, the author rests on generic code which will handle multiple variety of requests. This is high-level programming, and the skill-set entry level is minimal. The author also believes that the users should not require any formal training to use his work. Customization is achievable by varying the request options, such as entry form selections, query arguments, or data attributes.
Middle-Tier Application	C#, Embedded-SQL	For backward compatibility, the author does not envision moving away from his legacy code investment in Microsoft. The only shift is positioning code away from database inconsistencies in back-end residency. To code, compile, debug, deploy, the experience of the author is with Microsoft Visual Studio and command-line tools.
Server-Side Backend	Standard Query Language (SQL)	The author most recent experience is with the Sybase and Microsoft Transact-SQL assortment. Now a days, to be compatible and after experimentation; the author rarely uses Standard Query Language - Common Language Runtime (SQL-CLR). The author does database data entry, maintenance, development by using the Microsoft SQL Server Management Studio.

JavaScript Basics: Data Types

- JavaScript supports three keywords for declaring variables. These are the var, let, const keywords.
- From its pre-conception, JavaScript supported the var keyword. When the author does not precede a variable initialization with a keyword, then the variable will have global scope. The author averts from variable hoisting. Variable definition with the var keyword is re-usable. The strict mode is a later addition to JavaScript that helps in enforcing variable rules.
- For one-time definitions, such as, issuing the document.getElementById command, the author relies on the const keyword.
- Unlike some typed languages, JavaScript does not support explicitly specifying the type of a variable.
- JavaScript string comparisons are by default case-sensitive.

Functions and Methods

- Methods are functions that are referable from a class. Methods support object orientation by offering encapsulation, inheritance, polymorphism. The author uses functions when placing localizable code inside the script section of a HTML file; otherwise, generalized methods are referenceable from a JavaScript library.
- JavaScript treats functions as first-class citizens, and they are passable as variables. This abstraction feature is rarely necessary. 2026-05-25T16:17:00 On several occasions, <http://github.com/KenAdenij/WordEngineering/blob/main/ITS/WordEngineering/WordUnion/GetAPage.html> calls the [http://github.com/KenAdenij/WordEngineering/WordUnion/2432.js](http://github.com/KenAdenij/WordEngineering/blob/main/ITS/WordEngineering/WordUnion/2432.js) ajax() method, and it passes the successCallback method variable name.
- JavaScript does not support method overloading. The earlier arguments array variable and the later parameter default initialization supplements.
- The author consistently uses anonymous functions for processing the success and error returns when using jQuery to access web services.

Conditions

- The author emulates the Microsoft ASP.NET Page.IsPostBack property check, and when it is not so, parse the query arguments; otherwise, skip the parsing and proceed to page submission.

Arrays and Loops

- For displaying the Bible book titles, the 66 books are in a JavaScript iterable array. This reduces the data load from the server to client, and it offers spelling flexibility. The select options resemble similar customization.

HyperText Markup Language (HTML) Document

- The DOCTYPE is the first declaration in an HTML document, and it is the conformation standard specification.
- The html tag is the root and the container for all the other tags.
- The head tag contains the title and the meta tags for the search engine optimization (SEO). The various documents will indicate the cascading style sheet (CSS) directive.
- The body tag contains the visible content of the document. Its resultSet or resultTable div will contain the particular details that the program generates.

(Microsoft)

Data Science

- [Title](#)
- [Abstract](#)
- [Acknowledgments](#)
- [Theory](#)
- [Results and Discussion](#)
- [Terminology](#)
- [References](#)
- [Appendices](#)
- [Background](#)
- [Prospecty and Fulfillment](#)
- [Autobiography](#)

1. The relational model is for storing information in tables.
2. The author normalizes data using Object-relational mapping.
3. All the databases are OLTP (Online Transactional Processing), not OLAP (Online analytical processing).
4. Avoid deadlock occurrences by not permitting user database updates.
5. All the transactions follow similar routes and sequences, and the author practices granularity with the locks.
6. Database updates are through stored procedures, which recognize and avoid the potential of integrity violation.

Database Security

1. The secretive web.config file contains the database access information.
2. The web.config file does not explicitly mention the user login name nor password.
3. Give access rights to roles, not to specific login identities nor user names.

Database Data Types

1. Choose matching data types between the database and application layers.
2. Only pick varchar(max) and nvarchar(max) as the data type, when it is essential to store large data.
3. Prefer the decimal type; when recording the amount in currency rather than using the float type.

Nullable Type

1. Consider defaulting textual data to empty string; instead of NULL.

Indexes

1. Database changes lags with indexes.
2. The field sequence in indexes should follow the frequency of usage.
3. When using a composite index, place a clustered non-unique index on the major column.

Naming Conventions

1. Overall, consistency encourages lowercase keywords. Keywords in lowercase are mandatory in case-sensitive programming languages like C# and JavaScript, but not in SQL.
2. Use Pascal casing for naming literals, such as, tables, columns, stored procedures and functions.
3. Use Camel casing for naming parameters and local variables.

(ABB Asa Brown Boveri)

Performance

The web page components practice of the author, include:

1. Keep the count of web page components to a minimum
2. Specialize input entries by using the most simple and basic component
3. Reduce bloating by limiting the use of framework and library

(Stoyan Stefanov)

Performance Suggestion

1. The most consistent id="resultSet" is usually for AJAX. The self-descriptive tags that do not influence the result normally do not specify IDs, this is left to the browser's decision.
2. Browsers place restrictions on the number of concurrent connections to a particular domain and the overall parallel connections. Consider spreading out the resources to multiple domains.
3. The author standardized on the .png image format because there are few colors.
4. In the year 2008, when the author tried to move away from html table layout styling, the rendering was anaemic.

The Cascading Style Sheets (CSS) performance suggestions include:

1. Since, by default, CSS is a render-blocking resource, the author should take advantage of the critical rendering path with media types and media queries.
2. All the programming .html files refer to the common 9432.css file, except this ubiquitous 2015-10-23DoctoralDissertation.html documentation file which includes css.

The JavaScript performance suggestions include:

1. Make use of browser cacheable content delivery networks (CDNs). For example, <http://code.jquery.com/jquery-latest.js>

(Lara Callender Hogan)

High Performance Browser Networking

For Internet connections, the contributing factors include:

1. Propagation delay - The consideration is the speed of light in the medium of transport. On the Internet the speed varies according to the medium which may be (DSL, cable, fiber) in order of performance. The speed of light, which was presumably constant, but now, may be declining. The author chooses the most accessible route. Typically, working within the confines of a building. This research excludes other participants. The environment is transplantable for other uses. The route and environment impose limitations on the local host. The traceroute command on the Linux operating system, or the similar tracert or pathping commands on the Windows operating system, will give travel speed. The author will look into the last-mile tendencies of the Internet Service Providers (ISP) in the area. The receive window (rwnd) of the server should be adequate, since the users do not upload videos nor images.
2. Transmission delay - The time to input the packet into the link, which is determined by the length of the packet and the data rate of the link. On the author's behalf, the Bible book ID is transmitted to the client and convertible to the title by JavaScript. Formatting is done by the client.
3. Processing delay - The duration of processing the header, detect bit-level errors, and determine the other end. In an Intranet environment, this is done locally.
4. Queuing delay - The processing wait time is dependent on the browser supporting multiple page tabs, and other applications using the network?

Most of the work of the author is available at the following locations, in the order of accessibility:

1. The current web page, such as, 2015-10-23DoctoralDissertation.html file
2. The general Cascading Style Sheet, 9432.css file
3. The general JavaScript file, 9432.js file
4. The specific Web Service file, such as, ScriptureReferenceWebService.aspx file
5. The dynamic link library file, InformationInTransit.dll file
6. The database

The reason for noting this observation is that the Domain Name System (DNS) lookup time is low; since the author uses relative directory addressing as much as possible and only uses root addressing for calling web services. The .html and .asmx files are in numerous directories, because GitHub.com directories have content count limitations.

Images:

1. The author does not use background-image nor list-style-image
2. The thesis only contains images for database and object modeling
3. The author does not use [CSS sprites](#) since it requires additional storage space
4. The author does not use Data URIs
5. The author does not support nor take advantage of Expires Headers
6. This research excludes compression and minification; because the file sizes are low and technology conformity

(Ilya Grigorik)

Web Performance 101 JavaScript:

1. The author will not consider minification. Because he cannot justify compressed file duplicate mix-up. A single compressed file is less readable and maintainable. An automated build and deployment process may suffice.
2. DOM chattiness? The author currently builds the entire table, and he sets the innerhtml of the div. For faster visibility, the author may build a table by first setting its header, and appending rows.
3. The author should take advantage of the async script parameter. Because the actions of the scripts are invoked after the page load.
4. Code splitting with import serves well for web components and rare tasks.

Web Performance 101 Cascading Style Sheets (CSS):

1. Critical CSS is in the style sections of HTML files.

Web Performance 101 content delivery network (CDN):

1. The author is deprecating the use of the jquery library which was solely used for AJAX, in preference to the fetch statement. 2025-12-10T21:02:00 This removes single point of failure (SPOF).
2. The author only uses the latest version and a unique uri for each library available on CDN.

(Ivan Akulov)

Backup and Off-site Storage

The author archives the database and source files to the local computers, Google, Microsoft drives, after changes. The author uses GitHub.com version control.

Development Time

The development time is separable into the time it takes to program, compile, test, deploy. The stored procedure, C#, ASMX, HTML files are build-able in one day, in most use-case.

Reproducible

The deliverable of the author is transferable to other environments to reach similar conclusions.

Database Deployment

The author suggests the following alternative methods for deploying the databases:

- 1. Restore
- 2. Attach
- 3. Detach
- 4. SQL Server Data Definition Language (DDL)

Surrogate Keys

The author takes advantage of potential natural primary keys; otherwise, the author uses surrogate keys. A surrogate key may be an identity or GUID type column. URIs are examples of natural primary keys.

(Joseph Sack, 2008)

Application Programming Interface (API)

- The common uri scheme, endpoint, that the author prefers for security reasons is <https://e-comfort.echaimtech.com/WordEngineering>
- The Top Level Domain (TLD) is the same for both the website and the API, thereby allowing for sharing of cookies.
- Content Located at the Root: The practice of the author is to place the website and their companion API files in the same directories, as they are joinable. The author will not uniquely treat API files. The author makes a case for directory browsing, and there is a special help documentation file.
- Microsoft released ASP.NET MVC on December 10, 2007. <http://stackoverflow.com/questions/4195610/designing-rest-api-endpoints-with-params-vs-query-params>
- Out of the Create, Read, Update, and Delete (CRUD) 4 operations, the API only supports the HTTP read, SQL select statement.
- Filtering Resources: SQL offers a column list, where, top, limit, and order by clauses for matching data.
- Body Formats: The load penalty in XML outweighs the newness of the JSON transport medium.
- HTTP Status Codes: JQuery satisfactorily handles the success or error of an asynchronous operation.
- Expected Body Content: Each API may currently return either a dataset, datatable, or a top level JSON object. The URI database is maintainable via a Patch request type to update a particular record's subset of fields/columns.
- Versioning: The progress includes:
 - Migration to computed columns
 - Normalization
 - Naming Conventions, SQL for example, is generally case agnostic

(Consumer-Centric API Design)

Data Structures and Algorithm Analysis

- The exact-match query is to search for a single Bible book, chapter, or verse. In the case of a verse, the top 1 clause is appropriate to efficiently return a single record. The range query is to search for information within a boundary.
- The Remember table's ResultOutputFirst bit column is a rare Boolean datatype. It is for documentation purposes and it says the FromUntil period is known and it is used to determine either the FromDated or UntilDated column.
- An identity column is a specialization of the integer data type, in that the database issues the next sequence. Most of the tables make use of the identity column as a surrogate primary key.
- The aggregate or composite type attempts to store each particular type in its own table, when this is not optimum then normalization calls for several tables distribution joined within one view. The contact record is a single logical datatype spread to multiple physical implementations.
- When the author hears a word, what does he do with it? He dates the word, he expresses it grammatically, and he finds a place for it in his memory. For a later date, the author reminds himself.

Problems, Algorithms, and Programs

Problem

When we hear the word, how do we endeavor in Him?

Function, Input, and Output

The input is the word as the only parameter. The output will find meaning in the word of God. The response of the computer is within the range of the result set.

Sets and Relations

- The alphabets and words make-up the author's work. The composition of the words is indefinite.
- The ASCII table set composes 26 upper and lower case alphabets. Their places will originally decide the AlphabetSequenceIndex.
- The digits and their larger representations of numbers are also in the ASCII table. These are computable in determining the AlphabetSequenceIndex.
- The null character is in the Word column, when there is only commentary.
- Cardinality: Microsoft SQL Server places a limit on the maximum size of a VARCHAR column type, 8000. When there are 2 or 3 words, the author does further computation.

Asymptotic Algorithm Analysis

- The computer serves the author in due time. The size of the users' input, the number of users, and the complexity of their requests will weigh on the system.
- This is the approximation measurement of how long it should normally take to determine the AlphabetSequenceIndex. The prediction is the length of the word multiplied by the average period taken to determine the place of each alphabet. The growth rate is that the processing time increases, as the size of the input grows. There is linear growth, since the growth rate is constant.

Best, Worst, and Average Cases

There is no variation in time for determining the AlphabetSequenceIndex and AlphabetSequenceIndexScriptureReference. The size of the word will influence AlphabetSequenceIndex, but this should not be noticeable. When parsing and retrieving scripture reference and Bible word, there may be size and time differences.

Calculating the Running Time for a Program

The author uses a for loop to calculate the AlphabetSequenceIndex.

```
var alphabetSequenceIndex = 0;
word = word.ToUpper();
var ascIIA = 65;
for
(
    var index = 0, lengthSize = word.Length;
    index <= lengthSize;
    ++index
)
{
    if (IsAlphabetic(word[index]))
    {
        alphabetSequenceIndex += (int)word[index] - ascIIA + 1;
    }
}
```

The cost of executing the for loop is O(word.LengthSize)

Lists

- One of the few occasions that the author uses a list is when building the Exact table. The author creates a list of words and stores this transient information in memory. The author checks the existence of each word in the list. When it is a new word, the author appends it to the bottom of the list. Otherwise, the author increments its occurrence. At the completion of parsing the words, the author stores the list in a database table. Creating the exact table is a one-time operation, and it takes a couple of hours to complete.
- The author is comfortable and familiar with using datasets and datatables for work areas. The author uses JSON as a transport medium.

(Clifford A. Shaffer)

A generic grouping of concepts and their representation

Module	Unit
GetAPage.html	retrieveAlphabetSequence()
AlphabetSequenceWebService.asmx	Query(word)
AlphabetSequence.cs	ID(word)
	ScriptureReference(int alphabetSequenceIndex).
DataCommand.cs	DatabaseCommand()
WordEngineerionSchema.sql	WordEngineering.dbo.udf_AlphabetSequenceIndexScriptureReference(ID)

(Joost Visser)

GetAPage.html Program Flow

The event handlers are the first code the system executes. These are the page load, submit click, item change events. If this is a page load event, and it is not a postback, and the query string has a word argument, then the processing of the word occurs. If this is a postback, then it is the user's data entry that the system processes. The term processing means the browser submits the word to the back-end asynchronous web services and renders each result.

International Standard ISO/IEC 25010. Systems and Software Engineering -- Systems and software Quality Requirements and Evaluation (SQuaRE) -- System and Software Quality Models. First Edition, 2011-03-01.

- Autobiography

Software quality is demonstrable in eight characteristics: maintainability, functional suitability, performance efficiency, compatibility, usability, reliability, security, and portability.

Maintainability

Corrective Maintenance

This is error correction.

Adaptive Maintenance

Transition from building console to web applications.

Perfective Maintenance

The author now considers partial and lookback scripture references. Such as, when there is no book title, then this default to the earlier book title. Choosing the right [.NET Framework Data Providers](#). The author standardized on ODBC; the other choices are OLE DB, or SQLClient.

Preventive Maintenance

Servicing the system to avoid larger mishaps.

Metric Quality Profiles

Unit Size Quality Profiles

Module	Unit	Lines of Code
GetAPage.html	retrieveAlphabetSequence()	40
AlphabetSequenceWebService.aspx	Query(word)	10
AlphabetSequence.cs	ID(word)	50
	ScriptureReference(int alphabetSequenceIndex).	10
DataCommand.cs	DatabaseCommand()	90
SQL Server	WordEngineering.dbo.udf_AlphabetSequenceIndexScriptureReference(ID)	105
Sum		325

Determining the AlphabetSequence takes 325 lines of code, which starts and callbacks 40 lines of AJAX code and concludes with 200 lines of database interaction. A unit of code should not exceed 15 lines. All the web services (.asmx) files return JSON by default; the AlphabetSequenceWebService.aspx file, Query method, returns a hand crafted JSON which has a numeric AlphabetSequenceIndex and a string AlphabetSequenceIndexScriptureReference.

Limit the number of branch points per unit to 4

The C# compiler will translate code to an intermediate language (IL). This code runs Just In Time (JIT), according to the condition clauses and operators. In the case of dynamic SQL, re-compiling imposes cost.

The Twelve-Factor App

- Codebase: The WordEngineering application is storable in the [GitHub.com](#) version control with a one-to-one mapping between the codebase and the application. There are multiple but separate websites that access the InformationInTransit.dll. The author builds the InformationInTransit.dll in the developer's working directory, and deploys the InformationInTransit.dll in each production's website bin directory. The steps for storing files in GitHub.com are:
 - git status
 - git add
 - git commit
 - git push
- Dependencies: The web.config file identifies the .net library versions that the environment should contain. The third-party supporting libraries are in the software bundle.
- Config: The web.config file contains the database connection strings; web services user specific credentials. The system administrator at external locations may customize these information for there specific use.
- Backing services: These are external independent resources, such as the database, SMTP.
- Build, release, run: These are the stages that a code goes through. Code compilation is deferrable for scripting, as opposed to compilable languages. Ever since the advent of the Java programming language, Just-In-Time (JIT) execution has been the norm.
- Processes: The author's earlier applications were stand-alone console applications that are run by the .NET Framework, later examples are the ASP.NET web pages and services. These applications run in a single thread, except they share static variables.
- The SQL Server encompasses services which are stoppable to do data files backup.
- Port binding: Web servers traditionally run on port 80, and SQL Server runs on the changeable port 1433. Javascript's Node and Python's Flask run on diversified ports.
- Concurrency: The author isolate his applications from the particulars of the base scaling concurrency choice.
- Disposability: The author's take on expendable work includes the following:
 - Pure functions
 - On-demand compilation of web pages and services
 - Adjustable time-out setting for the database and web request threads
 - The .NET Framework minute work, such as, the singleton design pattern, and static method calling and variable(s) initialization
- Development/production parity: By first finalizing non repetitive work, the author can now focus on specialization activities.
 - The time gap: These include placing the common work in a central environment. Superseding the waterfall methodology with the more recent process, Agile and Scrum.
 - The personnel gap: Dev/ops expertise
 - The tools gap: The author prefers the stable infrastructure to the fly-by-night trends. Testing on the multiple operating systems and the various programming languages reflects the author's wish for compatibility. Prior to advent of the Internet, communication did not support a worldwide trend; therefore, the need for distributing scaling, that is remote applications depending on the scarce resources.
- Logs: The author logs exceptions, that is, viewable in the Event Viewer. The author displays error messages to the user; the .NET Framework determines the detail, and the localhost address offers in-depth peculiarities.
- Administration processes: These are one-off tasks that the environment demands of the knowledge worker. The tools are available everywhere for achieving the goal. Prior to graphical user interface (GUI), these are command-line responsibilities.

(The Twelve-Factor App)

Who, what, when, where, why?

Who

The author gives credence to the information source. Whenever it is possible, the author identifies the speaker. If the source is attributable to him, the author rarely explicitly identifies himself.

What

The primary contribution of the author is the word. The author draws upon the word of God and tries to derive meaning.

When

God gives most of His information in a dream, vision or face-to-face.
How do people place date? On each day of the week (Genesis 1-2)? Seniority comes first ([John 1:15](#), [John 1:27](#), [John 1:30](#)).

Where

The author refers to the physical location or scenery of participation.

Why

The endeavor of the author is to share the word.

Artificial Intelligence

Deep Learning

Utterances are storable in the Word column of the HisWord table. An expressible event is storable in the Commentary column. The information relay is the basis for more computation in the HisWord_View and Remember_View tables.

Machine Learning

Our entirety chiefly pertains to Him.

Multilayer Perceptron (MLP)

DateDifference.html is browser computation, built on JavaScript. The overall function calls particular functions for determining the days difference in the Biblical and Gregorian Calendar.
DateDifference.aspx is a server-side C# ASP.NET web form.
The Remember's table computed columns are Transact-SQL and SQL-CLR functions.
Our computation is separable to back-end and forward-end code residence; SQL-CLR provides the opportunity to have functionality callable from both parts.
Code re-use sounds good, but it is dependent on many factors.

Feature

He addressed time. Each information the author measures is a feature that the author appraises. The features are the words spoken and the events seen.

Factors of Variation

These are out of context attributes that influence the outcome. Outside the context of managing. Their influence is not determinable.

Depth of the Computational Graph

The author does ASCII code alphabet place summations. There is just not one result, but a set of alternatives; the user may select the most right. For example, AlphabetSequence, produces an index and a scripture reference. The depth in the case of AlphabetSequence is two, with the first result, index, acting as an entry to the second result, scripture reference. The index is an arithmetic calculation, addition; the second result, scripture reference, is a composition algorithm that includes determining the beginning and end span, for the chapter and verse.

Depth of the Probabilistic Modeling Graph

This checks the path to our succession, the thread between concepts. Earlier and recent entries are comparable. The earlier Bible versions serve as a resource for the later versions of the Bible.

Probability

Formerly, the HisWord's table primary key is its Word column, and in SQL Server the maximum size of a unique key is 900 bytes; therefore, the limit of its distinct entries is $900^2 = 900 \times 900 = 810,000$. The limit of its distinct entries is $900^2 = 900 \times 900 = 810,000$. The limit of its distinct entries is $900^2 = 900 \times 900 = 810,000$.

Degree of Belief

In [GetAPage.html](#) the author will consider the word(s) AlphabetSequenceIndex and AlphabetSequenceIndexScriptureReference. The AlphabetSequenceIndex and AlphabetSequenceIndexScriptureReference correlate. Each word is a feature, however, hidden and has a contributing influence on the result.
In the BibleWord section, the author will look at each word, in the context of the sentence, and see if it is in the Bible, as a phrase or word combination.
In the BibleDictionary section, the author will explain the meaning of each word. The degree of belief is most certain; since we display each word found in the Bible dictionaries.

Frequentist Probability

In [GetAPage.html](#) the same input will produce the same result; because the database is consistent. When the user enters a new word, this trains the system.
WordEngineering started out as the author trying to use the Bible to decipher God's word; however, to do growth, personalization, customization, appeal to more audience. Our task is to see them, say, I done ([John 19:30](#)) [Specifications...is done](#).

Bayesian Probability

- [Title](#)
- [Abstract](#)
- [Acknowledgments](#)
- [Theory](#)
- [Results and Discussion](#)
- [Terminology](#)
- [References](#)
- [Bibliographies](#)
- [Background](#)
- [Prospecty and Fulfillment](#)
- [Autobiography](#)

Making specific, a generalization; given one result set, can the author make a general result? Does it stand the test of a general audience? Does a sample, qualify for the total?

Random variable

The AlphabetSequenceIndex may range between 1 and $(8000 * 26)$, 1...208000; 8000 being the largest length of a SQL Server VARCHAR datatype column, and the count of alphabets being 26. This is a discrete set; since it is finite.

Probability Mass Functions

Each sentence will give the same result, and this value is a weighted value of the result set; please note that vowels are probably more popular than consonants, and parts of speech have different frequencies of occurrences.

(Ian Goodfellow, 2016)

Statistics Terms

Key Terms for Data Types

Continuous

The Dated column is a valid DateTime, and generally, it is ongoing, rarely does the author backdate.

Discrete

The identify columns and AlphabetSequenceIndex are integer values; that fall into a small unique set.

Categorical

The AlphabetSequenceIndexScriptureReference is of the scripture reference type, and it is a string.

Binary

The Testament column is either Old or New.

Ordinal

The identify columns are all ordinal, following an ascending order.

Key Terms for Rectangular Data

Data frame

The data storage is a relational database; other options include spreadsheet, comma separated value (CSV), eXtensible mark-up language (XML), JavaScript Object Notation (JSON) file format.

Feature

The most important predictor columns are the Word, Dated, and ContactID.

Outcome

The records columns include the AlphabetSequenceIndex, AlphabetSequenceIndexScriptureReference and FromUntil date difference.

Records

A row in a spreadsheet is comparable to a database table record.

(Bruce et al. 2017).

Software Engineering

Programmer's Workbench (PWB)

This technology will make all the before and current versions of the code accessible, re-viewable, and testable.

All the words that the author hears while sleeping are recordable and the author has never had any tendency to alter this utterance from the LORD. When the author is awake and he says something, out of his own volition and pre-meditation, he has massaged this information, but now he rarely does so. The words in the past and future event dates are useful for remembrance entries. As the author technically matures, he automates manual work.

The dreams are re-collect-able, and recallable ([Numbers 12:6-8](#)).

I have made what I have spoken, ready

Web Design Fundamental

Business Model

The Bible fits man's perception. The author adapts to what he learns.

Project Management

The author is journeying the Bible database. The first step of work is to store the Biblical text in an electronic medium. The second step of work is to create an application layer that will access this information in a non-proprietary format. The on-going work is to present as relevant today.

Information Architecture

How will this scriptural text bring new originality? What events of today, follow the text?

Page Design

What He brings to us, is a form of Him.

Content Authoring

How query means more ([Isaiah 43:22](#))?

Linking Strategy

This is what I have done; this is what you will do. What did we understand as His part, what did we understand as our future? To reflect, My correlate. In an anchor, if there is no href attribute or its empty; then the browser should link to the default search engine as its destination and pass its innerText. Alternatively, when the user right clicks on a browser hyperlink, there may be a suggestion option for the search engine to re-direct to a specific web page or to list URIs as in a browser search. Supplementary information for a href attribute is meta-data and [gibbs.com](#).

(Jakob Nielsen, 2000)

Web

We will make advancement over Tim Berners-Lee earlier idea of a unified web:

1. Cascading Style Sheets (CSS) will offer customization of what the user views by the use of, for example, Media Queries.
2. Single Page Application (SPA) will circumvent the unit of navigation.
3. Uniform Resource Identifier (URI) is supportable by other means of specifying information, such as Global Positioning System (GPS) Geo-Location.
4. Clients such as browsers store information on cookies, local and session storage.

(Jakob Nielsen, 2000).

Hypertext

The author presents this dissertation in a hypertext format. The table of content is to the left and it contains focusing anchors and internal links, to the rest of the document which is to the right. The references section contains broadening links to external documents, which are available on the web. The web applications do not contain internal links. Same Origin are for retrieving scripture reference, Bible word; Cross-Origin Resource Sharing (CORS) are for requesting information from external URIs.

(Department of Computer Science at the University of Cape Town).

Characteristic

Resilient

[GoldPage](#) The Bible is separable into parts; these are books, chapters, verses. Dividing a life, according to purpose ([Matthew 1:12](#)). 14 Biblical Generations = $14 * 40 * 360 = 201600$.

[DateDifference.aspx](#) The .NET Framework, C# and SQL Server support the Common Era; the date ranges between 0001-01-01 and 9999-12-31. The date difference will display correctly for the time interval - days, Biblical Calendar, and all the dates after the introduction of the Gregorian Calendar.

Declarative

SQL, Linq, CSS are declarative languages, but JavaScript is a functional language.

Contextual

Enhancements to JavaScript, such as const and let influence hoisting. So does script literal, strict mode, class.

The C# class container model and the optional namespace alias content the author.

Cascading Style Sheets (CSS) is modular, and its rules trickle down.

Continuous

Placing the [App_Offline.htm](#) file in the virtual directory of the web application will shut-down the application, unload the application domain from the server, and stop processing any new incoming requests for the application.

A single batch file, with a single command line, builds the only .dll, InformationInTransit.dll

```
csc /out:InformationInTransit.dll /target:library /recurse:".*" /
reference:System.DirectoryServices.AccountManagement.dll,"bin\Debug\WtaAgilityPack.dll","bin\Debug\lTextsharp.dll","bin\Debug\MongoDB.Bson.dll","bin\Debug\MongoDB.Driver.dll","bin\Debug\MongoDB.Driver.Core.dll","bin\Debug\Newtonsoft.Json.dll","C:\Windows\Microsoft.NET\Framework\v4.0.30319\WPF\PresentationFramework.dll","bin\Debug\System.Speech.dll","C:\Program Files (x86)\Microsoft SQL Server\100\SDK\Assemblies\Microsoft.SqlServer.ConnectionInfo.dll","C:\Program Files (x86)\Microsoft SQL Server\100\SDK\Assemblies\Microsoft.SqlServer.Smo.dll","C:\Program Files (x86)\Microsoft SQL Server\100\SDK\Assemblies\Microsoft.SqlServer.Def.Adapters.dll","C:\Program Files (x86)\Microsoft SQL Server\100\SDK\Assemblies\Microsoft.SqlServer.Def.dll","C:\Program Files (x86)\Microsoft SQL Server\100\SDK\Assemblies\Microsoft.SqlServer.Def.SqlClnWrapper.dll","C:\Program Files (x86)\Microsoft SQL Server\100\SDK\Assemblies\Microsoft.SqlServer.Management.Sdw.Sfc.dll","Microsoft.VisualBasic.dll /nowarn:162,168,219,618,649 /unsafe
After testing, InformationInTransit.dll is deployable to the WordEngineering's virtual directory, bin sub-directory. This transfer is via the copy command or the Microsoft Windows Explorer user interface (UI).
```

When the content of a server-side file with an .aspx or .asmx extension changes, the ASP.NET framework automatically re-compiles for serving future requests.

[jQuery](#) by John Resig is for making Ajax calls to the server. The more recent fetch command is also useful in later cases. jQuery helps to load the latest copy of the author's JavaScript repository [9432.js](#); since browser caching occurs for JavaScript files for a length of time.

The single .css file [9432.css](#) is callable at the bottom of each .html file's head node; JavaScript statements are in the last lines of the .html files. This means that the browser knows how to show the HTML elements before reaching their origination, and the browser's JavaScript engine will not reference a HTML node before the declaration of its definition.

[Set a Database to Single-user Mode](#)

If the research of the author is a team effort, the additional expense, time and effort, in staged deployments, is justifiable; such as development, test, production phases. The author will place non-Microsoft DLLs in the virtual directory bin sub-directory, and the author will refer to Microsoft DLLs in the web.config file.

Initial Catalog=master; Initial Catalog=msdb; Initial Catalog=tempdb; The author will use the same machine, the connection string may use Data Sources={local}; Integrated Security=SSPI. This means that the author will explicitly specify the database, object names, and system object name. The Application pool will take care of the security. There are no environment variables, in use, at this time. The HTML files, when calling web services, will specify the full virtual directory path, but when appending cs and JavaScript files, relative directories will suffice, full path directory and filename is unnecessary and an overkill.

The author standardized on Microsoft SQL Server as the relational database of choice. There are several alternatives in the market. All database interaction goes through one access point, `DataCommand`, only this single file needs re-work if there is a database variety change.

When running a unit of code, for the first time, it will initialize the static variables. The [ScriptureReference.html](#) will issue a unique quote-of-the-day, every day; and a random quote, every time. The author program uses the release version of JQuery, which is the most up-to-date. The web services, such as, `Safari.org`, should not need code-revision. The code in the third-party libraries, such as, `Newtonsoft.Json.dll`, is consistent, and should rarely need re-deployment.

The application is mostly stateless except for the database read.

Internet Information Server (IIS) HyperText Transfer Protocol (HTTP) by default runs on port 80, like other web servers, but this is modifiable.

Using the current architecture, the author takes care of concurrency and deadlocks; because database writes rarely occur and are short, reads are tolerant.

The threads are simple and conclusive; therefore, there are small start-up and short-down periods.

There is unity between the development and production team, environment, and time frame. The same knowledge worker can write, deploy, and run code.

The author has experience, reporting web server logs, using [WebLogParser](#). The author relies on [Event Viewer](#) for logging and monitoring operations. The SQL Server Management Studio offers the Error Log, for viewing the database activities.

The SQL Server Maintenance Plan is for scheduling full database and transaction log backup, periodically.

HTML5

The author makes heavy use of the table semantic element for rendering tabular information. The author uses the input element and specifies either the text, number or date type attribute. The author tries the canvas and video elements for proof-of-concept.

The div and span elements are for rendering block and in-line information. The author uses the div as a container for the ubiquitous result set; which may contain a single or multiple tables. The span is a space for a non-block display

- Audio: God first communicated with me by His Word.
- mit-out sound (MOS): This means of communication may occur when God intends interpretation or translation by a third-party
- Video: This is the most resourceful use.

What did the Jews use numbers for, as mentioned in the Bible?

- Time: Creation...end time, period of life, marriage, worship, occupation, anniversary, prophecy and fulfillment, schedule
- Babel: One language and of one speech ([Genesis 11:1](#), [Genesis 11:9](#))
- Witness: Two or three ([Deuteronomy 17:6](#), [Deuteronomy 19:15](#), [Matthew 18:16](#), [2 Corinthians 13:1](#), [1 Timothy 5:19](#), [Hebrews 10:28](#), [Revelation 11:3](#))
- No man could number ([Revelation 7:9](#), [Matthew 10:30](#), [Luke 12:7](#))

- God initial naming such as, Adam, Ishmael, Isaac, John the Baptist, Jesus ([Genesis 5:2](#), [Genesis 16:11](#), [Genesis 17:19](#), [Luke 1:13](#), [Isaiah 7:14](#), [Matthew 1:23](#))
- God name changes such as, Abram to Abraham, Sarai to Sarah, Jacob to Israel ([Genesis 17:5](#), [Genesis 17:15](#), [Genesis 32:28](#), [Genesis 35:10](#))
- Family names, such as, Eve, Cain, Seth ([Genesis 3:20](#), [Genesis 4:1](#), [Genesis 4:25](#))

The word is the author's file naming convention

Word	Scripture Reference
Forgiveness versus (VS) judgment	Matthew 8:12, Isaiah 53:4
Fruitful versus (VS) barren	1 Samuel 2:5
Bless versus (VS) curse	Genesis 12:1, Genesis 27:12, Genesis 27:29, Numbers 22:6, Numbers 22:12, Numbers 23:11, Numbers 23:25, Numbers 24:4, Numbers 24:10, Deuteronomy 11:26, Deuteronomy 11:29, Deuteronomy 23:5, Deuteronomy 29:19, Deuteronomy 30:1, Deuteronomy 30:19, Joshua 8:34, Judges 17:2, Nehemiah 10:29, Nehemiah 13:2, Psalm 37:29, Psalm 62:4, Psalm 109:17, Psalm 109:28, Proverbs 3:13, Proverbs 11:26, Proverbs 22:14, Proverbs 30:11, Jeremiah 20:14, Zechariah 8:13, Malachi 2:2, Matthew 5:44, Luke 6:28, Romans 12:14, James 3:8
Naked versus (VS) adorned	Revelation 21:2

2023-08-26T20:00:00
For the 2nd day consecutively I am wearing a green Fruit of the Loom t-shirt. Best trademark. 50% cotton. 50% polyester. Exclusive of decoration. Made in Honduras. XL/EG/TG. Black Adidas track trouser with 3 white stripes on each side.
At the intersection of Mallard Common 4750 and Woodcock Common 4740, South East. The garage door of Mahdu is opened. Probably Hindi male in dark blue shirt drives southward. You have said, everything you need to say.
On Decoy Terrace between Mallard Common and Seward Drive, South Center. I thought of Vivian Siu and her demand for me to wear better clothing. At the intersection of Decoy Terrace and Seward Drive, South East. God asked.
Why? Do you like me?
To create one for who?

Type	Commentary	Scripture Reference
Spirit	Image...Truth	John 4:24

Constructor static method	To implicitly rely on the execution of a one-off method the first time the class is referenced. This is useful for initializing static variables and building a class collection.																				

Steer

Type	Commentary
Wake-up orientation database table	This information is currently being interpreted textually. An image, and even more so, a video of the changes in position and direction when sleeping will offer better insight. For the visually implied, the less bandwidth-intensive text may still be satisfactory.
Non-Alphabetic	AlphabetSequence may not be appropriate for people that use glyphs or sign languages.
Structured query language (SQL)	The proposed changes which will offer query customization? • The author transitioned from a multi-column query to a single-line query which has a tendency to return more results because it is not particular. Context fine-tuning is a suggestion. • With search-engine queries, the author proposes a query-language. This potentially affords better resultset granularity restriction, arrangement option, and maturity of use compensation.

Data Science A Hands-On Introduction

This research largely deals with structured data that is put into a relational database. The word is easily associate with a table. The dated column is when the word occurs. The scripture reference column is the guide to the Bible. The columns contain numerical and categorical data. The numbers are the sequence and date columns. The categories are textual and these include the URI, location and scenery columns. Humans are familiar with the recording of information into tables. The DatesComputation.html is the first time that the author uses pairing data.

How does the work of the author accompany the Bible?

The Terminology of Machine Learning in Relation to AlphabetSequence	
Term	Meaning
Training dataset or training set	The recording of the word in the database.
Example (or data point, data instance, sample)	Each database row or record.
Predict Label (or target)	The corresponding Bible text.
Linearity assumption	The features alphabet places.
Weight	Since the word is the only feature, it is the only influence.
Bias	A starting value.

(Dive into Deep Learning)

Object Oriented Programming - GetAPage.html

A type of us: is a kind of us? GetAPage.html is Bible specific.

Parent Scripts and Objects

GetAPage.html contains the HTML5 directive, head, and body sections. The head section contains the title and meta tags for search-engine optimization (SEO). The 3 languages that make up a web page are in the following ascending order: CSS, HTML, JavaScript. HTML is an element's nodes. There are only single instances of the input and submit elements. There are multiple div containers for the result sets. Although HTML supports attributes, the ID attribute is the author's only general declaration. Both CSS and JavaScript act on HTML tags. JavaScript and CSS render the contents of HTML. There are minute uses of global variables. The author discourages this, because of encapsulation and debugging traceability and granularity.

Naming Conventions

JavaScript relaxes variable declarations. Variables do not need explicit declaration, and these declarations are redefinable. In spite of this, the author is judicious about variables. The data- attribute is user customizable.

(LOOPE Lingo Object Oriented Programming Environment)

The author acknowledges positive bias in his work. Sometimes the author collaborates with what is said to him. The author may add reinforcement to his word. The author values the population average over the sampling average. For example, the Bible is

- | Dated | Word | Commentary | Scripture | Word inference | Count of | Running | Percentage (%) then | Percentage (%) now |
|-------|------|------------|-----------|----------------|----------|---------|---------------------|--------------------|
|-------|------|------------|-----------|----------------|----------|---------|---------------------|--------------------|

- [illegible]

Client/Server... World Wide Web (WWW)		
Word	Client/Server	World Wide Web (WWW)
Expertise is an entry-level requirement. Conversion, upgrade, export, import, language translation.	Proprietary code syntax. Paradigm shift. Patent, copyright. Framework.	Word. Open-source Hypertext Mark-Up Language (HTML). Wizard is able to generate HTML code. Universal compatibility. <i>You do not need update - I am necessary use (Matthew 24:35).</i>
Economy	Farming agriculture	Industrial Age, Information Age
Race	Caucasians masters, Africans slaves	Multi-ethnic
Language	The English language was predominantly spoken by the masters, and the Yoruba language was the diversified spoken by the slaves	English
Dominant software	PowerSoft PowerBuilder - Integrated Development Environment (IDE)	Netscape Navigator - Browser
People	Small numbers of software engineers and users	Global contributors and audience
Performance — mobility and speed limitation	Local Area Network (LAN)	Nimble

- 2017-03-06T00:00:00 A Comparance of Age

8/28/2026, 5:54 PM

- [Title](#)
- [Abstract](#)
- [Acknowledgments](#)
- [Theory](#)
- [Results and Discussion](#)
- [Terminology](#)
- [References](#)
- [Appendices](#)
- [Background](#)
- [Prospecty and Fulfillment](#)
- [Autobiography](#)

I want to program, but I don't want to match two programs together, except for deep thought.

See when God grants increase; such as in creation, when God counts the days, and separates it into evening and morning. Increase versus decrease were first explicitly mentioned during Noah's flood. These differences in size we can associate with signs - the sun and the moon. During the day, you need the sun for your activities; during the evening, it is not necessary. Rachel's prayer, and naming of Joseph; Joseph's dreams and interpretations. These counting is explicit, before Exodus, such as, the 10 plagues of Egypt ([Genesis 37:5-11](#); [Genesis 30:24](#); Genesis 40-41).

[ICP/IC](#) is separable into four layers; these are the link, Internet, transport and application layers. No breaking ([Matthew 19:8](#)).

Marriage

Marriage is not a practice, in the life after, resurrection ([Matthew 22:30](#), [Mark 12:25](#), [Luke 20:35](#), [Revelation 21:2](#), 2 Corinthians 11:2). Co-incidentally, the disciple, who Jesus love, John the apostle, does not mention this event, in the Gospel of John. [It is more of a father that waits you](#), Jesus resurrected, after three days ([Matthew 12:40](#), [Matthew 26:54](#), [Matthew 27:63](#), [Mark 8:31](#), [Mark 14:58](#), [Mark 15:29](#), [Luke 2:46](#), [John 2:19](#), [John 2:20](#), 2 Corinthians 11:2, [Revelation 21:2](#), [Revelation 11:9](#), [Revelation 22:12](#)). The breaking of device ([Psalms 34:20](#), [John 19:36](#)).

On the client, HTML is content, CSS is presentation, and JavaScript is behavior. Both ASPX and ASMX are server-side logic.

The application tier is in a dynamic link library (DLL), and it is separable into client, database, and application logics, but with the advent of language integrated query (Linq), this delineation is slowly diminishing. Linq rivals previous division of labor.

The database consists of tables, views, indexes, constraints, stored procedures and functions. These programming logic may be SQL or SQLCLR. SQL critics complain that while the rest of software development have progressed, we still use an archaic language; NoSQL is a challenger.

Visibility (John 4)

The client is accessible from the browser, both the user interface and the source code, along with the errors and exceptions. The interface is made-up of request and response. Text-to-Speech will aid the people with poor visibility. The client handles the human computer interface (HCI). The Bible versions are selectable options in HTML or JavaScript.

The database contains the real information, that makes-up the result set.

Lifecycle (John 3:3, John 3:7)

In computing, we have had mainframes and terminals, client/server, Internet, mobile and now cloud. The trend has been from proprietary to open architecture.

Accompany (Matthew 4:6, Matthew 18:10)

What are the pairing?

The client started as HTML, but now has JavaScript and CSS.

CGI originally served the back-end. Flash and plug-ins have made way for other technology, such as HTML5 video and canvas.

JSON and XML have made in-roads.

To each resemblance

1. Where His word expected mine? When I get a word from God I could do the following?
 1. Write the word in my notebook, and never refer to it again.
 2. Record the word in the WordEngineering database, HisWord table, word column, and associate the accompanying columns.
 3. Produce an artifact based on the word.

The drawback of the relational approach?

1. Centralized versus (VS) distributed storage?
2. Unique foreign key? Master-child? Hierarchical?
3. Duplicable
4. Maintainability
5. Expertise and familiarity? Isolated.
6. Spontaneous versus (VS) latency? What to place in the database, what to extract from it?
7. When is creativity, full enough?
 1. Databases may reside inside multiple files.
 2. Although databases may store different file types. This wasn't the original intention.
 3. Databases are abstractions.

Lacking expertise?

1. Usability: The author has limited experience with building a user-interface (UI) with Cascading Style Sheets (CSS).
2. Quality Assurance (QA): Some changes break existing code.
3. Database neutrality: The database definition language (DDL) and embedded SQL are not portable across all databases. For example, SQLCLR, is in use.
4. Adoption by emerging technology? Mobile, cloud...

What did He find... as useful

Technology	Usefulness history
Microsoft Windows Operating System	Utility
Microsoft Notepad	Text editor, aged
Microsoft Internet Explorer (IE)	Browser, deprecated
Microsoft SQL Server	Relational database. Single repository which supports: • Client/Server autonomy. Client embedded-SQL. • 1. The datetime column defaults. 2. The identity column is auto-generable. 3. Computed column: What can the computer do for us?
Microsoft sqcmd	Command-line interface (CLI). Between the years 2000...2005.
Microsoft SQL Server Management Studio (SSMS)	Graphical user interface (GUI). Spreadsheet like editor.
Mozilla Firefox	Multi-tab browser

Memory Storage

Work	Commentary
Websites storage	folders.live.com , drive.google.com , github.com/kenadeniji , kenadeniji.wordpress.com
Refer to dates.	en.wikipedia.com
Network computers	4 including 1 running the Linux Operating System
Logical hard disk drives	4 including 1 solely for processing, and the other 3 drives mainly for archive.

A Causal to Hearing Words

- He said and He did. Word work ([Genesis 11:1-9](#)). The authority to know...and discern...between things. At the beginning of WordEngineering, my practice will include:
- 2026-07-25T16:15:00 Learning and modeling the Bible and building a Framework and a set of reusable components with class objects instantiated collections. This initial application, process logic, includes scripture reference, the 66 King James Version (KJV) Bible books and query-able Bible Word, and personal initiatives. For example, [AlphabetSequence](#).
 - During my education, I learned how to write a thesis, do practical project building, select electives, and focus on specialization for specialty.
 - 2026-07-25T19:17:00 What will have the most impact on your life?
 - At Newark, California (CA) 94560, I owned and lived in my 1st American house.
 - 2026-07-25T18:11:00 What he was saying he wants to be ([Genesis 4:1-26](#), [Genesis 24:50](#))?
 - At the intersection of Paseo Padre Parkway and Hall Way, north-east. I was walking southward. When I first received word, it was pertaining to my personal life and experience, vocation, and relationship.
 - 2026-07-25T18:11:00 We must occasion to use? Phoo Chan first changed his south-west tire, and secondly, Phoo Chan changed his north-west tire, and his son, Aiden Chan, watched and aided.
 - Read and recite the Bible.
 - Pray.
 - Praise and worship.
 - Take computer courses at [Delmon College](#), in the Fremont and Newark campuses.
 - Read books and magazines at [Barnes & Noble](#), [Borders](#), [Walden Pond Books](#), [Walt-Mart](#) and public libraries.
 - Listen to Christian commentators.
 - Sexual abstinence and celibacy.
 - Solitary living at [Newark City in California](#), [Patmos](#).
 - Fast, everyday, only ate, once a day, in the evening. I ate [Momura Holdings](#) Kokuho rice.
 - Walk, two hours a day, between Newark and Fremont, to do programming. Learn how to program today's technology, with relevance to the word's revelation.
 - I was living on a meager income ([Exodus 2:15-25](#)).
 - Only familiar with [Case-based Reasoning](#) and [Use-Case](#).
 - [AlphabetSequence](#) is [allegory](#).
 - Set-based: Effort to record everything Bible code.
 - This is a man...he wanted to know about his favorite ([Daniel 1:3-21](#), [Daniel 9:23](#), [Daniel 10:11](#), [Daniel 10:19](#))?
 - [Observance](#). ([John 5:19](#))
 - [Personalization of Realization](#) ([Proverbs 25:2](#))?
 - I will make the difference. ([Deuteronomy 26:5](#), [Ezekiel 16:3](#))?
 - What we all ought to be?
 - 1997-12-31 I will not entertain Nada. Prophets make New Year predictions.

There are duplicates in the Bible.

Type	Commentary
Name	Why the differing name? Man's name change? God name variance. Son of David versus (VS) Son of Man (2 Samuel 12:24 , 2 Samuel 12:25 , 1 Samuel 25:3 , 1 Samuel 25:25). • Giving a person's name to a place, such as, Enosh, Israel, Judah, tribes names • Name changes, such as Abram to Abraham, Sarai to Sarah, Jacob to Israel, Saul of Tarsus to apostle Paul • Name misspelling, Rahel for Rachel. A rewording of your view. • Referring to people with their alias, sons of Zebedee, sons of Thunder, Boanerges • Multiple people bearing the same name, such as John the Baptist, apostle John, the beloved disciple
Historical Account	• Deuteronomy - Remembrance • Monarchy - King versus Chronicles • Gospels - Our LORD's, life story • Apocalyptic - Daniel versus Revelation
Quotation	• Retelling previous events • Prophecy fulfillment • Answers based on scripture
Discrepancy between question and answer	Joshua 5:13-15
Canaan words repetition?	Genesis 12:5

These duplicates may introduce statistical error and require clarification.

Chuck Missler versus (VS) the author	
Chuck Missler of Koimonia House Inc., P.O. Box D, Coeur d'Alene, ID 83816	Author
2018-06-02 <u>Candlelight Celebration of Life Service - Chuck Missler</u> Streamed live on Jun 2, 2018 On May 1st, 2018, our beloved Chuck Missler went into the arms of Jesus. This Celebration of Life service, held at Candlelight Fellowship in Idaho is our way of celebrating his life and the tremendous impact it had, and still continues to have on so many people. 2014-08-18 <u>Stay the course</u> 2025-12-22T08:48:00 <u>Teaching...navigator</u> 2014-08-18... 2025-12-22T08:48:00+144 days (11 biblical years, 6 biblical months, 4 days) (11 years, 4 months, 4 days) 2025-05-16T18:40:00 <u>What is in dispute?</u> 2026-05-28T17:17:00 The author associates Chuck Missler with teaching each story in the Bible. • Strategic trend. • Introducing other Bible scholars and mentioning their particular contributions. • Making laypeople teachers of the Bible. • Referring to terminology, Jewish history and practice, world events.	
2026-08-11T16:00:00 <u>I did not need any more teacher. I did not need any more preaching.</u>	
2024-11-03 21:33:37 887 <u>Pattern of assembly.</u>	
	2024-11-03T11:58:00 <u>What are bring... as amount... to what?</u>
Chuck Missler was not listening to his own word. Chuck Missler was listening to the Word read to him.	
Chuck Missler was preaching from his understanding of the Bible.	The author is relating the word spoken to him to the Bible.
Chuck Missler was trying to convert people to Christianity. Chuck Missler was trying to make believers out of the Bible.	The author is relating to people. Coming from experience with people.
	<u>You were trying to reach the Bible...through your word.</u>
	<u>Interaction with Him</u> I start writing words received when I sleep. I introduced words when I shower.
	<u>What I used</u> , Chuck Missler used the Bible... I used myself?
2025-04-09T15:30:00 <u>What did you set out to achieve as a personal notion?</u> Hal Lindsey suggested to Chuck Missler that he convert a Christian ministry pursuing to a profession. Reading the Coming Prince by Sir Robert Anderson changed the plans of Chuck Missler from hobbying a doctorate degree in Physics.	2025-04-10T04:17:00 Scene 1: Lauretta is driving me, and I mentioned the first name of Nada Madjar, but I did not disclose her last name; therefore, I am not gossiping. Lauretta plowed further and Lauretta asked if I was talking of Nadia that I now infer to be Nadia Comaneci. Scene 2: A man corroborates that he has lived in Fremont, since he moved from further away.
2025-04-10T14:14:00 <u>How the Bible can be...and why use?</u>	0225-04-10T04:46:00 <u>Limitation per session / Exposed 3-17-23</u> .)
2025-04-10T14:14:00 Jennifer Melow gave 2 breads turns to Danielle Hall to warm. Jennifer Melow also was carrying meat.	AlphabetSequence takes specific places... out of the Bible.
Albertsons Lucky, Charter Square, south-center road. <u>Cancer diagnosis</u>	2025-04-10T06:47:00 <u>When did he desire...a people as I</u> (Genesis 2:20-25, Genesis 4:3-12)?

Word	Commentary	Scripture Reference
Partner	Sarah, Hagar, Keturah	Genesis 11:28
Pilgrimage	Canaan	Genesis 12:1-5
Guidian	Lot	Genesis 12:4-5

2026-05-29T10:26:00 Database writing

- 2026-05-29T02:31:00 There is a difference between writing an event, and associating personal testimony. There is only so much information an author can write on paper, 2026-05-29T03:17:00 and later use a computer to further his thinking. Complement, re-cap. 2026-05-29T03:19:00 As could be seen from study Bibles. 2026-05-29T03:21:00 Anthony Novak, my colleague at Information Dialling Services (IDS), a subsidiary of White International, once pointed out that I do a lot of clipboard copy and paste. Anthony Novak may be referring to Kowe, where I re-draw a Yoruba alphabet image, whenever a user presses their corresponding Function Key.
- 2026-05-31T13:45:00 He is not searching the Internet... he is searching... a local database. Replication from the central database, Informix to the remote database, Watcom SQL Anywhere. Knowing your data.
- 2026-05-30T16:04:00 What is aside from the text?

2026-05-30T13:46:00 How he will know the distribution?

- Moses: What did he intend to use ([Hebrews 11:23-29](#))?

2026-05-28T20:28:00 Alberto Cairo Terminology

(Alberto Cairo, 2026).

2026-05-17T15:36:00 What did he collect as a future?

- 2026-05-16T07:26:00 Scripture references uttered to you.

What is best believable (Deuteronomy 13:3)?

I am not asking You to take my word as Yours. I am asking You to change my word as ours (Numbers 3:12, Numbers 3:41, Numbers 3:45, Numbers 3:46, Numbers 8:18, Acts 10:9-16, Romans 2:25-29, Colossians 2:11, 1 Corinthians 7:19, Galatians 6:12-13)?

- In the HisWord table, the order of belief is:
 - Scenery
 - Commentary
 - Word
 - System generated: DateTime and identity columns
 - Association columns: ScriptureReference, ContactID, URIThe author is an authority on the HisWord table.
- SQL script generation, .sql, is better than Microsoft SQL Server backup, .bak. Text is more factual than video.

2026-05-14 Inconsistency —

2026-05-14T21:42:00 The author has used different source from composing his work.

2026-05-14T21:46:00 How we are... in the midst... of each other.

- AlphabetSequenceIndex language? The author does not make a distinction between the English and Yoruba alphabet sequence.
- Word of the author versus Bible versions — The correlation between the word of the author and the Bible differs and varies between the versions of the Bible.
- Dictionary — The author refers to dictionaries from multiple sources.

(Alberto Cairo, 2026).

2026-05-10T14:05:00 What exact... has He notice... about you?

- 2026-05-10T14:05:00 Re-locate:
 - Prior to 1988-10-15 First dream:
 - I Am taking you on a journey.
 - 1998-05-08 Last word, before re-locating from Australia to the United States of America (USA).
Face to face: Out of Egypt, have I called My Son ([Hosea 11:1](#)).
 - 1999-05-07 First word, after re-locating to the United States of America (USA).
Face to face, in the wardrobe, closet, of the master bedroom. Iie eyan mi lon lo yi. It is my person you are going to.

2026-05-07T17:49:00 Word rank

- They were taught by the spirit... to talk as the spirit.

2026-05-06T11:52:00 HTML tags Unordered List Versus (VS) Ordered List

The difference between the ordered list tag, ol, and the unordered list tag, ul, is not enormous... to deserve 2 separate tags. An optional... style of numbering attribute will suffice... which may have a default. The ordered list tag already has a type attribute.

2026-05-07T12:22:00 How can he... be... like us?

- I have always drifted toward the academic.

2026-05-02T21:30:00 Could I re-write this... biblical?

- Power of the Holy Spirit ([2 Peter 1:21](#))

2026-04-27T16:01:00 WordEngineering query

- WordEngineering query - database
 - Structured Query Language (SQL) specification parts include the select column list, where filter restrictions, and order by sort.
 - Select column list: There is no universal standard for arranging the user-interface (UI) column names. The author displays the name of each person, title, organization name, and contact details.
 - Filter restriction: A user may choose to return a large data set, or minimal data set. For example, contacts are query-able by their full names or their partial names — first name, other name, or last name. When a user knows the full name, this is the advised query filter. The last name is preferred over the first name since it is more cultural and regional specific, and it should return a lesser dataset. The first name is traditionally Anglo-Saxon, and it is probably a shortened version of their birth name. The author does not pre-select options.
 - Order by sort: Sorting may be in either ascending or descending order. It is achievable either on the server-side, database via SQL, or the client-side, user-interface (UI) via JavaScript. The limitation of the current implementation is to sort numbers by ASCII digits, and not quantity, since the author does not specialize in each display by customizing datatype distinctions.
- WordEngineering query - client
 - Technology include Document Object Model (DOM), XSL/XSLT, XPath, XQuery.
 - Query arguments are passable to each client user-interface (UI) via hyperlinks or browser-specific address lines. Each form may also provide query options. The author makes all effort to provide reasonable defaults.
 - Navigation: The ID attribute provides a document-wide unique identifier for an element. 2026-04-27T17:43:00 The author conforms by the Pascal notation.
 - 2026-04-27T18:19:00 Find is useful.

2026-04-27T19:49:00 To know at the start... what I Am?

- When I started Kowe, I was a deported Yoruba man.
 - 2026-04-27T19:59:00 This I will find useful... for my people.
 - 2026-04-27T20:13:00 I could use the computer... for my weakness.
- When I started AlphabetSequence... 2026-04-27T20:22:00 I must find... for what... He accumulated in the past ([Genesis 15:5](#); [Revelation 16:12](#)).

2026-04-28T08:53:00 How you are known... by them?

- The titles of God, and their translations ([Genesis 16:13](#)).
- The identification of His creation. For signs, after death, substitute, beginning and end ([Hebrews 9:17](#)).

2026-04-15T05:43:00 Feature highlight its strength and weakness?

- Passover: 2026-04-02. 2027-04-22.
Feast of Unleavened Bread: 2026-04-03. 2027-04-23.
2026-04-15T05:23:00 I went to a man in the south-west quarter, and I took from him, 1 piece of fish, and 1 piece of meat.
Implementation options include parsing a data definition language script file (.SQL), or interrogating the database schema.
- Cross-check that all the tables and their columns have documented entries in the data dictionary, meta-data.
 - For the tables which have parent-child relationships, master-detail, make sure there are corresponding views. To determine the affected tables, check for the existence of primary keys which contain composite columns, and primary keys and foreign keys with referential integrity which protect against orphan. Suspect tables include the PurchaseOrder and PurchaseOrderItem related tables, and the Contact and its subordinate address tables.
 - 1. 2026-04-15T07:42:00 Make sure that the projected and potential primary columns are not nullable, and have defaults.
 - 2026-04-15T07:44:00 Natural primary key columns.
 - 2. 2026-04-15T07:46:00 These are, for example, ID identity or sequential, and dated timestamp columns.

2026-04-09T18:48:00

How we repeat life? (Matthew 24:34)

- Old Testament: Knew, birth, sacrifice, death, worship ([Genesis 4](#))
- New Testament: Worship, circumcision, baptism ([Matthew 11:11](#))

2026-04-08T20:13:00

How elaborate... is the view... of my participation (Daniel 2:45)?

- 2026-04-08T20:13:00
How reliable is the machine... in interpreting the word of God?
- 2026-04-08T20:34:00
What did he find... as useful as the present?

A confider who is in need.

1. Abraham (Genesis 18:17)

- 2026-04-05T04:04:00 Be
- 2026-04-05T04:04:00 The 7 "I Am" of Jesus
 1. The bread of life ([John 6:35](#))
 2. The light of the world ([John 8:12](#))
 3. The door ([John 10:7](#))
 4. The good shepherd ([John 10:11](#), [John 10:14](#))
 5. The resurrection and the life ([John 11:25](#))
 6. The way the truth and the life ([John 14:6](#))
 - 2026-01-01 Pastor Andrew Huang, John 15. The "I Am" of Jesus. I am the true vine, and My Father is the husbandman. Remain in Me. Abide in Me. If you remain in Jesus, you can not help, but bear fruit. Scripture reading: If My words, remain in you. Prayer: Ask what Ever you wish. Obey: Obey what the bible says, as the Holy Spirit leads you. Expository ([John 15:1](#))
 - 2026-04-05T2:30:00
 - My twin sibling crooked, and he served me pounded yam translated to yam in the Yoruba language, akra translated to ila in the Yoruba language, and stew.
 - My twin sibling also offered me a 99 Ranch Market food voucher: light green worth \$2, redeemable for groceries in the hot stove, and the in-house bakery.
 - The word came as I brushed and I gagged my teeth in the upstairs, north-center, bathroom.
 - [Behin as He and you will and as He](#) ([Matthew 1:1-2](#), [Mark 2:5](#), [John 1:1](#), [John 1:5](#))
 - 2004-07-18 Andrew Leon Weeks of Family Life, Campus Crusade for Christ preached at Christian Layman Church.
 - 2026-04-05T04:05:7931 days (22 biblical years, 11 days) (21 years, 8 months, 2 weeks, 3 days)
 - 2026-04-05T04:23:00 [The institutor of a new covenant](#) versus (VS) the mediator of a new covenant ([Hebrews 9:15](#))
 4. And about the 3 hours Jesus cried with a loud voice, saying, Eli, Eli, lama sabachthani? that is to say, My God, my God, why hast thou forsaken me ([Matthew 27:46](#), [Psalms 22:1](#))
My Father versus (VS) My God.
 5. Paschal Lamb ([John 1:33](#), [John 1:29](#), 1 Corinthians 5:7)
 - 2026-04-05T1:10:20 Scene 1: We were inside a room, and either in the south-west or north-center, we discovered some missiles belonging to a party were stolen by a third party. I was disturbed by this theft. Scene 2: Uncle Demola, who was standing in the south-center, confessed that he had taken some agricultural farming produce, which were probably beans, flowers or seeds for their harvest for their safety ([Genesis 3:20-24](#), [Genesis 4:16](#))
 - 2014-08-18 Stay the course dream of Church Missar: 2014-08-18--2026-04-05=4248 days (11 biblical years, 9 biblical months, 18 days) (11 years, 7 months, 2 weeks, 4 days) 2025-10-25 ([James 3:4](#)).

- 2026-03-27T19:30:00 What did I relate to as the usage?
- 2026-03-27T19:49:00 As long, as you are with us... we have... each of us.

1. My love poem, inspired by Lisa Munoz, my speech communisms classmate, was probably written within a few minutes at Central Piedmont Community College (CPC), Charlotte, North Carolina (NC), in the personal computer (PC) laboratory with an editor.
2. Kove was programmed within a few days at Gestco, 34 Association Avenue, Ilupeju, Lagos State, Nigeria. I require a C language compiler, Tagged Image File Format (TIFF), English and Yoruba alphabets, dictionary and translator, graphics monitor mode, 2 lines per editing.
3. AlphabetsEquation is a divine-inspired algorithm, and it requires a relational database with support for Structured Query Language (SQL) input and query, C# application layer, and HTML, CSS, and JavaScript for the user interface (UI).
- 2026-03-28T11:45:00:000
2026-03-27T23:34:00:000 *To retain... a part of myself... as the other.*
* 2026-03-28T11:45:00:000 *When did he personally relate who he is... to who he has been?*
* 2026-03-29T11:30:00:000 *Look at what He want to say through you... grove what He has to say through you.*

1. A relational database stores data in rows and columns. The columns supports storing specialized datatypes. A primary key is for uniquely identifying a particular row. A foreign key offers the opportunity to associate rows of the same values.
2. Object-orientation is for combining data and programming logic. A collection or list of objects.
3. The Bible is a history of the Jewish people.

2026-04-03T14:22:00 This is a sampling of the word of God.

2026-04-09T19:52:00 The author would like to place more emphasis... during nighttime dreaming at the Pacific Standard Time (PST)

2026-04-11T20:00:00 What must he... *particulars* see [1 Peter 1:22](#), [Judeus 14:2](#), [Judeus 14:2-7](#)

1967-10-15 = 85 Biblical years = 1967-10-15 + 30600 = 2051-07-26

2026-04-19... 2051-07-26 = 9229 days (25 Biblical years, 7 biblical months, 19 days) (25 years, 3 months, 1 week)

2026-04-03T14:24:00 The author will return on random intervals.

3. 2026-04-03T14:26:00 [Guessing intervals?](#)

1. Saturday, 2021-07-07 at the 60th birthday celebration of Uncle Jimi Adeniji.

2. Sunday, 2021-07-18 Uncle Jimi Adeniji re-located to Atlanta, Georgia.

3. Monday, 2021-07-19 Uncle Jimi Adeniji commenced medical work in Atlanta, Georgia.

Spirit Airlines [booking@spirit.airlines.com](#) time duration Las Vegas, Nevada Sunday, 2021-07-18T11:17:00 01 to 31 min Oakland to female partner, on my way back journey, between Las Vegas and Oakland.

1. 2020-10-27 [Stephanie Bylandt](#), Examining Attorney, USPTO - United States Patent and Trademark Office. [http://tsdc.usdoj.gov](#)

2. Sunday, 2021-07-18 Uncle Jimi Adeniji re-located to Atlanta, Georgia.

3. 2020-04-03 Good Friday

1330645162903# (Numbers 14-25, Deuteronomy 5, Acts 12, Acts 2:13)

Is either God God for you? Or you try to do yourself.

4. 2020-04-05 Easter Sunday

132930541959516 (Numbers 14-25, Deuteronomy 5, Acts 12, Acts 2:17)

The author started receiving word from God shortly prior to his 21st birthday, which was coming up on 1988-10-15. But, the author did not start writing a blog until at about 2000-10-05. The author started using a database for data entry, and the author commenced AlphabetSequence at about 2002-12-03.

1. The author was incarcerated at the Alameda County Santa Rita Jail, 5325 Broder Boulevard, Dublin, California (CA), (925) 551-6500. 2nd occasion between 2028-03-07T00:00:00...2028-03-14T00:00:00
2. 1. 2004-05-26T00:00:00 The author was hospitalized initially at the John George Psychiatric Pavilion, 2060 Fairmont Dr., San Leandro, California (CA) 94578. (510) 346-1300.
2. 2004-12-06T00:00:00 And, subsequently at Villa Fairmont Mental Health Rehabilitation Center (MHRAC), 15200 Foothill Boulevard, San Leandro, California (CA) 94578. (510) 352-9690.
3. 2026-05-03T17:42:00 **Information record is intermittent during trips.**
4. The computer malfunctions, and specifically, the hard disk of the computer fails; therefore, resort to restore database.

1. Pentateuch: The Old Testament starts with the 5 books of Moses.
2. Gospel: The New Testament starts with the 4 Gospels of Jesus Christ books.

2026-05-04T18:05:00 The HisWorld column is for group/simultaneous words... most likely, that were spoken on the same dates.
2026-05-04T07:23:00 The Nigerian government versus (VS) Microsoft dispute over sexual intercourse between eligible Microsoft-affiliated females and mediocre Nigerian male partners. I saw 2 Microsoft affiliated females beside a car in the north-center-west. In the center-west, I attempted to give a Microsoft-affiliated female my business card, but she did not receive my business card, because there is no job hope ([Hubs 11:7](#)).
2026-05-04T12:23:00 I re-located to the United States of America (USA) in my sixteenth, 16th, and thirty-second, 32nd, years, 1983-12-29, and 1991-01-18, respectively ([Lugs 16:16](#)).

2025-03-17T11:47:00 Side with church... or side with the children (John 7:51, Genesis 21:9, Genesis 27:41)?

The is distinct, supplements in, and is not null, variables compare primary keys, and unique constraints and indexes restrict table rows and columns. Foreign key constraints restrict related table rows and columns. Efforts must be made, when enforceable, to guide the user interface (UI) for client-side and server-side validations on mandatory, and so-called required columns.

- Structured Query Language (SQL) Insert Statement: When the value of a nullable identity column is not specified in an insert statement, then the database will generate the next continuous number. Microsoft SQL Server @identity value will reflect the value of the most recently generated identity column.
- Structured Query Language (SQL) Select Statement: When the value of a nullable column is set to null, then an outer join is required to retrieve foreign-related rows.

2025-03-23T21:10:00 He has used data attributes for a long time now. But he has used it for documentation. How could it provide programming functionality?

- data-webservice: An invocable web service to provide supporting information. Via a web address, url and query string.
- data-code: With the option of running the code? XML or JSON format, with language extensions that enforce compatibility and interoperability. 2025-03-24T12:42:00 For example

```

SELECT 'Alpha' AS InfoType, COUNT(*) CountInfo,
      (
        CountInfo * 100.0 / ( SELECT COUNT(*) FROM WordEngineering..Hisword
        )
      ) PercentInfoTotal
FROM WordEngineering..Hisword WHERE Word NOT LIKE 'I[0-9]*'
UNION
SELECT 'Numeric' AS InfoType, COUNT(*) CountInfo,
      (
        CountInfo * 100.0 / ( SELECT COUNT(*) FROM WordEngineering..Hisword
        )
      ) PercentInfoTotal
FROM WordEngineering..Hisword WHERE Word LIKE 'I[0-9]*'
UNION
SELECT 'NULL' AS InfoType, COUNT(*) CountInfo,
      (
        CountInfo * 100.0 / ( SELECT COUNT(*) FROM WordEngineering..Hisword
        )
      ) PercentInfoTotal
FROM WordEngineering..Hisword WHERE Word IS NULL
UNION
SELECT 'Total' AS InfoType, COUNT(*) CountInfo,
      (
        CountInfo * 100.0 / ( SELECT COUNT(*) FROM WordEngineering..Hisword
        )
      ) PercentInfoTotal
FROM WordEngineering..Hisword

```

InfoType	CountInfo	PercentageOfTotal
Alpha	111590	93.740811989146
Numeric	851	0.714879747313
NULL	6600	5.544308263539
Total	119041	100

- data-ssn: For example, Representation State Transfer (REST).

- English is our colonial language; Yoruba is my native language (Acts 22:2).

- 1. Accessible from a webpage, the author hard-coded translations from the Bible by using a New Testament phrase.
- 2. In the WordEngineering database, TheComingAdvOfTime table, contains learned spoken language translations.
- 3. In the WordEngineering database, HisWord table, there is a EnglishTranslation column which is not null when the word count is not null.
- 4. In the WordEngineering database, HisWord table, there is a HisWord column, physical, and there is a scene column, dream.
- 5. In the WordEngineering database, HisWord table, there is a PseudoCode column, my profession.
- 6. When?
- 7. 2025-03-01T07:13:00 Microsoft Word and past-tense. Mark Booleans of Electronic Data Systems (EDS) and the verb, will, future reference.
- 8. 2025-03-01T07:11:00 Online translation processing (OLAP), online analysis processing (OLAP).
- 9. How does the computer equip us? 2025-03-01T07:06:00 Improve on paper, the old writing method.
- 10. There is a datetime attribute which is only viewable inside the HTML source, Metadata? 2025-03-01T07:24:00 **Microsoft made the assumption, to automate mark-up**

- Bible groups is the arrangement: Pentateuch, major and minor prophets, Gospel, Pauline Epistles, General Epistles.
- Doctrine of Imminency? Imminent
 - Apocalyptic
 - Word schedule
 - Prophecy and fulfillment
 - Dream or vision... interpretation
 - Speaking in tongues or unknown language... translation
- Old and new
 - Everything Has Its Time (Ecclesiastes 3:1-8)
- Anniversary
- Succession
- Honor
 - Tithe and offering, sacrifice
 - Conversion
 - Redemption
 - Date setting
 - Tradition and custom

1. My first joke was about a screwdriver that I shared with my adopted father, which he classified as an old joke.

2. My first writing, a romantic love poem, was dedicated to Liza Muñoz of Central Piedmont Community College (CPEC). My English speech oral communication classmate.

3. The first independent self-inspired software written by the author is Kowe.c for the Yoruba language.

4. My first domain name was commonpeople.org

5. The first website I published and contributed to was Christianity.com

6. I am known for the AlphabetSequence algorithm

7. The first book I wrote is titled Ocean Senior

8. The url of the author is www.JesusInTheLamb.com

2024-07-12T09:12:00 Santorini, Greece T-shirt. The two elderly females are probably Asian and Caucasian. They were standing at the intersection of Fremont Boulevard and Paseo Padre Parkway, north-east, and they walked towards the south-east

2024-07-12T09:12:00 Sort order that 2024-07-12T10:43:00 is a url sortable in this order?

- Publication date: When was it written? The book of Job is regarded as the 1st written book in the Bible.
- Bible arrangement: The Bible starts with the 5 books of Moses, Pentateuch. The Bible concludes with the apocalyptic book of Revelation. The major prophets group finishes with the book of Daniel.
- Genealogy: The birth order. Of ancestors and offspring.
- Prophecy and fulfillment
- Bible word, synonym and opposite
- Traditional versus (VS) modern
- Speaker and audience

2024-07-12T09:12:00 The author has translated the Davidic Covenant transitioned to the Messianic Covenant.

- Expiry date, for example, the Davidic Covenant transitioned to the Messianic Covenant.
- Author and book group
- Citation
- Geo-Location
- Holiness

2024-07-12T18:53:00 Robert Rouse, Minister of Data, viz bible.

2024-07-12T19:03:00 How is it supported?

2024-07-12T19:09:00 The author has queried the Bible versions and dictionaries but not the various commentaries which have non-standard scripture reference and opinions.

2024-07-12T21:22:00 Making a protection ... making a projection.

Microsoft SQL Server Versus (VS) Machine Learning (ML) Scikit-learn.
That is what they based the truth on.

2026-03-21T08:17:00 What word did it lead me, and how did I direct it?

Word processing awards grades based on grammatical correctness. There must be uniformity in the language, spelling, and punctuation.

1. At Information Dialling Services (IDS) we commenced capturing telephone numbers, and movie text-to-audio.
2. At Wilson Market Research, we used consumer statistics and the viewing audience to target advertisements.

• 2026-03-21T10:48:00 What do I capture... in hope of realizing?

1. Unity (1 Samuel 25:27)
2. Sequential (Psalms 110:1, Matthew 22:41-46, Mark 12:35-37, Luke 20:41-44, Acts 2:34)
3. Exemption (Psalms 16:10)

2026-02-22 Jan 31, 2026 | By Chuck Missler Unity in Plurality The Trinity
2026-02-22T14:06:00 What He meant to be use?
• Moses (Hebrews 11:23-29, Acts 7:20-44, Numbers 27:12-23, Hebrews 7:11-28

From: Andrea Holzmam Andrea@SherlockTalent.com
Sent: Thursday, February 19, 2026 17:55
To:
Subject: Your SQL Server background caught our RR -- 18-28 hrs/week, you set the pace

Hi Ken,

SherlockTalent is hiring on behalf of an esteemed client:
SQL Server DBA & User Support Specialist – 100% Remote – Hourly contract, flexible

- Job #: 7369
- Location: Remote (English speaker)
- Type: Part-Time Contract (est. 18-28 hrs/week, flexible scheduling)
- Rate: Hourly, commensurate with experience

If you're a seasoned SQL DBA who wants meaningful hands-on work without the full-time grind, this one fits.

What you'll own:
- SQL Server administration: schemas, permissions, stored procedures, index optimization
- Database documentation and visual architecture diagrams (Visio or equivalent)
- User access governance – provisioning, auditing, least-privilege enforcement
- End-user support: query troubleshooting, reporting validation, access issues
- Regular status updates and risk flagging to the Fractional CIO

Why this role:
- Pure execution – no enterprise politics, just solid DBA + support work
- Full remote flexibility with a schedule you control
- Bonus points for Azure SQL, SSRS, or Power BI data source experience

Not for you? Sherlock loves to share \$1,000 Referral Success Bonuses! Send referrals to referrals@sherlocktalent.com.

As part of the Doctoral studies of the author, he developed his expertise on the Unified Modeling Language (UML) use-cases, and sequence and collaboration diagrams.
What do you use? As many of his representation.
 2. In Akedah, The Binding of Isaac.
There were some assumptions which were tested out (Hebrews 11:1-3).
 3. How I relate as a simple example of uses (Daniel 2, Genesis 41, Genesis 4, Genesis 2:5-6, Genesis 2:18-25).

Old	New	Actor	Commentary
Work	House	Joseph	At Guaranty Trust Bank (GTB), I taught Hajara Adeola, the wife of Fola Adeola, a university French teacher at Gestco, 34 Association Avenue, Ilupeju, Lagos State, Nigeria. The Manager of Consumer Banking invited me to his house to instal Lotus 1-2-3 spreadsheet for his wife and him. The Manager of Corporate Banking, George, asked me to develop a community banking software application. Fola Adeola asked me to develop a bank draft application in dBASE and Nantucket Copper. 2026-02-10T22:12:00 What are we bring together... what are we setting apart? 2026-02-10T22:14:00 What does he want to do... as apart from you? As certain from you? 2026-02-10T22:26:00 What utterance... remain the same? 2026-02-10T22:41:00 What has God decided... for our future apart (Genesis 11:9, Exodus 12)?

2026-01-31T17:44:00 Remi Adeniji said she submitted her research thesis titled, Open-Source oersistency. In the center-east, a male was taunting the Russians.
2026-02-02T20:10:00
1. Genealogy (John 3:16, Matthew 1:17)
2. Role (Genesis 3:15, Matthew 2:2, Matthew 27:37)
When I am doing this?
• Pre-condition (Genesis 3:13)
• Assertion (Hebrews 5:9, John 20:17)
• Post-condition (Genesis 49:9, Revelation 5:5)

2024-11-13T19:12:00 Translation

1. 2024-11-13T19:16:00 Textual Basis: The author chose to find meaning to the word of God... with lesser emphasis on his personal subjective commentary.
2. 2024-11-13T21:17:00 Formal equivalence (word-for-word) versus (VS) Functional dynamic equivalence (thought-for-thought): BibleWord.html is the former.
3. 2024-11-13T14:06:00 Translator: The author's first program is translation of English to Yoruba.

(Tim Wildsmith, 2024).

2026-01-28T19:01:00 Analytics

1. 2026-01-28T19:01:00 At Albertsons Lucky, Charter Square at the Bank of America (BoFA) customer service desk, the German Store Manager, John Holtz, was attending to an Asian father, older son, and younger daughter, who did acrobatics. The word came on Paseo Padre Parkway between Blackstone Way and Seward Drive, on an overhead bridge, Highway 880 south, at the south of the 1st of 4, driving lanes.
When is it all he asked for... He persuaded in doing?
New Testament

2026-01-10T10:37:00 Interpret

- 2026-01-10T04:43:00 I just saw the house of Mahdu. In the south-east, located on a support was a small black television, and there were other electronic appliances. With Hindi, in dreams, the location, artifact, and then probably the actor. Bollywood. Chemistry teacher at Baptist Academy who compared actors to also starring. Hindi are nomadic, they migrate. Other Asians are ancient, historic to Hindi realization on English people, Christianity, and Rome phase II. Dotun needs to nurture and have an impact on her church, family, and worldwide.

2026-01-13T08:18:00 Biblical Interpreters

1. Reverence to God (Genesis 41:16, Daniel 2:21, Daniel 4:26, Daniel 5:23)
2. Witness (Genesis 41:13, Genesis 41:54, Daniel 5:31)

2025-12-26T15:49:00 To... the event of the day? Remain (Genesis 22:14)

At Milk & Honey Cafe, I was attended to by Amy Hsueh Tm, who previously said, I work here, and Audrey Russell. I saw a young Hindi couple sitting in the north-center. I saw some males, and a single woman at Yifang Taiwanese Fruit Tea, and at Albertsons Lucky, Charter Square. Their nationalities are Chile and Peru.

2025-12-25T12:26:00 Trend Analysis

- 2025-12-25T12:43:00 Quoting the Bible. 2018-12-25T12:53:00 God will place a thought on my mind, and I will meditate until a companion word comes.
1. WordInTheBible table: Includes the selection of a replica of a set of keywords in the Bible.
2. SacredText table: 2025-12-25T12:41:00 is nearer to the whole set.

2025-12-15T12:52:00 When was it leading? When was it lagging? When was it exact?

Title	Actor	Scripture Reference	Leading, lagging, exact
Romance of Redemption	Ruth	Ruth 1:6; Ruth 1:22; Ruth 2:7-8; Ruth 2:14; Ruth 2:17; Ruth 2:18; Ruth 2:21; Ruth 2:23; Ruth 3:1-2; Ruth 3:8; Ruth 3:10; Ruth 3:13; Ruth 4:7; Ruth 4:9-10; Ruth 4:13-15	Exact

2025-12-20T10:43:00 Relationship between... number and the Bible?

Dated	Percentage	Commentary	Scripture Reference	Sacred Text
2025-12-20T10:43:00	75%	Wo 75%	Matthew 7:10; Jonah 3, 1 Kings 7, 1 Samuel 21:3	Greek Kingdom (Daniel 2:39)
2026-08-25T15:53:00	50%	100 100		Prince of Persia (Daniel 2:32, Daniel 2:39, Daniel 5:31, Daniel 10:13)

2025-12-20T21:42:00 Building a UI Framework

2025-12-20T21:42:00 Application architectures

The author follows a multi-tier client/server architecture. Each unique browser client HTML web page, features a JavaScript, js, fetches an AJAX request to an ASMX web service, which calls the application layer .dll written in C# , .cs, and this finally sends a SQL to the database server.

2025-12-21T21:45:00 Ephemeral Applications

1. Server-side rendering (SSR): The server initially generates a static user-interface (UI) input form based on an HTML document. This facilitates a fast page load time.
2. Client-side rendering (CSR): By using JavaScript, the client requests an input data-driven dynamic JSON from the server, with which it later builds its specialized HTML result set fragment.

2025-12-22T18:12:00 What is a UI framework?

- Widget libraries: The author primary uses pairs of labels and inputs; submit button; and rarely select, and radio controls. Although the author has experimented with the Microsoft ASP.NET link button, in the past, it is no longer a utensil, since it depends on the availability of JavaScript.
- UI description: The domain-specific language (DSL) that the author now favors is HTML, but he initially, adopted XML/XSLT.
- Layout: For backward compatibility, the author still relies on the HTML table as his layout manager.
- Focus and focus traversal: The author bothers to set the default 1st row and 1st column entry to the autofocus attribute, but the author defers the sequential tab order: tabindex = -1 Element will not get focus.

2025-12-25T20:40:00 Role of the author

- 2025-12-25T17:37:00 Author: His work began by sharing examples of words pertaining to Biblical passages and figures in HTML format. 2025-12-25T17:42:00 Each HTML document was based on a word. 2025-12-25T17:45:00 These stories rarely imply living people's biographies or testimonies.
- 2025-12-25T17:54:00 Data Science: The author records each precise word received in a relational database in a particular location — HisWord table, Word column. The surrounding related information is inferred and subjective (Matthew 16:23).

2025-12-25T21:46:00 Time to first frame

When did He define His rule (Genesis 18:19)?

1. Time to first paint: HTML presentation
2. Time to interactive: JavaScript generation of Document Object Model (DOM)

2025-12-26T21:59:00 Timeline inspector

GetAPage.html Includes performance.now() for AJAX calls 2025-12-26T22:35:00 initiation and completion. 2025-12-26T22:28:00 We must... schedule one another... as purpose.

2025-12-28T19:25:00 User Interface API Documentation

2025-12-28T19:30:00 Content

2025-12-28T19:32:00 Why would I ever use this API?

The web pages and their associated web services calls provide examples 2025-12-28T19:37:00 on how a client can access the database.

1. webpagetest.org In the head element, the Cascading Style Sheets (CSS) were the only initial blocker to page requests, and there were no synchronous scripts. In the footer element, the document was last modified and copyright elements were the only client-side generations.

(Steve Souders, 2016-02-10).

Microsoft SQL Server limitations include:

- Microsoft SQL Server database connection string ApplicationIntent=ReadOnly
 - On the referencing side, it can only relate to a single referenced entry.
 - Varchar columns have maximum sizes.
 - Varbinary columns can be large.
 - Leading zero Zero five eight four nine, versus (VS) 584

2025-07-30T10:22:00 Schema changes

2025-07-30T10:22:00 Schema changes a table

1. The alter table sql command is for changing the schema of a table. The author rarely uses them, because of syntax rules.
2. The SQL Server Management Studio table design menu option provides the most flexibility.
3. SELECT...INTO creates a new table in the default filegroup and inserts the resulting rows from the query into it. URIMaintenancePage.aspx.cs For example, 2024-11-06T02:04:00 URI database table schema columns re-arrangement, and column additions.

2025-07-14T15:13:00 10 Best Influences on Software Engineering

- 1. Reviews and Inspections: 2025-07-14T15:34:00 Can I be impartial as others?
 - 2007-08-04 PxCQ is a free static code analysis tool from Microsoft that checks .NET managed code assemblies for conformance to Microsoft's .NET Framework Design Guidelines. 2025-07-14T16:50:00 To what extent do I know the culture of others?
 - VSUnit: The JavaScript Code Quality and Coverage Tool
 - 2018-01-05 W3C Markup Validation Service
- 2. Information Hiding: 2025-07-17T20:46:00 Addressing. 2025-07-18T19:33:00
 - 1. During his Master's degree programme at the University of Technology, Sydney (UTS), the author learned about the 3 tenets of object-orientation (OO). These are namely encapsulation, inheritance, and polymorphism.
 - 2. 2025-07-18T19:45:00 While working on a project for Information Dialing Services (IDS)... 2025-07-18T19:47:00 under the auspices of Ralph Silverman. 2025-07-18T19:49:00 The application client suffered from information overload. 2025-07-18T19:51:00 9055 telephony callers were being recorded... in a data entry application. 2025-07-18T19:53:00 Client/Server and the Internet have this myopic view of data. 2025-07-18T20:03:00 The infrastructure was a client/ server with PowerSoft PowerBuilder as the client, and Watcom SQL Anywhere as the relational database. 2025-07-18T20:06:00 How much information were we bringing to the client? 2025-07-18T20:12:00 Essex is a writing tool... where is the speaker?
 - 3. During his Doctorate's degree programme at the University of Wollongong, the author learned to program smart cards by using the C programming language.
 - 4. 2025-07-18T20:50:00 The choice of AlphabetSequence... relies on alphabet places in a language... 2025-07-18T20:55:00 sacred scripture partitioning.
 - 5. 2025-07-18T21:03:00 Multitier: Separation into client presentation, application, and server data management.
 - 1. Client presentation: A web browser parses and displays an HTML document. A JavaScript fetch statement calls a method in a web service, .asmx file, and posts a stringified JSON request. A JavaScript method parses and displays the JSON (JavaScript Object Notation) response.
 - 2. Application: A dynamic link library InformationInTransit.dll queries the database.
 - 3. Server data management

(Steve McConnell, January/February 2000).

2025-07-13T18:23:00 Software documentation

2025-07-13T18:31:00 Why behind the code

GetAPage.html offers the user the opportunity to enter the word, 2025-07-13T18:42:00 and retrieves the command God's word.

2025-07-13T18:53:00 How to install and use the code

GetAPage.html is available via the browser, and so also are the web services it requests. The application-tier and database-tier are also accessible.

(Write the Docs).

The impetus for database recording was to re-use.

2025-06-29T04:18:00 Use Case Interpret Word

Software Engineering: A Modern Approach by Marco Tulio Valente. Use cases

2025-06-29T04:26:00 Actor: User

2025-06-29T04:27:00 Main Flow:

- 1. - The user enters the word to interpret
- 2. - The system determines by using regular expressions the data type of the word
- 3. - The system determines the AlphabetSequence of the word, which include the AlphabetSequenceIndex and AlphabetSequenceIndexScriptureReference
- 4. - The system informs the user the corresponding sacred text

2025-06-29T04:51:00 Extensions:

- 3a- If the word is a positive integer, the system should set the value of the AlphabetSequenceIndex to the word, and determine the AlphabetSequenceIndexScriptureReference, and complete processing
- 3b- If the word is a negative integer, the system should inform the user to enter a valid word
- 3c- 2025-06-28T22:10:00 If non-English alphabets flag?
- 4a- If the word(s) count is either 2 or 3 words, determine the associated sacred text

2025-08-28T06:58:00 Use Case WordEngineering

2025-08-28T06:59:00 Actor: User

2025-08-28T07:00:00 Main Flow:

- 1. - The user records the word into the HisWord table by using the Microsoft SQL Server Management Studio
- 2. - The system generates the HisWordID column, sequentially, by adding, and incrementing by 1, the previous, last, HisWordID column
- 3. - The system sets the Dated column to the current system time. The Dated column the user may adjust, backdate, if it is late
- 4. - The user records the unbiased supporting columns, such as the Commentary, Contact, url, and Location. The commentary is the activity in the user's own words. Both the contact and url are 2025-08-28T16:51:16 single-valued attributes. The contact is the system allocated identifier. When there are multiple contacts, their names are determinable from the record as a whole
- 5. - The user 2025-08-28T07:35:00 traces historical data

2025-08-28T07:33:00 Extensions:

5a- The user determines the date differences between the corresponding words and events

2025-09-02T20:24:00 To replicate God's Word?

- 1. WordEngineering started with the author receiving an idea, and the author documenting similar scenarios in the Bible
- 2. Now, when the author hears a word, or the author dreams... 2025-09-02T20:33:00 he relies on his pursuance of the truth

2025-06-27T20:10:00Minimum Viable Product (MVP) and A/B Testing (or split testing)

(Marco Tulio Valente).

2025-05-17T20:07:00 Functional Programming... Computed Columns

- 1. 2025-05-17T20:16:00 Pure Function, referentially transparent:
 - In 2002, while programming AlphabetSequence the author made the assumption that the English and Yonuba 2025-05-17T20:32:00 are the same languages.
 - 2025-05-17T21:17:00 The author only considered the King James Version (KJV). Singularity of the Composition.
- 2. 2025-05-22T18:10:00 Immutability:
 - 1. 2025-05-22T18:16:00 Object-oriented technology serves change states.
 - 2. 2025-05-22T18:25:00 Inheritance, interface, method overloading, encapsulation, polymorphism, are all object-oriented principles.
 - 3. 2025-05-22T18:17:00 As is of the need for database storage.
 - 4. 2025-05-22T18:20:00 Variable declarations and initializations. Variables refreshing with default values, constants, statics, read-only.
- 3. 2025-05-22T18:31:00 Practical need for recursion?
- 4. 2025-05-31T04:44:00 First-class and higher-order functions. The author's investment in SQL-CLR and C#. 2025-05-31T05:07:00 What am I learning... as I progress? Azure SQL Database. What am I learning... as I make progress?

```
EXEC sp_configure 'allow updates', 0
RECONFIGURE

sp_configure 'show advanced options', 1;
GO
RECONFIGURE WITH OVERRIDE;
GO

sp_configure 'clr enabled', 1;
GO
RECONFIGURE WITH OVERRIDE;
GO

5. 2025-05-31T06:22:00 Lazy evaluation... is a scenario for LING.
```

(Ben Weidig, 2023-05-09).

2025-05-15T20:10:00 How to be a SQL editor?

Instruction

Append a record in the HisWord table for each sentence spoken by God. Do not make assumptions about entries not uttered by God. The discretion of the author governs his data input into the supporting tables. The database validation rules apply to mandatory, data type, and referential integrity. The ActGod table manages major and minor column relationships. The URI and DivineDecidedToWorkOnAGradualImprovingSystem Databases: are not his input. The author is not their source. The author is the custodian of the WordEngineering database. When the author is not the original source, 2025-05-19T08:18:00 should he be the custodian? Is the monitor... automatable?

lang attribute

As advised, the author specifies the English language on the HTML tag. As of this time, the language attribute is not specified elsewhere. 2025-05-20T09:32:00 Who speaks... on... authority?

2025-05-15T20:20:00 Data Modeler

- A data modeler uses data definition language (DDL) to design the information container.
 - 1. In 2002, when I started recording the word of God, I modeled the HaveDecidedToWorkOnAGradualImprovingSystem database, HisWord table.
 - 2. In 2007, when I was looking for God, I modeled the HaveDecidedToWorkOnAGradualImprovingSystem database, and I developed its Internet application.
- The primary and most basic information container is a table and its rows and columns. For the author, the HisWord table is essential, and its word column is appropriately God's given.

(John Dean, 2018-01-09).

2025-04-14T09:59:00 Conversion Translate (Genesis 23:15-16, Leviticus 27:14, Zechariah 11:12-13)

- AlphaNumeric: Monetary values vary according to inflation and foreign exchange rates.
- Unit of Measurement: Age stays constant for a year?
- Individual versus (VS) general: The Temptation of Christ... The 10 Commandments. What will expand? I choose.
- The writing assistant may suggest word changes:
 - 1. Spelling corrections.
 - 2. Verb grammar tense.

2025-09-08T13:03:00 What do you search by?

2025-09-08T14:05:00 Before you can search... you must have a query... parameter.

Five Ws	Example	Usage	Scripture Reference
Actor	Jesus Christ	Meta name? Author	Revelation 19:10
When	Sabbatical rest	document.lastModified	Daniel 9:2
Where	Jerusalem	id attribute	Daniel 3:2

2025-02-19T12:20:00 What I offer of the truth?

1. Command-line interface (CLI)?
2. No .NET Core support
3. 2025-02-19T14:24:00 Data repository? Microsoft SQL Server relational database
4. The author does not make use of Microsoft SQL Server synonym support
5. The author rarely uses Microsoft SQL Server soundex support
6. Only English, there is no multi-lingua support
7. Limited Bible versions, dictionaries and commentaries
8. Support Structured Query Language (SQL), and accessible via Language Integrated Query (LINQ)
9. Microsoft SQL Server will support Regular Expression (Regex)

2024-10-04T09:03:00 Data entry with Microsoft SQL Server Management Studio

1. 2024-10-04T09:07:00 Familiarize with the database schema, data dictionary, and entity-relationship model.
2. 2024-10-04T09:25:00 Understand that today's web pages offer greater flexibility and customization, and they are more universal and generic than previous generation's desktop applications. Data entry column attributes include autofocus, for, placeholder, required, style, taborder.
3. 2024-10-04T09:12:00 As much as possible, initially accept the default values, with, for example, the date columns. You may adjust and be precise, later.
4. 2024-10-04T09:44:00 Only in rare cases should you resort to a table identity column value setting, like, for example, by stipulating in advance the SET IDENTITY_INSERT, DBCC CHECKIDENT statements.
5. 2024-10-05T02:44:00 This is what I am unable to do with the graphical user interface (GUI)... this is what I am inspired to do. 2024-10-05T02:49:00 Its interface... remains our reliance. 2024-10-05T02:52:00 I am equipped to doing the same... as I realize. 2024-10-05T02:54:00 This point... must allude to one. 2024-10-05T02:59:00 Microsoft Office... Hypertext Markup Language (HTML). Why not... the machine pretends to do? 2024-10-05T03:01:00 God has done His part... where is my part?
6. 2024-10-05T05:03:00 Next after 2024-10-05T05:10:00 (1 Kings 1:5)? E. F. Codd in 1970, proposed the relational database.
7. Primary key
 - The natural primary key for the url tables is the url column. When a user attempts to insert a duplicate url, the 2026-07-16T10:54:00 database updates an existing url. URL (Uniform Resource Locator). Uniform Resource Identifier (URI).

2025-02-23T16:30:00 Company osi data... osi yemi.

Relational Model

- The author progressed from authoring disparate HTML files to recording information in a relational database.
- This transition offers an opportunity to analyze tables, columns and rows.
- Functional dependencies of relationships between columns are determined.
- The Word columns in the HisWord table is a determinant but, it is not always unique; therefore, it is not its primary key.

View

A view is a virtual table that does not reside permanently on a physical storage. The MyURI view is a union of all the URI tables. The ViewContactSet view is a join of the columns in the Contact and contact details tables. The HisWord_view view appends computed columns to the HisWord table.

Users

The general operating system and compact database are the 2 types of authentication.

(Allen G. Taylor, 2019).

Codd's 12 rules

Focusing on the Word.

Rule 0: The foundation rule: Since 2002, the author has adopted the relational model for storing his data. The author structures his data and queries his data by using the Structured Query Language (SQL).

Rule 1: The information rule: The physical store is the HisWord table's Word column. This information is later processed logically in the HisWord_View.

2024-06-15T21:28:00 What is certain to the data?

Prior to this word coming, I uploaded the 3 file formats of the dissertation files (.html, .txt, .pdf) from the Windows operating system computer to the UNIX operating system computer Linux variety. I also read the counter-style of each file.

Rule 2: The guaranteed access rule: Specifying the primary key restriction in the where clause makes each datum reachable.

2024-06-16T16:30:00 To who... I exchange... my good?

Rule 3: Systematic treatment of null values:

2024-06-18T21:49:00 Unknown or inappropriate.

- Identity columns cannot be null
- Date/Time type columns will default to the system's datetime
- The columns that are part of a primary key cannot be null

Rule 4: Dynamic online catalog based on the relational model:

INFORMATION_SCHEMA offers metadata, and it is questioned via SQL.

Rule 5: The comprehensive data sublanguage rule:

2024-06-20T18:39:00 It looks at the data as a whole.

Structured Query Language (SQL) sublanguage		
Sublanguage	Command	Usage
Data query language (DQL)	Select	Is the most popular and non-risky. Except it may affect performance and bandwidth load consumption.
Data definition language (DDL)	Create or alter or drop schema objects	The create statement is used once for each new object. The alter statement is mainly for an existing object.
Data manipulation language (DML)	Insert, Update, Delete, Truncate	Manipulation may fail in the following cases: - Primary key or unique index duplication. A primary key column may not be null. - Invalid datatype or extra large data size or out-of-range - Constraint rule violation - entity, foreign key. The author rarely imposes constraints, like for example in DatedFrom versus (VS) DatedUntil, which may result in negative date differences. The Max datatize will truncate extra data, but SQL Server primary key indexes impose a size limit of 900 bytes. Whereas VARCHAR(MAX) is typically 8000 bytes.
Data control language (DCL)	Grant, Demy, Revoke	
Transaction control language (TCL)	Begin, Commit, Rollback transaction	

Rule 6: The view updating rule:

Only computed columns cannot be updated.

Rule 7: A single operation must support select, insert, update, and delete:

A base or derived relationship should comply with an operation to select, insert, update, and delete.

Rule 8: Physical data independence:

Batch and end-user operations are not impaired when changes are made to physical storage or access method.

2024-06-22T15:13:00... 2024-06-22T15:15:00 There is no deterioration in data... when there is a restore, import, or bulk copy.

2024-06-22T15:36:00 What part of yourself... do I desire as My future?

Rule 9: Logical data independence:

2024-06-22T17:02:00 The possession of someone else... is beside me.

Rule 10: Integrity independence:

The author is not implementing constraints.

Rule 11: Distribution independence:

The user is not aware that the data and log are in separate files. Replication and mirroring are other means of ensuring redundancies.

Rule 12: The nonsubversion rule:

Row processing such as cursor must abide by integrity rules and constraints like set processing.

(Edgar F. Codd, 1970).

Concept: GetAPage.html

- User-facing: A user enters a received word, and there is a set of tabular responses.
- Functional: This is a Single Page Application (SPA) that depends on AJAX, and it calls multiple web-services.
- Behavioral: There are associations between the word and the Bible and the dictionaries' object-oriented classes and entities.
- Independent: This is a composite of previous stand-alone work.
- Purposive: Based on user input, the system retrieves data, while also allowing further queries.
- Reusable: The idea is to retrieve information from a set of sources and send the results to various destinations.
- Valuable: The data is free, and the work is non-complex.

(Daniel Jackson, 2023-06-26).

The user-interface (UI) supports queries, and not database maintenance. The author builds an interface for each additional work that is customizable by the end-user, and independent of the environment of the author. A step... further... for... among us. The mundane query initiative can be participated in by everyone. The complicated tasks are reserved for skilled users.

(Daniel Jackson, 2024-01-08).

What did He diagnose of in making man (Genesis 2:7 Genesis 6:3)?

(Matt Chanoff, Merrick Furst, Daniel Sabbah, Mark Wegman, Arvind Krishna, 2023-11-07).

Volume, Velocity, Variety

Keyword	Commentary	
Volume	sp_spaceused @objname = 'HisWord'	
	Keyword	Value
	Rows	115689
	Reserved	28296 KB
	Data	17104 KB
	Index_Size	9648 KB
	Unused	1544 KB
	The author does manual data entry.	
Velocity		
Variety	At the beginning, the author parsed XML files into textual relational tables.	

(Jack Hyman, March 2024).

Data Types

HisWord table
Qualitative (categorical) non-numerical/disjunctive - nominal (non-ordered), ordinal (orderly) or

Quantitative (numerical) uses numbers - discrete (countable), continuous (measurable)

Column name	Column type
HisWordID	Discrete (countable)
Dated	Continuous (measurable)
Word	Nominal (non-ordered)
Commentary	Nominal (non-ordered)
Uri	Nominal (non-ordered)
ContactID	Discrete (countable)
ScriptureReference	Nominal (non-ordered)
Filename	Nominal (non-ordered)
EnglishTranslation	Nominal (non-ordered)
Location	Nominal (non-ordered)
Scene	Nominal (non-ordered)

Data type	Column type
Nominal (non-ordered)	Text
Discrete (countable)	Numerical

- Title

- Autobiography

Data type	Column type
Continuous (measurable)	Date

(Jack Hyman, March 2024).

Time *had*?

- Birth ([Acts 7:20](#))
- Family ([Acts 5:31](#))
- People ([Hebrews 3:9](#))

Allowing a person the entirety of time

- Initially, the author's strength lay in the database. The author parsed XML data in datasets, datatables, datarows.
- The author's familiarization with JavaScript meant client-side work.
- *What I am good at doing is what the is good at making* ([Genesis 41:32-57](#), [Genesis 1:1-1-2](#), [Genesis 4:26](#)).
- Derivation ... variety: Processing of a word spoken by God to the author is initiated by [GetAPage.html](#)
 1. GetAPage.html serves as a gateway to specialized links.
 2. GetAPage.html saves users from having to remember specific URLs and opening multiple browser tabs.
- Technical writer: *Do you write it as a manual? Do you write it as describing the functionality* ([Daniel 9:24](#))?

O t i d i computer

- To calculate the AlphabetSequenceIndex the attempts by hand may suffice
- BibleWord may not be deductible until ignoring the parts of speech
- Date difference difficulty lengths between the biblical and the Gregorian calendar

Microsoft SQL Server Management Studio: data entry

- You could say, this is what I do... [Why I do it](#)
- I have had to balance migrating to an Internet interface via using Azure Data Studio, or continuing using the faster, stable, Microsoft proprietary SQL Server Management Studio.
 - [Where are the differences, companion?](#)
 - [Experimenting...as the same?](#)

Influence

- Data:
 - Biblical data is hosted locally and accessible via the Internet by linking to web addresses or placing web service requests.
 - For over 2 decades, the author has continuously received word that he constantly records and queries: [Singles?](#)
- Is there a creative need for new data? The Bible is complete, but do we have to find new ways of using it? Is there a divergence or supplement? How do we explain and analyze?
 - Language translation
 - Familiarity with the subject and tradition. Apply domain knowledge.
 - Maturity and relevance to our time
- Choosing a closer relationship with God.
 - Software: Algorithms are patentable? The author has not sought to patent AlphabetSequence...it should be open to ideas. [We all make our following](#).
 - Hardware: Although the author's doctoral study was on intelligent appliances...he feels drawn to the Bible. God has reminded him of his success...when he is pertaining to Him.

(Andrew Glassner, 2021).

This data...where does it exist?

- Legacy storage of some data types is unnecessary, since this data is computable. For example, concordances are automatically determinable. Dictionaries that contain the meaning of words are available on-line. Computers provide up-to-date versions and translations.
- How-to display the data? After determining the AlphabetSequenceIndexScriptureReference the author currently retrieves and displays in particular the King James Version (KJV) Bible text, and the author provides a hyperlink to a scripture reference page for displaying other Bible versions. This practice follows Google's display of a Wikipedia's sidebar and providing a hyperlink to the particular Wikipedia url. For Bible literates, this regurgitation may be redundant. What programming skills are in demand?
1. Issuing a SQL select, and using a cursor to loop through a tabular or variable output, and building an HTML fragment
 2. Simply creating a HTML anchor to a source url
 3. Fetching, parsing, and building the results of a web service
- [Our companion our trade](#) (1 Samuel 25). [To be conformable of age](#).

Talent and reward?

- What is the cost of entry? There is no monetary investment. The author started when he was unemployed.
- What is the skill-set? To do manually? The order of alphabets is the literacy competency level. To know how to spell words is also useful.

What opinion of the same do I have?

- Calendar - evening and morning, sun and moon, Passover
- Order of birth - genealogy, leadership - blessing, allotment

Word direction

- When I hear a word: I try to connect to occurrences
- When I read a word: I try to put it into my own words
- When I recall a word: Separated alike joined together ([Joshua 1:8](#))

Location of content

- Flat files (.html and .xml): Reasoning
- Database: Word from God
- Software: Automation of work

Laws of Communication

- The Law of Credibility:
 1. HisWord table Word Column: As much as God spoke it
 2. Period of Time tables: With respect to time
 3. BibleWord table and GetAPage.html BibleWord section: King James Version (KJV) dependant
 4. GetAPage.html HisWord section: Time variant
- For a period of time, we are as we seem we are? What needs a success. ([Genesis 4:7](#), [Matthew 14:8](#), [Mark 6:25](#))?

(John Calvin Maxwell, 2023).

What do I desire...as act of significance?

1. Moses? Prophet ([Exodus 4:10-16](#), [Numbers 12:6-8](#), [Deuteronomy 18:15](#)).
2. Abraham? Seed ([Genesis 17:5](#), [Genesis 15:2](#), [Genesis 22:2](#), [Genesis 22:12-18](#), [Hebrews 11:17-19](#)).

Accessibility to name?

1. The first and only word spoken to me in the United States of America (USA) prior to my deportation is, I Am taking you on a journey. The first word spoken to me upon my return to the United States as I prepared to go to a christening in Los Angeles (LA) was Ite eyan mi lon to yi. Translated it is my person's house you are going to. Location, movement, matters to God. The first word is in English, the colonized language. The second word is in Yoruba, my native language. Where is the expectation of good? Times are expectations.

2023-12-15T08:40:00

What substitution...we have ahead?

Post Resurrection	Pre Resurrection	Scripture Reference
Tree of life	Bread of life	Revelation 2:7 , Revelation 22:2 , Revelation 22:14 , John 6:35 , John 6:48
Book of life	The word of God	Philippians 4:3 , Revelation 3:5 , Revelation 13:8 , Revelation 17:8 , Revelation 20:12 , Revelation 20:15 , Revelation 21:27 , Revelation 22:19
Antichrist	Father's name	1 John 2:18 , 1 John 2:22 , 1 John 4:3 , 2 John 1:7 , John 5:43
Man of sin	Comforter	2 Thessalonians 2 , John 16:7

Where will I be of the same?

Word	Scripture Reference
Burial place	Ecclesiastes 7:2 , Genesis 23:20 , Genesis 49:30 , Genesis 50:13
Birth place	Matthew 2:6
Matnach's origin	Genesis 25:20 , Genesis 28

Information Flow

Sharing His word; is following His deed.

(Charles M. Kozierok).

With .asmx web services, the author, standardized on JSON for returning data. The alternative is XML. The preference for JSON, is because of its lighter payload. Another difference, in the result set, the author chooses if to return a dataset, datatable, or scalar? The datatable is useful for a singular resultset. With SQL Query select statements, the column list may refer to *, for returning all the columns, in the order they are arranged in the container, table or view; or otherwise the stricter, specification of each column to return. The author restricts which rows to return, by issuing the conditional where clause; the top 1 select clause is useful, for quote of the day; as it supercedes the set rowcount 1, limitation. The author depends on the database order by clause, for sorting in ascending or descending order; Data is also rankable by clicking on the table's column header.

Basic Communication Modes of Operation

The author's SQL Server TCP/IP is turned off; because the author does not want interference from the outside. The author imposes an artificial Simplex Operation; only supporting external read requests, and not allowing updates; which is a one-way traffic of data from the server to the clients. The other options are Half-Duplex Operation and Full-Duplex Operation.

Quality of Service (QoS)

Most of the author's web pages transmit textual data; but a few pages offer text-to-speech or video capabilities; these rare application rely on high-grade speciality. The author as a programmer does not meddle with these intricacies; the technology provider takes care of the nitty-gritty.

Parameter Standardization

The column name is kept consistent in the query string, up-to the naming convention and the case-sensitivity; this also applies to where we specifically refer to a column name in JavaScript. This is most seen, in the Scripture reference and Bible word variables, which the author shares around.

Global Resource Allocation and Identifier Uniqueness

The domain name is unique to the organization; and the Javascript code for AJAX explicitly mentions the virtual directory; the internet provider issues the IP address.

HisWord table nullable columns

- Title
- Abstract

- Autobiography

All of the columns in the HisWord table are either system generable (HisWordID, Dates) or nullable (i.e.Samuel 3:15)

For	Against
Prudent	Disposable
Hyperlink	Diversion
Quality Assurance (QA)	Prone to error
God	Man
Word	Commentary
Location	Scenery
Transaction commit rollback	Data cleansing

Typing Assistant

What are we celebrating person with i Jeremiah 31:15)? This is a long trend of disruption... word resonances with AlphabetSequence (Index, Scripture Reference). These are edits. A record is insertable only once. There may be multiple updates.

For	Against
Man	Machine

Numbers in themes

- He expressed good as how He felt (Genesis 1:9, Genesis 1:10, Genesis 1:12, Genesis 1:18, Genesis 1:21, Genesis 1:26, Genesis 1:31, Genesis 2:9, Genesis 2:12, Genesis 2:17-18, Genesis 3:5-6, Genesis 3:22).
- He expressed start and end of time (Genesis 1:1, Genesis 1:5, Genesis 1:8, Genesis 1:13, Genesis 1:19, Genesis 1:23, Genesis 1:31, Genesis 2:1-4).
- King of the Jews (Matthew 2:2, Matthew 27:11, Matthew 27:29, Matthew 27:37, Mark 15:2, Mark 15:9, Mark 15:12, Mark 15:18, Mark 15:26, Luke 23:3, Luke 23:37, Luke 23:38, John 18:33, John 18:39, John 19:3, John 19:19, John 19:21).

To be actual things

- Pronunciation (Luke 1:13, Luke 1:60)
- Application (Luke 1)
- Spelling (Luke 1:63)
- Reference (Matthew 11:14)

In telling the future, there are two parts: prophecy and fulfillment (Revelation 19:10). The author feels that search engines and artificial intelligence (AI) have made sufficient inroads in interpretations.

What prize at the target?

What prize at the target?		
Prize	Target	Scripture Reference
Know.exe	Diversified language	Genesis 11:9, Revelation 7:9
http://github.com/KenAdenji/WordEngineering/tree/main/ITS/Gradual	I have decided to work on a gradual improving system.	Psalms 133

SQL uses set theory, whereas most programming language clients, including LINQ, use row processing or procedural programming. Relational operations:
1. Projections: The author will use projections, select clauses, for retrieving the user-specified Bible version column.
2. Selections: The particular Bible row verse selections, where clauses, are built using dynamic SQL.
3. Joins: Normalization offers the opportunity to segment and in most cases defer from using the join clause. The contact view joins the contact table and its subsidiaries. Cf provides datasets which contains datatables and ASP.NET uses GridView.
This is visible in:

.aspx	.aspx.cs
http://github.com/KenAdenji/WordOfGod/ blob/master/ContactMaintenance.aspx	http://github.com/KenAdenji/WordOfGod/ blob/master/ContactMaintenancePage.aspx.cs
http://github.com/KenAdenji/WordEngineering/ blob/main/ITS/Gradual/Contacts/ContactList.aspx	http://github.com/KenAdenji/WordEngineering/ blob/main/ITS/Gradual/Contacts/ContactList.aspx.cs

Theta join the old convention of placing columns relationships conditions in the where clause has been superseded by the ANSI/ISO join clause.

(Kevin Kline, Regina O. Obe, Leo S. Hsu).

logparser

The log files for this observation are between 2017-01-02 and 2023-06-08.

Elements processed: 938499

```
logparser.exe "SELECT sc-status, sc-substatus, COUNT(*) FROM *.log GROUP BY sc-status, sc-substatus ORDER BY sc-status" -i:w3c
sc-status sc-substatus COUNT(ALL *)
200 0 189115
304 0 9467
```

The count of requests served from the server, HTTP Status code of 200, clearly outweighs 304 HTTP status code, local cache. HTTP 500 Status Code, internal server error, sum is approximately 6400.

```
logparser.exe "SELECT cs-uri-stem, COUNT(*) FROM *.log WHERE sc-status=500 GROUP BY cs-uri-stem ORDER BY COUNT(*) DESC" -i:w3c
```

logparser.exe "SELECT TOP 20 cs-uri-stem, COUNT(*) AS Total, Max(time-taken) AS MaxTime, Avg(time-taken) AS AvgTime FROM *.log GROUP BY cs-uri-stem ORDER BY Total DESC " -i:w3c	cs-uri-stem	Total	MaxTime	AvgTime

Task completed with parse errors.
Parse errors:
1565% parse errors occurred during processing (To see details about the parse error(s), execute the command again with a non-zero value for the "-e" argument)

Statistics:

Elements processed: 266572
Elements output: 20
Execution time: 84.46 seconds (00:01:24.46)

Productivity

1. Productivity is the measure of unit tasks completed within a time frame or at a cost.
2. A project cost is its work hours. A work day is 8 hours. A work month is =176 work hours. A work year is =2000 work hours.
3. The degree of conceptual complexity increases when an expression contains various function calls and many parentheses. Scope complexity is the fitting between parts.
4. To predict productivity? Re-use.
5. Metric:
 - Executable Size Metric: Is the code largeness. It does not fully consider the uninitialiated array data. It includes library code which reduces complexity. It is not a language-independent source. It is not CPU-independent.
 - Machine Instructions Metric: This is the size or count of the machine instructions.
 - Lines of Code Metric (LOC): It counts the number of source code lines. It is consistent across programming languages. It is CPU-independent. The Linux word count, wc, command will suffice.
 - Statement Count Metric: It excludes comments, blank lines, and counts as 1 a statement that spreads across multiple lines.
 - Function Point Analysis (FPA): It looks ahead and assumes the amount of work a program will require. It details the inputs, outputs and basic computation. FPA has become a postmortem (end-of-project) tool.
 - McCabe's Cyclomatic Complexity Metric developed by Thomas McCabe: It finds out the complexity by determining the paths through it.

(Randall Hyde).

Design Specifications

Design Specifications				
	Sample Specification and Categories	Constraints	User Specification (Demand)	User Specification (Want)
Function How it works	The current work meets the design of an Internet. The test environment. 1. Performance 2. Energy			
Aesthetics How it looks	1. Geometry (e.g. Earlier work focused on generating Internet documents. The transition was from .html, xml/xslt, .aspx, and now AJAX.)			
Quality How well it is made	1. Materials The author's work is software specific. 2. Cost Open-source 3. Manufacture While it is Microsoft-centric for the back-end (asmx, Transact-SQL, SQL Server database), the front-end is industry standard (.html, js, .css).			

- [Title](#)
- [Abstract](#)
- [Acknowledgements](#)
- [Theory](#)
- [Results and Discussion](#)
- [Terminology](#)
- [References](#)
- [Appendices](#)
- [Background](#)
- [Prospectus and Fulfilment](#)
- [Autobiography](#)

	Sample Specification and Categories	Constraints	User Specification (Demand)	User Specification (Want)
Safety	1. Time The time duration is minimal. 2. Transport The work is done on one computer. 3. Ergonomics The doctorate work consisted of a proof-of-concept that is easily replicable.			

(DeLean Tolbert Smith).

Brainstorming

Brainstorming	
Strategy	Description
Focus on quantity	AlphabetSequence includes the whole Bible. The author has not expanded the 2-words nor 3-words computation.
Wait to judge	AlphabetSequence is relevant to the English language and the King James Version (KJV) Bible?
Think outside the box	While the initial focus was on the Bible, written word; research now includes spoken word.
Combine and improve ideas	The author solicits input from others.
Keep focus on the problem	Database recording resulted from the effort to determine when? The author has concentrated on this timeline.
Set a time limit	Elaborious work is avoided.

(DeLean Tolbert Smith).

Design Selection

- Agility: Ease and speed
- Flexibility: Adaptation to changes
- Component: Encapsulation

(DeLean Tolbert Smith).

Ease of Manufacturing

- Large number of independent parts: Team or solo development
- Parts accessibility: Build versus (VS) buy

(DeLean Tolbert Smith).

Decision-screening Matrix

The AJAX approach offers the following benefits in performance criterion and weight:

- Ease of manufacture
- Engineering skill needed to build
- Robust design
- Primary function independence

The competing solution will include:

- Server-side JavaScript, for example, Node
- Front-end library and framework, for example, React

(DeLean Tolbert Smith).

To know my part as His?

- [ContactMaintenance.aspx](#) is a replica copy of a Microsoft wizard master-detail example.
- [I have decided to work on a gradual increasing system](#) is a reverse-engineering clean room implementation of [Microsoft hotmail.com](#).
- What are you able to do now that you weren't able to do before? [To recognize the following as I \(2 Samuel 3:32 \) ?](#)
- [Who it comes to \(Hebrews 11:24 \) ?](#)
- [What is the following? List of C-family programming languages](#)
- [The mechanism of selecting people?](#)
- [What notion of the same do I have?](#)
- [What I keep member of \(John 17:12 \) ?](#)
- [What did He find as suitable for him \(Genesis 39:9, Daniel 1:12, Daniel 1:16, Genesis 1:26-27 \) ?](#)
- [What did He find re-occurring as him?](#) Seed of Jesse, king like David, son of David

Fixing your website's JavaScript performance

- Long tasks:
 1. Yield to the main thread: the PageLoad event handler performs an IsPostBack check, and if it is not a PostBack, parses the querystring. 2025-07-12T03:19:00 [Sets the input value](#) of the various element IDs, and submits the query.
 2. Optimize your rendering patterns:
 - Eliminating layout thrashing: 2025-07-11T18:17:00 [AJAX...only refresh updates](#).
 - Using efficient CSS selectors: The simple 2025-07-11T18:37:00 [table inner elements sub-ordinates](#).
- Large bundle sizes: A bundle size is the total amount of JavaScript code that needs to be downloaded, parsed, and executed when a user visits a website.
 1. The author does not use inline JavaScript.
 2. The author minimally uses internal JavaScript for page-specific event handlers.
 3. The author always uses an external JavaScript file, [9432.js](#), for rendering dynamic data-driven HTML tables and selects. 2025-07-12T14:54:00 [What contribution I have... as someone else \(Mark 7 \) ?](#) 2025-07-12T16:44:00 [What did He do?](#) [tlow did I do \(Luke 1:41, Luke 1:44, Matthew 3, John 3 \) ?](#)

(Mozilla DebugBear, 2010-10-08).

Web Site Performance Metrics

The load time, and response time to user action and submission. The author tested the time, it takes to load each page, after development; and the wait period was satisfactory. For the Bible database, the author does not expect further increase in database size, which will put premium on the load. [Abmdu's Law](#) comes into recognition in [GetAPage.html](#), by performing multiple tasks with Web Services and measuring with [performance.now\(\)](#).

URL	Load time	Page size	Commentary
2015-10-23DoctoralDissertation.html	379 ms	33.5 kB	2015-10-23DoctoralDissertation.html This is the thesis document, and this is the initial finding, as there is progress and as the author reaches conclusions, the author estimates further increase in load time and page size.
http://e-comfort.ehpraimtech.com/WordEngineering/WordUnion/BecauseWeAreHeHlThisIsOurDefinition.html	5.96 s	3.3 kB	BecauseWeAreHeHlThisIsOurDefinition.html is standalone, it does not load additional CSS, HTML files, nor does it make AJAX calls to the back-end.

Development History

Technology	Commentary
Relational Database	After the introduction of the author to Microsoft SQL Server; the author does not feel the need to adopt newer technology like object-oriented database, nor nosql.
Server-side Programming, Back-end	The author learnt C#, and there has been no reason to adopt upgrades. When Microsoft MVC learning is not necessary. The scripture reference class offers partition for instantiation. The Microsoft platform is the author's choice, although the migration to .NET core may be inevitable.
Programming Style	This lineage are passage. C# is object-oriented. JavaScript is functional programming. SQL is declarative and imperative.

In Australia, I got involved with the prison ministry at the Villawood Detention Center. The Christian missionaries that were serving felt that fellow migrants might aid in responding to new applicants. I was deported to my country of origin, Nigeria, from the United States of America (USA); therefore, I could share the plight of these inmates. I was also in the court process, so I could better understand Australia's law. Finally, my most productive contract consulting was at the Department of Training Education Committee (DTEC), so I had an understanding of integrating and skilling re-locating workers. I tried to share computer books, but inmates were undaunted by their relevance to their misery. They were expected to write letters to immigration officials. This

3. 2025-11-06T14:43:00 Interpersonal:
- 1. From his late teen years, the author acquired experience with telephone conversations:
 - Local, long-distance
 - Landline, mobile
 - 2. Beginning with his Masters and Doctorate degree program, the author commenced writing.
 - 3. E-mail: March 1995 to October 1995. Since his consulting days with Sybase/Powersoft... has sought assistance with peers. Where do I have to meet...the house of others?
 - 4. The author is not experienced with audio conferencing, video conferencing, nor computer conferencing.
4. 2025-11-08T06:35:00 Interpersonal: When you reach a contentious issue? Triller reader combative. 2025-11-09T09:00:00 An African-American homeless tall slim male. Timothy Knockum, Safeway, Union Square, Union City, NJ. At the intersection of Fremont Boulevard and Paseo Padre Parkway, south-east, crossing towards the north-east. Walking past Beryl's Dumping, towards Mary's Bakery. 2025-05-25T04:43:00 My twin sibling was driving fast, and Wade probably cautioned him. When we got to our destination, a person carried some bags. Now, or prior to now, I saw the name Olajemi Adeniga. Wade is with a Yoruba mother and daughter who were located in the center-west. The mother is probably still young, and she is wearing a dress up to that, reaches her chest. There is a fan in the south-east, and there is another fan in the north-east. Wade turns the fan on. Some people Nigerians came inside. Within 11-08 in the north-east, I saw an innocent man walking up a hill eastward, some of the people that were carrying guns, arms, weapons. They told him who they were, ungodly people, and they told him to depart. 2025-05-26... 2025-11-06T16:16 days (5 biblical months, 16 days) (5 months, 1 week, 6 days)

(Howard Gardner, 1983).

2025-10-23T20:25:00 Doctorate Candidate Internet Commerce

2025-10-19 Doctor Benhamou Adnani asked me what I specialized in during my doctorate degree studies.

- I learned how to program smart cards using the C programming language.
- I understood flash memory, and I focused on their security aspects.
- I searched for a synonym of the word "understood", on Google.com, and I selected the word, "comprehended". I comprehended Unified Modeling Language (UML). I understood about period, and how it was manifested. The 1st time, I dreamed, was in the year 1988, 12 years before the year 2000. The 2nd time, I dreamed, was at the end of the year 1997, 2 years before the year 2000.

Ask Morken, using the work.

Ask Morken, using the USA as a starting point. If AIA have been **misused**, I couldn't find a **company willing to talk about it**. By James O'Donnell: 2025-10-20-2025-10-20-2025-10-20, 2025-10-20T03:53:00. When I was located in the United States of America (USA) in 1999-01-18, I observed my twin sibling built web pages and databases tracking contacts, websites (URL), and software. When I re-located to Newark, California (CA) 94560, I started building personal pages for tracking contacts and websites (URL) using Microsoft ASP.NET, C#, SQL Server. Unlike my twin sibling, I did not find software a growing technology trend. I understood I wanted to have a database for contacts and websites (URL), but I did not continue in the tradition of my twin sibling of using his adopted technology, user-interface (UI), nor process. Also my Millwated Detention Center prison ministry experience in Australia diverted me from Internet Commerce to give prisoners an opportunity to share their real-life (USA) in 1999-01-00 to 2000-01-00. I was not interested in your own way. In Australia, I was not using technology in my personal life. In the United States of America (USA) I am an employer of technology for Christian evangelism.

I look at the way the world is going things, and I try to do these things as a Christian.

2025-11-01-01T03:28:00. One of the world's happening at Guaranty Trust Bank (GTB). We played cards. There were 2 beds placed on top of one another in the center. Dolapo Ogumekun and some other high-profile employees were talking about leading-edge web development in the south-west zone.

2025-11-01-01T03:28:00. I was not looking for a solution. AlphaBibleSequence came as you were trying to find meaning to words spoken to you in your dreams. Now, that AlphaBibleSequence as proven useful with English and Holy Spirit word, you may be moving to Bible Code, natural occurring sequence. 1988 I am taking you on a journey, was facilitated by other people. How could AdemiUkolu 10:57 leave the dream. Finding a niche... a role to play 10:58 in the Christian direction. It was given time... to separate time. IBM... you have the technology... people. Rita Butts!!! Absorbed? What do we have to work with? I studied, when I was at Newark, Daigaku Honyaku Center (DHC), and I was asked to have women help with WordEngineering. The question is what am I to, and who will help me get there. 5:95 and how? People disoriented from following the information technology career, but I now have a task, I use software. Working with the Document Object Model (DOM) has revealed missing information. I did not find a summary to explain, 11:11 Receive a record view is completed. Explain action, identify scene, build a story with database records, with Dolapo Ogumekun owner of a business... 11:13 How does make it web-enabled? With my adopted father, I learned from him. CHRIC At Gbedu: Don't have a database or back-end. What can AdemiUkolu do? Without the infrastructure... like I did in Newark... without the internet, database. I chose to build by myself, using my requirement. I will strike the shepherd. 2025-11-01T11:20:00 At Akhala. When you are in the midst of God, that is him... choosing by himself.

2025-10-09T20:02:00 Our opinion... among others. 2025-10-09T21:12:00 What I am doing... where will you find it (Genesis 4:26)

- Where?
- Vocation ([Matthew 4:19](#), [Mark 1:12](#))
 - Place of origin ([Matthew 2:1-11](#), [John 7:52](#), [John 18:5](#), [John 18:7](#), [Micah 5:2](#), [Isaiah 5:1-2](#))
 - Resting place ([Genesis 23](#), [Genesis 48:71-72](#), [Genesis 49:29-33](#), [Genesis 50](#), [John 14:1](#))
 - Inheritance ([Ezekiel 44:28](#), [Isaiah 53:10](#))
 - City of refuge ([Joshua 20:7-9](#), [Numbers 35:15](#))
- The author started his tertiary education at Central Piedmont Community College (CPCC), and he worked in its computer laboratory for 3 years. Though he was an exemplary student, he did not attain the same height as a programmer. What could he take to the industry? What did prepare him for a professional life?
- Re-use?
1. Using either of 2 JavaScript methods, the author displays in tabular format the various database results.
 2. Using an overloaded method in C# and various SQL statements, the author retrieves information from the database.
- The above examples are JavaScript fetch keyword, the author places webservice requests.
- All the above examples are 1-line statements that deprecate previous redundant code. It is the hope of the author that using the database to supersede word processing... 2025-10-9720:33:00 is enhanced. Knowing his children in the LORD are following his footsteps...
- 2025-10-09720:35:00 places enormous responsibility on the author.
 - 2025-09720:42:00 While it is imperative they use data entry, or word processing... as long as they use their God-giving talent... It is okay.
 - 2025-10-09720:46:00 How do they... pursue the love... you have attained?
 - 2025-10-09720:52:00
- While the author attended University of North Carolina, Charlotte (UNCC) to further his Bachelor's degree studies, the author perceived it as a diversion from his career interest in software engineering.
 - 2025-10-09720:57:00 This is how the task is done... this how it will mine.

2025-10-09T01:35:00 How can the Bible... revere itself (Numbers 11:16, Acts 6)

2025-10-09T02:19:00 During my first half, 3.5 years in Austria, I studied for my Master's degree with 3 Hispanic male migrants. I lived opposite a Brazilian migrant nurse who later re-located to Camden. Once, Colin Turner drove me to soccer practice.

- 2025-10-09T02:01:00 This is where I want to be... if I am with you.
- 2025-10-09T02:10:00 Do you place a life... apart from you?

2025-09-04 MomentOfLift.com/the-worlds-i-see Microsoft ASP.NET User Controls

2025-09-05T07:23:00 He is not asking you... if you want to do it... by yourself.

1. During the 1st year of secondary school, my twin sibling and I were taught by our adopted father course curriculum in the morning prior to us attending classes in the afternoon sessions.

Considering processing and storing

How can I pass knowledge...as sharing (Genesis 2:7, 2 Peter 1:21)?

- Computers consist of microprocessors and memory. A memory is either:
 1. Read only memory (ROM)
 2. Random access memory (RAM)
 3. Hard disk
 - Object-orientation combines code with data.
 1. Code - method
 2. Data - field or property
 - A relational database offers the opportunity... to program and store data.
 - The ID attribute in HTML files or for hashtag is case-sensitive, and it serves for spot reference, and while it is a fragment address, it is the entire unit. A relational database may support the like and between keywords for the partial and range restrictions respectively. Co le se range checking. It cannot do range checking. There are no abnormality... in certainty.
- What mentions the name?
- Variable and relative? Time, number (Genesis 1:1, Genesis 1:16, Genesis 2:2-3, Genesis 2:16-17).
 - Constant? Name (Genesis 2:19-23, Exodus 3:14).

Progress

The author conceived the notion for AlphabetSpace, he stored the word spoken into XML files, along with manually determining the relevant Bible word. This, the author did, because the author thought and felt that the readers will prefer to read the recent information, and they do not have to reorganize the entire database. The author was living in Newark, and working from Fremont.

The author recorded, the FromJntil Time Span, explicitly into the Remember's table commentary column. Now, there are three computed columns, managing this period(s); these are the days difference, the Biblical time period, and Common Era computation. The author is saving memory storage space, easily. And, also offering the opportunity to other people, the possibility to calculate their preferred period.

Users from horizontal replication and partition, the audience are not more forced to accept the author's calendar. The audience can choose their acceptable fact, and ignore non standard definition.

This notion, this way, is to say; at the beginning, the author will record every entry after six p.m. as the next day saying, just like the Jewish day starts at 6 p.m. With the reasoning advent, the Tanakh, the New Testament, and the Koran, the truth parity, is our governance.

The Basic of Facilitating the Truth

Most words have precedents, and do not exist in an emptiness. Words follow a trend. Are their supportive collaboration, to the utterance the author hears; these are linkable for historical evidence. How do we give our actualities? I have found written text, the easiest and most applicable way of sharing thoughts. Words spoken, when passed from generation to generation, may gain legend status, and therefore, lose appropriateness. We examine the words of history? You will find, that most truths, are actually residing in the dream. In my case, when I try to recall, the past, I search by keywords, numbers and dates. So, entries in the word, are most to realization. The first words spoken have higher relevance and closer affinity; so also, prophetic applicability, have standard occurrence. Your work, so much depends on data entry. The Remember table relies on relationship, deductive reasoning.

Can we look back at history, as we precede our future?

An angel said to prophet Daniel, many shall run to and fro (Daniel 12:4)

Is this phenomenal traceable, Biblically, and can we name a person that bears similar resemblance? When we study, king David, we can see that David fled from king Saul, his predecessor; and two of his biological immediate sons, who purported, to overthrow him as king. In the Book of Revelation, the only three mentions of king David, talk of movement ([Revelation 3:7](#), [Revelation 5:5](#), [Revelation 22:16](#)). Joseph ([Genesis 37:2](#), [Genesis 37:9](#), [Genesis 37:19](#), [Genesis 39:12-18](#)).

Why we Accumulate the Same (Matthew 26:53, Revelation 9:16, Revelation 7:4-8

Samuel anointed David, during king Saul's reign. The choice, one makes, ahead ([Genesis 2:2-3](#), [2 Samuel 11:4](#), [2 Samuel 12:24](#), [Ruth 3:1](#), [Ruth 3:8](#), [Ruth 3:18](#)). Knew versus lay

Wanting a Member of..

In the first words, in the Bible, God referred to the beginning, His work, giving time, an annotation. God also mentioned two places, heaven and earth, creation generally centers on the activities on the earth; and God we understand, resides in the heaven, the last point for good on earth. To seek a development; it had a beginning.

In the second sentence, second verse, God mentions, that the earth was without form and void; meaning the earth was without content. Nothing was a member of the earth. Also, God's spirit, a member of God, moved across the water. When time is maximal used; time is ideal allowed. When the association to follow; is association to the end.

Place	Actor	Scripture Reference
Garden of Eden	Adam	Genesis 2:8, Genesis 2:10, Genesis 2:15, Genesis 3:23-3:24

What did He see as His? A remodelling of the last. (Daniel 9:24-27, Revelation 3:12, Revelation 21:2, Revelation 2:7, Revelation 22:2, Revelation 22:14) ?
The author will want a conciliation with time?
AlphabetSequence is a novice attempt to tie what the author hears to the Bible. As one reads the Bible, they have a more familiar method of communicating. As we begin today, how can we let tomorrow?
That is what we are trying to say, how can we make ample use of time? Word of God. Word from God? The commentary is a human interpretation. You can fit more into time, by making a luxury of time. Why do we have to repeat the meaning in our words?
Bible dictionary and commentary. As a result of who are we? When does the scenario introduce God (Genesis 1:8) ?

Description

Cross references to related applications

The author has filed 2 unsuccessful trademark applications. These trademark requests are WordEngineering and www.JesusInTheLamb.com. The first trademark application deals with the use of engineering to decipher the Bible. The second trademark effort is for the phrase, Walking in the Lamb, you shall follow Me.

Computer Listing

The software is available at <https://github.com/KenAdenji>. These include the source code and the data definition language (DDL). For size and privacy reasons, the data manipulation language (DML) is not available to the general public. The Bible versions, dictionaries and commentaries are available in the public domain. The author concedes that the length of the source code is large, but it is easily readable.

Technical Field

Seeing the Bible as enlightening to man.

Description of Related Art

To find if a relationship exists between the Bible and what we receive today?

2023-01-22T11:37:00 ~~However time substantiated itself?~~ The author suggests that Baptism of the Holy Spirit (Acts 1-2), is achievable in individual locations as a message to the 3rd temple in Jerusalem.

Keyword	Scripture Reference

(Alison Cox).

Database Modeling

Entity-Relationship (ER) Model

Entities

A relational database identifies an entity as a table. In object-oriented programming, an entity is referred to as a class. The author's specific work is in the HisWord, ActToGod, Remember, APass tables. The scripture table serves as input for scripture reference, Bible word search, and gauge for AlphabetSequence.

Attributes

The Holy Spirit informed the Word.

Identifiers

Previously, the author thought of the word as unique.

Relationships

In most cases, surrogate keys such as ContactID, HisWordID are pointers to associations.

Degree-Two Relationships

Normalization results in a master Contact table with multiple details. There is a one-to-many (1:N) relationship.

Cardinality

Maximum cardinality

This is the largest number of possible occurrences on one side of a relationship. There can be only one contact for each contact detail.

Minimum cardinality

There may be no contact details for a contact.

Strength of Entity

The contact entity is strong because it can exist on its own. The weak contact details are existence-dependent on the contact entity.

ID-dependent entities

The weak contact details, primary keys include their ContactID.

(Allen G. Taylor, 2019).

Design Pattern

Title	Description	Commentary	Universal Resource Index (URI)
Accessor Pattern	Get and set an attribute by using a property.	The boundary to a property value. Readonly is achievable by disabling the set method.	
Delegation Pattern	Composition substitutes for inheritance.	The author does not inherit any class. But the author delegates by using composition to include existing services.	BibleBook.cs
Factory Pattern	Create subclasses from one or more methods.	At runtime, instantiate a variable object.	BallFactory.java
Immutable Pattern	An immutable object is unchangeable after creation.	A string object is immutable. Although behind the scenes a string object is a reference type, it is treatable like a value type. A StringBuilder object is changeable.	
Marker Interface Pattern	The marker interface pattern is empty. It is metadata that refers to additional work. Examples in Java include Cloneable, Remote, Serializable.	A class may implement the cloneable interface to identify support for the clone method, which may perform shallow or deep copy.	BibleBook.java
Singleton Pattern	Only a single instance is creatable.	At Daigaku Honyaku Center (DHC) there was a database table which is a reference and contains a single record.	SingletonPatternBible.java

Data quality management

- Data quality standards: The author is importing religious data from trusted sources. The author is following rigorous practice.
- Data quality assessment: The author is reducing human error by automating labor. Once a process is understood, the author computerizes the work.
- Data quality monitoring: The work has been on-going for at least the last 20 years; therefore, there is awareness of the expected results.

2025-04-25T10:53:00 What attribute the word? Autobiography... tying it into Biblical event

www.JesusInTheLamb.com

Saint James the Apostle Catholic Church. 34700 Fremont Boulevard. At the intersection of Fremont Boulevard and Ferry Lane. On the 3rd day, he lifted up his eyes. 3rd block from east. 5 poles east. 3 poles west

1. What? - Reservoir Lams ([John 1:28](#), [Matthew 27:14](#))
2. When? - So all the generations from Abraham unto David are fourteen generations; and from David unto the carrying away to Babylon fourteen generations; and from the carrying away to Babylon unto the Christ fourteen generations ([Matthew 1:17](#))
3. Where? - Golgotha ([Matthew 27:33](#), [Mark 15:22](#), [John 19:17](#))
4. Why? - And almost all things are by the law purged with blood; and without shedding of blood is no remission ([Hebrews 9:22](#))

2025-04-05T09:04:00 Composable Design

2025-04-05T13:41:00 I have the sequence, the time, and the word. Coming from Union City BART Station, close to the intersection of Paseo Padre Parkway and Darwin Drive. How will I dictate His use as a person?

(Juval Löwy of IDesign, 2019)

2025-04-24T11:20:00 What did he see... as on their side?

- 2025-04-24T11:20:00 They expect you to make a call. Visitation... report.
- 2025-04-24T13:21:00 The work started as 2025-04-24T13:28:00 non-prophetic attempt to understand technology, and its application to Christianity. The only date observed at the beginning was the calculation of the crucifixion of Christ. This is not defamatory, nor inflammatory.
- 2025-04-24T13:45:00 While the author is aware of other sources of information and conjecture, the author is undaunted.

2025-04-07T09:40:00 What he found out... without?

1. Faith ([Hebrews 11:1-2](#), [Hebrews 11:8-19](#))
2. Without the camp ([Hebrews 13:11-13](#))
3. Rest ([Hebrews 4:8](#))
4. Reverence ([Daniel 4:5](#))

2025-02-22T05:31:00 Our continuation of what we have here

2025-02-22T06:19:00 Akedah the binding of Isaac ([Genesis 22:12](#), [Genesis 22:20](#))

2018-07-01...2025-02-22=2428 days (6 biblical years, 8 biblical months, 28 days) (6 years, 7 months, 3 weeks, 2 days)

2025-02-24T13:07:00 With equal remembrance

- Prophecy
 1. Passover Lamb: Our LORD's Supper
 2. Beware of the Yeast of the Pharisees ([Matthew 16:5-12](#))
 3. Fig tree ([Matthew 21:19-21](#))
 4. Cock crow ([Matthew 26:34](#), [Mark 14:72](#))
- Fulfillment
 1. Temptation of Christ ([Matthew 4:1-11](#), [Luke 4:1-13](#), [Deuteronomy 8:3](#), [Deuteronomy 6:13](#), [Deuteronomy 6:16](#), [Mark 1:13](#))

70th Week of Daniel (Daniel 9:24-27)

2025-02-24T16:25:00 Do I bring the future as one of ours, or one of people?

- Who: Seed of the woman versus seed of Satan
- Where: Revived Roman Empire
 - 1. When: Interrupted after the completion of the first 69 weeks, which commenced from the commandment to rebuild Jerusalem
 - 2. Time span: 2520 days, punctuated in the midst of the week with the Abomination of Desolation.
 - 3. Completion followed by: 1000 years.

2025-02-13T02:58:00 Bible meaning

1. 2025-02-13T07:05:00 God counted the days during creation... God blessed the day of rest, the 7th day

2025-01-20T02:59:00 What is like? It is late at night, and I am riding a train with a few intermittent stops. The train will make its first early morning stop at Strathfield railway station at 6AM.

In the center, there were free donated rectangular paper boxed fruit drinks. There was also a yellow banana wrapped in a transparent container. 2025-01-20T14:39:00 They keep on insisting... on their brand of Christianity. Just before walking northward to the intersection of Paseo Padre Parkway and Blackstone Way.

1. 2025-01-20T07:37:00 12,000 virgins from the tribes of Israel, sum of 144,000 ([Revelation 14:4](#))

2025-01-15T15:22:00 What our lesson has?

2. 2025-01-15T15:52:00: Data: It is primarily the word of God in the WordEngineering database, HisWord table and Holy Spirit. With supportive information in the other columns on the HisWord table. The information in the other tables, such as, the Remember, Apis, ActToGod tables are extractable and computable from the HisWord table.
3. 2025-01-15T15:53:00: Textual: Can a student learn to generate this data, as you have? The only pre-requisite is the volume of Holy Spirit.
4. 2025-01-15T15:54:00: Textual: The author hears the word. The author is able to transcribe the words. The accent of the author is not fluent. The author is not artistically inclined, nor trained at capturing and transmitting audio or video.
5. 2025-01-15T16:02:00: Customization: How is the word this word supposed to be used? When the author receives the word, he makes effort to temporarily record the word on paper. At a convenient time, the author records the word on computer electronically.
6. 2025-01-15T16:07:00: Textual: What is the result of this word? 2025-01-15T16:08:00: What extend is the flavor, only to me. [Daniel 12:13] [Daniel 11:45] [Daniel 10:21] [Daniel 9:27] [Daniel 7:28] [Daniel 6:27] [Daniel 5:31] [Daniel 4:37] [Daniel 3:30] [Genesis 1:24-25] [Daniel 1:1-7]
7. 2025-01-15T16:35:00: What according to the same. [Genesis 2:2-9] [Daniel 9:24] 7. 2025-01-15T16:42:00: Your adopted father once chastised you. Why are you not like your twin sibling, asking? You said your earlier effort was not preaching. He asked, see word? I'm being used, your software at Dogika Honyaku Center (DHC).
8. 2025-01-15T16:44:00: The intersection of 4737 Hallelujah and Decoy Tree. What do we need, each other for? As example. [Daniel 9:24] [Genesis 4:7] [Genesis 4:24-26] 7. 2025-01-15T19:14:00: Milk & Honey Cafe, Pegasus Center. 34265 Fremont Boulevard, Fremont, California (CA) 94555. What is transpiring? What have you included?

- Robert Law Joss

Speak face-to-face	Dream or vision	Commentary	Scripture Reference
Moses	Other prophets	Leader	Numbers 12:6-8
Jesus Christ	Other teachers	Authority	Matthew 7:29

What does He involve?

Effect of the Progress(Luke 1:1-4, Daniel 9:22-23)?

- 1...many (Genesis 1:16, Genesis 1:26-2:4, Daniel 9:2)
- More at the same (John 15).

When did Israel...seek no region...as its own (Acts 1:6)?

1. The prophets
2. New Testament
 1. The Gospels: King of the Jews, the disciples
 2. Pauline Epistles, General Epistles
 3. Revelation, starting with the letters to the 7 churches in Asia Minor

We now fold our task

Study analysis? What complexity does it reason with? Temple lamb. How can computer use itself? What ability of using? I have stopoed using people as Myself

- The database is not currently multi-user. The HisWord table and the other tables in the WordEngineering database does not have a user column. Other people's point of view are pointed out in the ContactID, URI and scripture reference columns. The later work, The IHaveDecidedToWorkOnAGradualImprovingSystem database offers multi-user support.
- The bulk of the work is query.
- There are input, processing, output. How is your task...duplicable?

- 2024-11-20T05:30:00.000Z

2024-11-20T05:38:00 Ordering

2024-11-20T07:59:00 Do I make a separation between physical and spiritual?

- Forerunner: Jesus and John the Baptist (Luke 1, Matthew 3, [John 3:22-36](#), [Matthew 17:12-13](#))
- Levitical priesthood ([Hebrews 7:14](#) , 1 Samuel 3, Numbers 3)
- Sitting on a high place: Humble... exalt ([Luke 14:7-11](#))
- Baptism: Washing of feet (John 13)
- Marriage: Younger before the firstborn? ([Genesis 29:26](#))

What will count, forever?

Word	Scripture Reference
Believer in Jesus Christ	John 11:26
Kingdom of God	Daniel 2:44-45
<u>Charity</u>	1 Corinthians 8:1 , 1 Corinthians 13:1 , 1 Corinthians 13:2 , 1 Corinthians 13:3 , 1 Corinthians 13:4 , 1 Corinthians 13:8 , 1 Corinthians 13:13 , 1 Corinthians 14:1 , 1 Corinthians 16:14 , Colossians 3:14 , 1 Thessalonians 3:6 , 2 Thessalonians 1:3 , 1 Timothy 1:5 , 1 Timothy 2:15 , 1 Timothy 4:12 , 2 Timothy 2:22 , 2 Timothy 3:10 , Titus 2:2 , 1 Peter 4:8 , 1 Peter 5:14 , 2 Peter 1:7 , 3 John 1:6 , Jude 1:12 , Revelation 2:19
First resurrection	Revelation 20:5-6
Promised Land	Revelation 3:12 , Revelation 21:2
Messianic Covenant	Jeremiah 31:31-33
Divided according to the children of Israel	Deuteronomy 32:8

What I use people for (Job 35:6-8)?

- Sin against people
- Sin against God.

How are people as a result of Me?

A programmable approach

This I have devoted to...that you may find me useful (Revelation 2:7, Revelation 22:2, Revelation 22:14, Revelation 21:23, Revelation 21:27, Revelation 3:12, Revelation 21:2)

2. The output is in the JSON and HTML format with support for export into the CSV, JSON, XML.

What is the supplement?

Word	Commentary	Scripture Reference
Greatest Commandment	Love the LORD thy God. Love thy neighbor as thy self.	Matthew 22:36-40 , Deuteronomy 6:4-9 , Mark 12:28-31
Forerunner	The law and the prophets were until John	Luke 16:16

Is this generation the same?

Word	Scripture Reference
Seed	<u>Isaiah 53:11, Genesis 3:15</u>
Lead	<u>Matthew 23:9, John 15:15</u>
Interval	<u>Hebrews 11:39-40</u>

The phases are optional of the progress

- The distribution of allocation? Time, place...
- What exists as the present (Deuteronomy 32:8)?
- It is one man doing...it is many doing.

2026-02-09T21:51:00 What did He pair? To be essentially the way. (Genesis 1:26).

- Father, Son, Holy Ghost: Creator
- Great lights: Signs
- Angels and man

To seek someone else as I

Actor	Commentary	Scripture Reference
God	Man	<u>Genesis 1:26-27</u>
Adam	Helper	<u>Genesis 2:18-25</u>
Eve	Seed of the woman	<u>Genesis 3:15</u>
Leader	Successor	<u>Acts 26:29</u>

What is according to time?

Word	Scripture Reference	Commentary														
Beginning	Genesis 1:1	<table><tr><th>Word</th><th>Scripture Reference</th><th>Commentary</th></tr><tr><td>Jesus Christ</td><td>John 1:1-8, John 3:16, John 3:18, Hebrews 11:17, 1 John 4:9</td><td>Only begotten Son of God</td></tr><tr><td>Eunuch</td><td>Matthew 19:12</td><td></td></tr><tr><td>Paul</td><td>Acts 21:39, Acts 22:3, Acts 22:28</td><td></td></tr></table>	Word	Scripture Reference	Commentary	Jesus Christ	John 1:1-8, John 3:16, John 3:18, Hebrews 11:17, 1 John 4:9	Only begotten Son of God	Eunuch	Matthew 19:12		Paul	Acts 21:39, Acts 22:3, Acts 22:28

Paul	Acts 21:39, Acts 22:3, Acts 22:28															
Forever	Matthew 18:22															
Spir, rainbow, festival, event, cumulative	Genesis 1:14															

Intellectual presuppositions to enable the rise of science

1. Intelligibility of nature: Words were part of his life.
2. Order in nature: To digest what has been and reckon what will be.
3. Contingency of nature: To take one's own as one's possibility.

Understanding is achievable

1. Observe: Read the Bible and record words spoken.
2. Test: Compare the words in the Bible with the words heard
3. Measure: Apply metrics to gain closeness.

(Stephen C. Meyer)

What is the aptitude of this work?

- AlphabetSequence spreads out.
- Dates are lined up.

Words out of numbers.

Where is the knowledge added? The word column is how the author is up-to-date? The others are man's work.
Telling intelligence? What did Hagar say? Her only speaking was with the one that sees?

What specially like Him?

What specially like Him? (1 Corinthians 15) I spoke to task.		
Event	Feature	Scripture Reference
Creation	Image of our ancestors	Genesis 1:26-27; Genesis 2:7; Genesis 6:3; Luke 3:38
Redemption	Image of the Son	1 John 3:2

Do you know mine? (Deuteronomy 18:15)		
God	Actor	
	Moses	Jesus
Name	Jehovah (Exodus 6:3)	Father (Matthew 23:9)
Place of Origin	Egypt (Exodus 2:19)	Bethlehem (Matthew 2:1-18; Luke 2:1-20; John 7:42)

2022-08-08T19:00:00 Country

2025-04-17T04:38:00 We have considered place grouping, as in countries. Should we also consider 2025-04-1705:22:00 man grouping?

2025-04-1700:00:00 Epoch timestamp: 1744848000

2025-04-1705:12:00 Place grouping... man grouping 2025-04-1804:06:00 (Genesis 48:4)?

2025-04-17T06:16:00 Do we choose... a realization of him?

- 2024-07-09T18:30:00 He has always out it in... context of time.

- 2024-09-15T13:39:00 How our cast... is never... design as lasting?

- 2022-08-08T19:00:00 Discusses the Devil?

- 2024-07-23T09:22:00 To be an African's... Nation.

- 2024-09-24T11:01:00 I have brought shame to my people. The word came just before I got to the south of the Paseo Padre Parkway Highway 880 overhead bridge, but I was asked to delay, suspend, interrupt writing the word, until I got to the north of the bridge. I saw a husband wearing a purple shirt, and a wife wearing a green shirt.

- 2022-10-08T11:08:00 To work as a part of Me?

- 2023-06-07T19:31:00 Do we accommodate the usual? Country of privilege? I saw Barney John and his wife, Bernadette John, of 4770 Canvasback Common. Country citizenship for Jews and Palestines?

Associated culture

1. Associated culture (Acts 7:22; Matthew 15:2; Mark 7:3; Mark 7:5; Daniel 1:3-5)

What I am rendering? To what particular use... is me (Matthew 16:18)?

What do I form out of this?

How do I expand on the word? Scripture reference or personal testimony (Genesis 2:18-25; Genesis 3:15; Genesis 41:45; Daniel 2:45)?

What is the reward of the past?

From that day (1 Samuel 16:13; 1 Samuel 18:9; 1 Samuel 30:25; Ezekiel 39:22; Ezekiel 48:35; Matthew 22:46; John 11:53)...

1. Salvation (Exodus 14:13)

2. Commit (Luke 23:46; Psalms 31:5)

What personifies the time?

1. First and Last Adam (1 Corinthians 15:45)

2. Firstborn (Romans 8:29; Colossians 1:15; Colossians 1:18; Hebrews 12:23)

What does authoring the word do? To shed as much light as our opening (Genesis 1:1-1:5; Luke 4:16-4:32; John 2:1-2:11).

Why computer cannot be our cap? AlphabetSequence is like a calculator. The logic is straight forward and it is not varying in part.

Spirit of the Antichrist

- Human sacrifice.

- Including love baba ti won...including love their own father.

- What I do was able to learn the importance of the disease. I am in a bus and I flirted with some females. I got off and I made my way home, westward. Again, I got off and I entered an office. Workers are giving away vouchers. I got some vouchers too even though I may not eligible. I entered a taxi. The driver accused me of being fraudulent. After some thought, I ran westward towards divided streets which may prevent me from being getting caught.

- According to wordiness. (1 Timothy 6:12).

How do you reference the Bible?

Word	Scripture Reference	Commentary
Prophecy fulfillment	Isaiah 61:2; Luke 4:19; Daniel 9:24-27; Matthew 5:18	Iota

Words are way.	
Word	Scripture Reference
Punctual	Genesis 1
Anti	Genesis 2:17; Genesis 3:3-4; John 12:34
Babel	Genesis 11:9
Stricter versus (VS) flexible	Matthew 18:22

Mentions the most?

Word	Reference
Calendar	Day; Month; Year

Multi-Lingual	Psalms 81:5

A remembrance of Himself in us?

Word	Commentary	Scripture Reference
Shema	The term remember occurs 210 times in the KJV Bible.	Deuteronomy 6:4-9
Passover Lamb		John 1:29, John 1:36
10 Commandments	The 10 Commandments are separated into love for God and your fellow man like yourself.	Exodus 20:2-17, Deuteronomy 5:6-21
Prophecy and Fulfillment		Daniel 9:2
Book of the Law		Joshua 1:8
Deuteronomy	The title of the last book of Moses means remembrance.	Exodus 20:2-17, Deuteronomy 5:6-21
Sabbath-Day and Festivals	Periodic anniversaries of His work.	Exodus 20:11
Remember Lot's wife.		Luke 17:32

How to have association...with guidance?

Word	Scripture Reference
Greatly beloved	Daniel 9:23, Daniel 10:11, Daniel 10:18
Birthright	Daniel 1:3-4
Marital bestowment	Ruth 2:10

What describes people?

Word	Commentary	Scripture Reference
Role	Trying as a simple example of resemblance.	Genesis 4:26
Physical Appearance	Such as I choose of Myself?	Genesis 1:26-27, Genesis 5:3, Genesis 9:6, 1 Samuel 9:2, Isaiah 53:2, Zechariah 11:17

It is not how much you give; it is who you give, Oh LORD.

Word	Scripture Reference	Measurable
Holy Spirit	John 3:34	No
Babel	Genesis 11:9	No
Promised Land	Genesis 12:7, Genesis 13, Ezekiel 33:24	No
Census	1 Chronicles 21:2	Yes

Where do I call on change?

Word	Commentary	Scripture Reference
Actor	The law and the prophets: Can I prepare man for an event of time?	
Event	When does man decide His future is as reminded? Connecting the past as I use.	Genesis 1, John 1

To Reckon as Size

- Light (Genesis 1:16)
- Sabbath (Genesis 2:2-3)
- Autonomy (Genesis 4:9)

What has this Research Revealed?

- GetAPage.html draws resources from a large part of the Bible. *What exactly I know, as necessary of me? How numerous we are made.*
- *You do remember based on the data, do you need to collect the data, if you don't do remember?*
- *What does the word as a verb?* In Yonuba?
 - Complete
 - Late
 - Call
 - Thanksgiving

Where am I, as a human being?

- *The life of appointing something as myself.*

Word Inference

- A lot of Yonuba language words may mean ethnic conflict.
- The Bible is specific in relation to the Jews. The word, about, generally refers to the surroundings and the time of an event.

Preeminence of Data?

How suitable is the data for general use?

Coming from an Information Background

- Familiarize with keyword Noun.
- Letters in the English language
- The work? Is to associate the reference.
- How could I collaborate fact with what I know?

On behalf, of someone, I seem

Actor	Type	Scripture Reference
Jesus Christ	Passover Lamb	John 1:29, John 1:36
John the Baptist	Forerunner	John 1:33
Moses	Prophet	Exodus 7:1, Numbers 12:6, Deuteronomy 18:15, Deuteronomy 18:18, Deuteronomy 34:10

What substitution lies ahead?

Actor	Type	Scripture Reference
Seth	Man	Genesis 4:25, Genesis 5:3
Abraham	Believe	Romans 4
Isaac	Land	Genesis 26:2, Genesis 26:12

The Accumulation of Age

Title	Time	Scripture Reference
Creation	6 Days	Genesis 1
Exodus from Egypt to the Promised Land	40 Biblical Years	Exodus 16:35, Numbers 14:33-34, Numbers 37:13, Deuteronomy 2:7, Deuteronomy 8:2, Deuteronomy 8:4, Deuteronomy 29:5, Joshua 5:6, Nehemiah 9:21, Psalms 95:10, Amos 2:10, Amos 5:25, Acts 7:36, Acts 7:42, Acts 13:18, Hebrews 3:3, Hebrews 3:17
Weeks of Years	490 Biblical Years	Daniel 9:24-27
First Resurrection	1000 Biblical Years	Revelation 20:2-7

What did He see Himself as?

What did He see Himself as?

Alias	Scripture Reference
Son of God	Matthew 16:13-20
Son of David	Matthew 22:42
Son of Man	1 Corinthians 15:45
Word	John 1

There is more to you, than you are. (Ephesians 3:18) .

We want personal data, when is public data sufficient?

From...Until AlphabetSequence

- God expressed His wish for me
- God spoke intermittently
- God explicitly mentioned about some of the specific people that were in my life
- To acknowledge, where I am present. I had left Westpac, I was at DTEC. God asked me to leave my friends at Campsie and relate with Lakemba.
- God did not initially identify Himself, with a particular name

The author will not break each experience into sequences. At this late stage of the research, the author is content, with his original table design, and will elaborate, when it is appropriate, to newer suggestions.

(John Whalen).

How amenable am I the same?

Type	Commentary
Man	Election - Did He share His hope?
Place	Promised Land - Where I will inhabit?

As the Open?

Actor	Commentary	Scripture Reference
Adam	The first man will need a companion	Genesis 1:26-31, Genesis 2:6-25

Quality Assurance

- [Quality Assurance](#)
- To achieve performance beneficiary, the author uses AJAX, a single Javascript and CSS file, and minute images.
- The author's work is largely based on the SQL's SELECT statement, a matured declarative language, which the author uses to query God's word.
- The author relies on the Bible database, a recognized source of information, which has stood the standard of time.
- The reason for AlphabetSequence is because the author lacks Biblical knowledge. The author sought for a way to reconcile what he is hearing with the established word.
- The SQL COUNT(), AVG() and SUM() Functions are row-based.
- Code Analysis: [JSP](#), [E4G](#)
- Questionnaire: [RatingRank InDefine](#)

Prepared for Time

On 2019-04-04T09:00:00 [andre.nguyen@gpm.com](#) will telephone me about the role with Google's co-founder Larry Page [jobs.lever.co/kltbhawk_serp/701c6d9e-2d8a-4727-a345-d4a93d6dc277?openvid=3b8e0b44-7127-4709-ad21-6eb8e5f7403](#) Andre Nguyen asked how I spend my day? 2026-01-19T11:32:00 [You have tried to supediment... what God has given you](#), 2026-03-03T11:24:00 [He compliments... our way](#), I was reading the Bible... He was giving me a word.

When I started AlphabetSequence, I ate my only daily meal at 6PM, read the Bible and went to bed. I could break my day into punctual scheduled activities, such-as:

- Wake-up
- Brush my teeth and shower
- Breakfast
- Work
- Lunch
- Dinner
- Bedtime

This is how most people, live their lives; this is what I have accepted as mine. When I receive a word, I make it my work, to record the word and personalize my entries. I try to match this new story segment, with the preceding and forthcoming event threads.

When the author observes explicit experiences, he may record this additional data, in the HisWord's table ContactID, ScriptureReference, Location and Scene columns. [How relevant is Your word to our opinion?](#) This projection may result in entries of new records in the Remember and Apass tables. [Where are people, his relation?](#)

[However, he is present, that is how Love](#)

- If I have a paper and pencil available, I write down the word, and I calculate the AlphabetSequenceIndex.
- When I have access to the database, I enter and store the record electronically.
- Computer access means the resultset is retrievable via GetAPage.html.
- Text editor is useful for writing SQL

2024-07-01T18:27:00 34324 Seward Drive, Fremont, California (CA) 94555

[How do we develop... our past time?](#) ([Genesis 37:19-20](#), [Daniel 6:5](#))?

God's Word; Human Interpretation

The author separates the word of God from the supporting information:

- Cast which fits into the Contact ID column
- Scripture reference is the Biblical theme
 - Scenery which is the dream setting
 - Location which is an awake surrounding
 - Language translation

Specificity guides our entries into the HisWord table; for example if the information is not explicit, do not record it. This means that the nullable columns may be left empty. When there are more than one possible entries, choose the most rare.

[What we do minimally, is how we do enormously](#).

God may put a thought or question in my mind, rather than sharing a word? To know the need of revealing one another?

- How do you, reference the Bible?
- Search Engine? Requires Internet access.
 - [ScriptureReference.html](#) Requires Bible knowledge and place in the Bible.
 - [BibleWord.html](#) Requires word knowledge
- What is the certainty of the word:
- When the author hears a word and there is a reference to a place in the Bible, this affirms the word's relevance to the Scripture.
 - Grammatically correctness is also vital.
 - If a word correlates with a historical event, then it is credible.
 - When the Spirit leads and guides towards an utterance ([Matthew 10:19-20](#)).
 - Where am I, resemblance of how I am made ([1 Corinthians 14](#))?
- What does He choose as example?
- God rested on the Sabbath day ([Luke 23:56](#))
 - Jesus Christ ([Daniel 9:24-27](#), [1 Corinthians 15:45](#), [1 Corinthians 15:47](#))
 - Men such as King David ([2 Kings 14:3](#), [2 Kings 15:2](#), [2 Chronicles 28:1](#), [Amos 6:5](#))
 - Place such as Sodom ([Matthew 10:15](#), [Matthew 11:23-24](#), [Mark 6:11](#), [Luke 10:12](#), [Luke 17:29](#), [Romans 9:29](#), [2 Peter 2:6](#), [Jude 1:7](#), [Revelation 11:8](#)).
 - Other living things ([Numbers 22:21-31](#)).

To whose advantage am I?

In every scenario, we participate in, our last outcome should be holy ([2 Samuel 12:14](#)). Future study, may consider the actors in the Bible, and award their holiness in each scenario.

Centeredness

This is our attempt to find follow-up, continuity in the Bible. A brief repetition of our activities, subsequently, Firmer consequence ([Isaiah 23:15](#), [Isaiah 23:17](#), [Jeremiah 25:11](#), [Jeremiah 25:12](#), [Jeremiah 29:10](#), [Daniel 9:2](#), [Zechariah 7:5](#)). Listed below are some of the repeated reinforcements.

Samson's Birth (Judges 13)

An angel of the LORD appears to the wife of Manoah and prophesy that she will give birth to a Nazirite son ([Judges 13:2-5](#)). The same angel appears to Manoah and his wife ([Judges 13:6-25](#)). The angel reinforces their responsibility and defers reverence to God.

The Birth of the Messiah (Luke 1)

Foretelling the birth of John the Baptist ([Luke 1:5-25](#), [Malachi 4:5](#)). Transitioning the present to the after ([Luke 1:12](#)). Foretelling the birth of Jesus Christ ([Luke 1:26-38](#)). Continuing the Davidic line ([Luke 1:32-33](#), [2 Samuel 7:12-13](#), [2 Samuel 7:16](#)).

The Baptism of Cornelius (Acts 10)

The Bible does not explicitly mention the citizenship of Cornelius, but it mentions his rank as a centurion in the Italian band ([Acts 10:1](#)). Simon Peter is a fisherman, but without the LORD's presence, fishery is not sustaining ([Luke 5:4-11](#), [John 21:3-6](#), [Matthew 17:24-27](#), [Acts 10:9-16](#)). What I bring to Him; is me alone, to value Him.

Full Position

The first occurrence of the word, full, in the Bible, occurs in ([Genesis 14:10](#)), and is in reference to the vale of Siddim, which was full of slime pits, and this is where the kings of Sodom and Gomorrah fled, and fell. The father of the faithful, Abraham, died, full of years, and the son of promise, Isaac, died, full of days ([Genesis 25:8](#), [Genesis 35:29](#)); The last occurrence of the word, full, in the Bible, occurs in ([Revelation 21:9](#)). Living a presence ([Jeremiah 28:11](#)). To creating a future full of all. To creating a future free of all.

One Chance; Seem the Rest.

Our LORD's prayer is a communal prayer; directed to the one God ([Matthew 6:9-13](#), [Luke 11:2-4](#)). Please note that it is Jesus; teaching this prayer; so He doesn't refer to Himself or the Holy Spirit explicitly; as in another passage, when He mentions Himself as the bread ([John 6:31-35](#)). He explains the truth; that we may fall short of it, by explicitly referring to the Father. He is alluding to the events in the apocalyptic books, Daniel and Revelation. We are on earth, and we have an earthly father; where we are, is not where, we wish and will to reside ([Matthew 6:9](#), [Luke 11:2](#), [Daniel 2](#), [Revelation 5](#)). When no matter, where I go; this is how, I Am found ([John 20:12](#)).

To set everything true

The word, [true](#), occurs in seventy-seven verses in the Scripture Bible, and there are eighty-one occurrences. True, first occurs in Joseph's interaction with his brothers ([Genesis 42:11](#), [Genesis 42:19](#), [Genesis 42:31](#), [Genesis 42:33](#), [Genesis 42:34](#)); Jacob had colluded with Rebecca, his mother, to get Isaac, his father's, blessing; God shows that Joseph will have elevation over his parents and siblings. There are ten occurrences of the word, true, in the book of ([Revelation](#)); in response, to God.

To Whom Masculine?

How the Bible compares the gender?

Man, after his Fall

During Creation, God asked all living things, be fruitful and multiply; God asked Adam to name the living creatures, and God required Adam to take care of the Garden of Eden, but this taking care is to dress and keep the garden; there is a role for man, the tree of the knowledge of good and evil, and the tree of life. God did not specify the welfare of animals. Out of Adam, God made a helper for Adam, Eve.

After the Fall of Man, Adam's labor will be thorough; and there is enmity between the serpent and Eve, and each other's seed; and Eve will have pain, during child-birth.

God made coats of skins, and clothed them; it is our presumption, that the clothing is from living things, generally perceived as an sacrificial animal(s), but since this clothing is not specified, an alternative, is that it is a plant, or another creature entirely.

God created an adult male, Adam; and his female counterpart, Eve ([Deuteronomy 2:14](#), [John 5:5](#)). There is no mention of Adam's activity, after the fall of man; as Eve bares and name their children; Adam's earlier effort, which was to cater for the Garden of Eden and name the animals.

Man at Birth

We can only suggest, that the struggle between good and evil, continues upon the birth of Cain, Abel, and Seth. Eve named Cain, as her possession; and Seth, as the appointed seed.

God instituted male circumcision, which should take place on the eighth day, as man's responsibility in keeping the Abrahamic covenant.

At times, there is proclamation of a mantle, before livelihood; as in the case of Ishmael, Isaac, Jacob, Samson, John the Baptist, and Jesus Christ. In each example, there is a relationship between God and a parent; and God is directing, the offspring's onus.

The want similar to Christ; is to see yourself, among fold.

Man's Task

Historical man's profession are keeper of sheep, a tiller of the ground, handle the harp and organ, an instructor of every artificer in brass and iron. Unlike the first men, in the Bible, Seth's service was not identified, we only know that after the birth of Seth's son, Enos, men began to call, on the name of the LORD.

The 10 Commandments details the relationship we aspire to have with God, and our fellow-men.

God may consign men to oversee, as in the case of Melchizedek king of Salem, the priest of the most high God, and collector of tithes; Joseph, dreamer and interpreter, and he will save much life, in Egypt; as in incorporating the end. We share among us; as no foundation separates us.

Our choice is where we want to be? What we want to be?

A choice between what you have, and what you will want? ([Revelation 5:5](#), [Matthew 1:25](#), [Luke 2:7](#), [Romans 8:29](#), [Colossians 1:15](#), [Colossians 1:18](#), [Hebrews 11:28](#), [Hebrews 12:23](#)). Where I take you; is where you belong ([Genesis 13:14-18](#), [Deuteronomy 34](#)).

What points arrive at succession?

What points arrive at succession?	
Title	Scripture Reference
Begotten Son	John 1:18 , John 3:16 , John 3:18 , 1 John 4:9
Subject	1 Corinthians 15:28
Holy Spirit	Luke 1:35 , Acts 2 , 2 Thessalonians 2:7

Future Work

Fulfillment	Dear America, your loom angle of contract is dead.

From	2011-05-29
To	2011-09-09
Time Span	103 days (3 biblical months, 13 days) (3 months, 1 week, 4 days)
Prophecy	I spoke to Disraeli today, he said Israel must prepare for war, within twenty nine days. Played lawn tennis with some Hindi people.
Fulfillment	2011 attack on the Israeli Embassy in Egypt- Islamic State of Iraq and the Levant (ISIL).

From	2014-09-30
To	2016-09-30
Time Span	731 days (2 biblical years, 11 days) (2 years, 1 day)
Prophecy	We need to replace the cook top as the current is too old and not worth fixing. Cost will be \$659 supply and install of cooktop and dispose of old one.
Fulfillment	Joshua 6:26 Shimon Perez.

Autobiography

2024-12-25T19:12:00 Bimpe Bakarat Lawal returned my telephone call. Bimpe Bakarat Lawal said both uncle Demola and uncle Jimi had invited her to a party at the house of uncle Jimi.

- At Central Piedmont Community College (CPCC), the major course, students and colleagues include:
 1. An African American female senior, Gayle.
 2. An African American male classmate, Virgil Hawthorne. Who waited for the completion of an higher than college degree, prior to attending the graduation ceremony.
 3. Michael Poke, a Caucasian student colleague who wanted to come to the house to study together. He is mechanically inclined.
 - My twin sibling and I listened to American Top 40 with Casey Kasem, every Saturday morning. 2024-12-25T22:00:00 What estrange... of the people?
 - I planned to build a traffic light for my project.
 - In a multicultural church where I was part of the congregation, Bernie Alspaugh mentored. Perry drove me to church. I went to altar calls for masturbation prayers.
1. 2024-12-25T19:12:00 When I had the option... I have acclimatized.
2. 2024-12-25T19:23:00 Australia had browhit me in... to fit into the crowd.

2024-09-29T01:41:00 Adeyemo Adewuyi Adeniji

What role he played in your life?

- They had varying mother... but one father (Genesis 32:28).
- 2024-12-31T16:48:00 M Hair. Located in: Paseo Padre Shopping Center. Address: 34380 Fremont Boulevard, Fremont, California (CA) 94555. At the intersection of Fremont Boulevard and Paseo Padre Parkway, 3 motorcyclists rode northward.
- 2024-12-31T19:55:00 A male-dominated family. What adjustment did you need to make to your life? How your living resemble who?
1. Post 9-year-old re-location from Ile-Ife to Lagos
1. Patriarch, brother Yemo
2. Captain of the Nigerian national hockey team
3. Teacher for the 1st year of the Baptist Academy secondary school, evening schedule
4. The managing director of Gestco provided lunch money to eat at the Baptist Academy secondary school during form 2...5
2. Post-1988 deportation: You called him Daddy, that is what everybody else called him
- Where did he serve... a resident?
 - Where did I... remove myself from the past (Genesis 31:41)?
 - What apart... are new?
 - Spending time... to reality?

Faith An Yao

Age difference

1. Almost a Biblical generation, 40 years, separates Faith An Yao and the author.
2. 2023-08-31T08:57:00
1. In the year 2024, the author will turn 57 years old.
2. In the year 2024, Faith An Yao will turn 18 years old.
3. In the year 2024, the combined years of Faith An Yao and the author will be 75 years.

Diaspora

1. The author's 1st workplace in Nigeria and Australia was with Ibos and Jews respectively. Chyke Onyekwere like the author, studied in America. Ralph Silverman was a South African Jew. The author lived and worked in Lagos and Sydney, the commercial centers of both countries. Our experience and education must align with the migrants. As in Daigaku Honyaku Center (DHC). Reminded of success? Kowe? Yoruba speaking. Muñoz? Oral communication and speech. Where will I find the same... as me? I was setting training on how to... place my work in life? Looking at me as a reflection of you.

Education in Charlotte, North Carolina (NC)

In-spite of racism...we can observe.

1. Between 1994-1996, I completed 2 years of education at Central Piedmont Community College (CPCC), Charlotte, North Carolina (NC)
2. I graduated with 3 Associate degrees in Electronics, Computers, and Electrical Engineering Technology from CPCC
3. During the Summer of 1995, after completing the 1st Associate degree my twin sibling and I re-located to Atlanta, Georgia to live with my paternal uncle Niyi. Although I gained work employment at a fast food restaurant, I chose to return to CPCC to complete all 3 Associate degrees
4. Between 1996-1998, I attended the University of North Carolina, Charlotte (UNCC) and graduated with a degree in Electrical Engineering Technology - Computer Emphasis. I do not learn...out of others. My twin sibling and contemporaries are educational and career influences. I am a better tutor than a learner
5. • I contracted at SunHealth Corporation. I added report columns. Legal (8.5 x 14 inches)
- I was hired at McKey Real Estate to develop a relational database application using R-Base 5000. My stumbling block was either to use the integrated development environment (IDE) wizard or learn from the manual
 - In Charlotte, an African American male prospective employer asked me to learn the C programming language. At Central Corporation, I looked up to an African American male software engineer that came among others to install software. At Central Corporation, I also upgraded software developed using the C programming language by increasing the number of labels it prints for tape reels. What do I need of a capable human being? What resemblance has he made (Genesis 32:28 Genesis 5:3 Genesis 4:17)? What word reminds (Mark 11:23)?
